ARTICLE 17

PLANNED UNIT DEVELOPMENT (PUD)

SECTION 1700. INTENT

The intent of this Article is to provide an optional method for residential land development, which allows for flexibility in the application of the requirements governing the type of residential structures permitted and their placement on the property. PUD's permit the coordinated development on larger sites in order to protect significant natural features present which the property owner and City wish to preserve, provide the opportunity to mix compatible uses or residential types, or allow clustering of residential units to preserve common open space.

A PUD will provide for the development of land as an integral unit which incorporates within a single plan the location and arrangement of all buildings, drives, parking areas, utilities, landscaping, and any other improvements or changes within the site. Deviation from the specific site development requirements of this Ordinance may be allowed, so long as the general purposes for the requirements are achieved and the general provision of the Zoning Ordinance observed.

These PUD regulations shall not be used for circumventing the more specific requirements in this Ordinance, or the planning upon which the requirements are based. Rather, these provisions are intended to result in a development which is substantially consistent with the zoning requirements as generally applied to the proposed uses, but with specific modifications to the general requirements that, in the judgment of the City, assure a superior quality of development. If this improved quality is not clearly apparent upon City review, a site shall not qualify for the modifications allowable under this development option.

SECTION 1701. ELIGIBILITY REQUIREMENTS

The following conditions shall apply to all PUD's:

a. **Demonstrated Benefit.** The PUD shall provide one (1) or more of the following benefits not possible under the requirements of another zoning district, as determined by the Planning Commission:

   1. The site has significant natural or historic features which will be preserved through development under the PUD standards, as determined by the Planning Commission.
   2. A complementary mixture of uses or a variety of housing types.
3. The PUD will create a more desirable environment than would be possible through the application of strict zoning requirements applied in other sections of this Ordinance.

4. Common open space for passive or active recreational use or a design which preserves common open space, not possible under the standards of another zoning district.

5. Mitigation to offset community impacts.

6. Redevelopment of a nonconforming site where creative design can address unique site constraints.

b. Availability and Capacity of Public Services. The site shall be served by a sanitary sewer system and the municipal water system. The proposed type and density of use shall not result in an unreasonable increase in the use of public services, public facilities, and utility capacities.

c. Compatibility with the Master Plan. The proposed development shall not have an adverse impact on future development as proposed in the Au Gres Master Plan.

d. Compatibility with the Planned Unit Development Intent. The proposed development shall be consistent with the intent and spirit of this Ordinance.

e. Development Impact. The proposed development shall not impede the continued use or development of surrounding properties for uses that are permitted in this Ordinance.

SECTION 1702. PERMITTED USES

A PUD shall be permitted in all Zoning Districts. Residential types permitted in the underlying zoning district shall be permitted with additional uses as provided for herein. The PUD rezoning shall be concurrent with the approval of a PUD Preliminary Plan. The PUD designation shall be noted in the application, and on the Official Zoning Map upon approval.

a. Residential Density. The density of dwelling units within the approved PUD shall not generally exceed the density allowed for the underlying Residential District for which the zoning change is requested. The number of dwelling units allowed within a PUD shall be determined in the following manner:

1. The applicant shall prepare, and present to the Planning Commission for review, a parallel design plan showing the number of lots that could be developed on the site under the underlying zoning district.
2. The parallel design plan shall be submitted with the preliminary plan of the PUD.
3. The layout of the parallel plan shall comply with State and City requirements and design criteria for a tentative preliminary subdivision plat, fully consistent with Public Act 288 of 1967 (Land Division Act), as amended and the City subdivision control regulations. This design shall include all information that would be
required for a tentative preliminary plat, including areas appropriately sized for storm water detention. Such areas cannot be counted towards the permitted density.

4. The Planning Commission shall review the design and determine the number of lots that could be feasibly constructed following the parallel design. This number, as determined by the Planning Commission review, shall become the maximum number of dwelling units allowable within the PUD site.

b. **Attached Dwelling Units.** Where the underlying zoning is R-1, multiple family dwelling units shall be permitted meeting the density and design requirements of this Ordinance.

c. **Lot Dimensions.** Once the density has been established, the allowable number of dwelling units may be clustered with lot areas and widths reduced below the minimum requirement of the underlying zoning district, provided that the open space within the development equals or exceeds the total area of lot area reduction.

d. **Regulatory Flexibility.** The setback and density requirements of the underlying zoning district shall be used as guidelines for the residential open space PUD. To encourage flexibility and creativity consistent with the intent of the PUD regulations, the City may permit specific departures from the requirements of the Zoning Ordinance. A table shall be provided on the site plan that lists all deviations and regulatory modifications. Deviations shall only be approved through a finding by the City that the deviation will result in a higher quality of development than would be possible using conventional zoning requirements. Only those deviations consistent with the intent of this Article shall be considered. In no case shall a density bonus exceed an additional ten percent (10%) of the permitted number of dwelling units.

c. **Open Space.** All land within a development that is not devoted to a residential unit or road right-of-way shall be set aside as common land for neighborhood use, recreation, conservation, or agriculture. A minimum of fifty percent (50%) percent of the gross area of the site shall be dedicated open space held in common ownership. Open space shall be provided along the exterior public roads with a depth of at least one hundred (100) feet, either landscaped or preserved in a natural wooded condition.

**SECTION 1703. PUD DESIGN REQUIREMENTS**

All PUD's shall meet the following requirements:

a. **Open Space Requirements**

1. **Open Space.** All land within a development that is not devoted to a residential unit or road right-of-way shall be set aside as common land for neighborhood use, recreation, conservation or agriculture.
2. **Areas Not Considered Open Space.** The following land areas are not included as dedicated open space for the purposes of meeting minimum open space requirements:

   (a) Area proposed as single family residential or site condominium lots.
   (b) Area proposed to be occupied by multiple family dwellings, including the minimum required setbacks around buildings.
   (c) Any area proposed for a commercial land use.
   (d) The area of any road right-of-way or private road easement.
   (e) Any parking and loading areas.
   (f) Any submerged land area of a pond, lake or stream, provided protected wetlands and storm water ponds designed to appear, and function similar to a natural wetland may be counted for up to fifty percent (50%) of the minimum required open space.
   (g) Golf courses.

3. **Open Space Location.** Open space shall be planned in locations visible and accessible to all in the development. The open space may either be centrally located, along the road frontage of the development, located to preserve natural features, located to buffer adjacent farmland or located to connect open spaces throughout the development, provided the following shall be included within the open space area:

   (a) Open space shall be situated to maximize the preservation of any existing site woodlands or other significant natural areas.
   (b) A minimum one hundred (100) foot wide undisturbed open space setback shall be maintained from the edge of any stream or wetland; provided that the City may permit trails, boardwalks, observation platforms, or other similar structures that enhance passive enjoyment of the site's natural amenities within the setback.
   (c) Where adjacent land includes open space, public land or existing or planned bike paths, open space connections shall be provided between the site and adjacent open space. Trails between adjoining open space development shall be constructed to allow future interconnection between neighborhoods.

4. **Open Space Protection.** The dedicated open space shall be set aside in perpetuity by the developer through a conservation easement that is found acceptable to the City. The conservation easement shall assure that the open space will be protected from all forms of development, except as shown on an approved site plan, and shall never be changed to another use. The conservation easement shall provide the following:

   (a) Allowable use(s) of the dedicated open space shall be indicated. The City may require the inclusion of open space restrictions that prohibit the following:
(1) Dumping or storing of any material or refuse.
(2) Activity that may cause risk of soil erosion or threaten any living plant material.
(3) Cutting or removal of live plant material except for removal of dying or diseased vegetation.
(4) Use of motorized off road vehicles.
(5) Cutting, filling or removal of vegetation from wetland areas.
(6) Use of pesticides, herbicides, or fertilizers within or adjacent to wetlands.

(b) Requirements that the dedicated open space shall be maintained by parties who have an ownership interest in the open space. Requirements for scheduled maintenance of the open space shall be provided. The conservation easement shall provide for maintenance to be undertaken by the City in the event that the open space is not adequately maintained, or is determined by the City to be a public nuisance, with the assessment of costs upon the owners of the open space.

(c) A provision that the dedicated open space shall forever remain open space, subject only to uses approved by the City on the approved site plan. Further subdivision of open space land or its use for other than recreation, conservation or agricultural purposes, except for easements for utilities and septic systems, shall be strictly prohibited. Any change in use of the open space from what is shown on the approved site plan shall require City Board approval, based upon a recommendation by the Planning Commission, and shall not diminish compliance with the requirements of this Article.

(d) Nothing herein shall prevent the conveyance of open space to a public agency or other non-profit entity for recreational or conservation use.

b. Natural Features

1. **Limits of Tree Clearing.** The development shall be designed so as to preserve natural resources. The limits of tree clearing and grading shall be clearly shown on the preliminary site plan or plat.

2. **Animal or Plant Habitats.** If animal or plant habitats that are characteristic of pre-settlement habitat exist on the site, the City, as a condition of approval, may require that the site plan preserve these areas in a natural state and adequately protect them as nature preserves or limited access areas.

c. **Landscaping.** The following landscaping requirements shall be met in addition to other landscaping requirements in this Ordinance:

1. **Street Trees.** Both sides of all internal roads shall be landscaped with street trees. One (1) deciduous canopy tree shall be provided on each side of the road for every forty (40) feet of road frontage. Existing trees preserved within ten (10) feet of the road right-of-way or easement may be credited towards meeting this requirement.
2. Stormwater Detention Ponds. All ponds and stormwater management facilities shall be designed to fit into the natural landscape and provide a natural appearance. Landscaping shall be provided around the perimeter of the pond to create the appearance of a natural pond or wetland. Landscaping shall include a combination of deciduous canopy trees, shrubs, and grasses that are adapted to saturated soil conditions. Canopy trees may be dispersed around the perimeter, but should provide greater clusters in locations that will provide shade and minimize the heating effect of the sun on the stormwater detention pond. Storm water detention ponds shall be designed with shallow side slopes that do not require security fencing. For ponds not dedicated to the County Drain Commission, the development agreement shall provide for long term maintenance of the stormwater detention pond by the homeowners association.

d. Design Requirements

1. PUD Design Requirements. Signs, lighting, landscaping, building architecture and materials, and other features of the project, shall be designed to achieve an integrated and controlled development, consistent with the character of the community, surrounding development or developments, and natural features of the area.

2. Parking Lots. Site design and landscaping shall diminish the prominence of parking lots as viewed from public streets.

SECTION 1704. APPLICATION PROCEDURES

a. Applicant. An application for approval of a PUD shall be submitted by or on behalf of an applicant who has a demonstrable legal interest in all of the lands within the proposed development.

b. Pre-Application Conference. An optional pre-application workshop with the Planning Commission may be requested by the applicant to discuss the appropriateness of a PUD concept, solicit feedback and receive requests for additional materials supporting the proposal. An applicant desiring a workshop shall request placement on the Planning Commission agenda.

c. Preliminary Plan

1. Before submitting a final plan, an applicant shall submit a preliminary plan of the PUD, in accordance with requirements set forth in this Section. This plan shall show the name, location and main design elements so as to enable the Planning Commission to make a determination as to whether the Preliminary PUD is in keeping with the intent of the PUD Ordinance.

2. The Planning Commission shall conduct a public hearing on the proposed PUD preliminary plan and rezoning. Notice of said public hearing shall be published in the local newspaper not less than fifteen (15) days prior to the date of the public hearing and in accordance with the requirements of the Michigan Zoning
Enabling Act (Public Act 110 of 2006). All property owners of lands within thirteen hundred and twenty (1,320) feet of the property in question shall be notified by first class mail or personal delivery to each dwelling unit or other occupied structure.

3. The Planning Commission approval of a preliminary plan shall confer on the applicant the conditional right that the general terms and conditions under which the preliminary plan approval was granted will not be changed. After Planning Commission approval, the PUD rezoning shall be submitted to the Monroe County Planning Department for review and comment. At the same time the PUD rezoning and preliminary plan shall be submitted to the City Council for its approval or disapproval.

d. Preliminary Plan Application Submission Requirements. Fifteen (15) copies of each of the following items are required to be submitted as part of the preliminary plan application in addition to an application fee as established by the City Council:

1. Applicants name, address, phone number, proof of property interest, and the name, address, and phone number of the architect, engineer, or designer preparing the application.

2. A written legal description of the total site area proposed for development.

3. A site plan and supporting maps and drawing containing the following information at a scale of not more than 1" = 100' and sufficiently dimensioned so as to identify the size and location of the various elements of the plan:

   (a) Location map.
   (b) Site topography, existing and proposed at spot intervals (interval no greater than two (2) feet.
   (c) The general location of all existing and proposed buildings and structures.
   (d) Public and private roadways within and adjacent to the site.
   (e) Walkways within and adjacent to the site.
   (f) Park areas, driveways, and loading and service areas.
   (g) Open areas, and a description as to use.
   (h) A written tabulation of statistical data concerning the site, including the number of dwelling units by type, the area of all parcels created, the area of all common open space, and the number of parking spaces provided.
   (i) A parallel plan showing the number of lots that could be developed on the site under the pre-PUD zoning district.
   (j) A general landscape plan of landscaping within the site.
   (k) The location and screening of any outside trash containers.
   (l) The location and size of all known utilities and drainage facilities.
   (m) The general location of all proposed utilities and drainage facilities.
   (n) The dimensions of all parcels to be created as a part of the development.
   (o) General building elevation drawings showing the architectural style to be used in the development.
e. Final Plan

1. Upon approval of a preliminary plan application, a developer shall prepare and submit a final plan application in accordance with the requirements set forth in this Section. A final plan submitted in accord with an approved preliminary plan shall warrant approval by the Planning Commission and the City Council.

2. After a study of the proposed final plan for a PUD or part thereof, the Planning Commission shall, within thirty (30) days of the receipt of said plan, recommend to the City Council approval, approval with modification, or disapproval of the project. The Planning Commission shall prepare a report explaining its action. The Planning Commission shall recommend approval of a final plan unless it is determined that said final plan is not in accordance with the approved preliminary plan.

3. Prior to final plan approval by the City Council the developer shall have executed, and submitted in duplicate to the City, an agreement with the City setting forth:

   (a) The specific location and use of all common lands and common facilities within the development.

   (b) The organizational structure of homeowners association and the provisions for implementation of transfer of control to said association from the developer.

   (c) The methods for levying assessments on the common lands and facilities, both with respect to taxes and operation and maintenance fee.

   (d) Provisions enabling the City to enter in and maintain such common lands and facilities, both with respect to taxes and operation and maintenance fee.

   (e) Provisions whereby the Zoning Ordinance Enforcement Officer shall not issue a certificate of occupancy until all the required improvements as set forth in the site plan have been completed, or a financial guarantee sufficient to cover the cost of any improvements not completed, has been provided to the City as prescribed by the City Council.

   (f) Provisions to allow the City to enter and complete such improvements if the developer has failed to do so within the stated period of time.

4. Upon approval of a final plan application by the City Council, the developer may obtain necessary building permits for the construction of the PUD.

f. Final Plan Application Submission Requirements. Fifteen (15) copies of the following items are required to be submitted as part of the final plan application in addition to the submittal requirements described in ARTICLE 21 SITE PLAN REVIEW:

1. A written legal description of the total site area proposed for development. (2 copies)

2. A letter of transmittal setting forth the proposed development schedule, including the sequence of any phases of development. (2 copies)
3. The organizational structure of the homeowner's association to be formed for the financing, operation and maintenance of all common open space and common property and facilities within the development. (2 copies)

4. A copy of all covenants pertaining to the development. (2 copies)

SECTION 1705. PUD REZONING

The application for PUD rezoning is reviewed and approved in accordance with Article 28. The preliminary PUD plan is to be considered concurrently with the application for rezoning.

SECTION 1706. APPROVAL PERIOD

a. Preliminary Plan. The length of time during which the approval of the preliminary plan for a PUD remains valid shall be eighteen (18) months from the date of City Council approval. An extension may be applied for in writing by the applicant prior to the expiration date, and extensions may be granted by the City Council twice, each for a period of one (1) year.

b. Final Plan. The length of time during which approval of a final plan for a PUD remains valid shall be two years from the date of City Council approval. An extension may be applied for in writing by the applicant prior to the expiration date, and extensions may be granted by the City Council twice, each for a period of one (1) year. Where a PUD is being developed in phases, the initiation of each new development phase shall automatically extend the approval for two (2) years from the date of issuance of a land use permit.

SECTION 1707. PERFORMANCE GUARANTEE

a. Condition for Issuance of Temporary Certificate of Occupancy. If, when a certificate of occupancy is requested, all required site improvements have not been completed, the Zoning Ordinance Enforcement Officer may issue a temporary certificate of occupancy upon receipt from the developer by the City Clerk of a financial guarantee in the form of a cash deposit, certified check, irrevocable bank letter of credit or surety bond in an amount sufficient to cover the cost of outstanding improvements.

b. Covered Improvements. The amount of the performance guarantee shall be limited to cover the estimated cost of improvements necessary to comply with provisions of the Zoning Ordinance and any conditions attached to the PUD approval, and said improvements shall include, but not be limited to, roadways, lighting, utilities, sidewalks, screening and drainage.

c. Exemptions. This Section shall not be applicable to improvements for which a cash deposit, certified check, irrevocable bank letter of credit, or surety bond has been
deposited pursuant to Act. No. 288 of the Public Acts of 1967, as amended, being Sections 560.101 to 560.293 of M.C.L.

d. Completion Time. All required improvements covered by the performance guarantee shall be completed within two hundred forty (240) days of the issuance of the temporary certificate of occupancy. In the event all required improvements are not completed within the time period provided, the City, by resolution of the City Council, may proceed to have such work completed and reimburse itself for the cost thereof from the security furnished by the applicant proprietor.

e. Release of Performance Guarantee. The City Clerk may authorize the release of such financial security upon completion of the outstanding improvements. Any written request from the developer seeking a release of a portion of the financial security shall be accompanied by the written certification from the developer's engineer or architect certifying what part of the improvements have, in fact, been completed.

SECTION 1708. AMENDMENTS TO PLANS

Minor changes in the location, siting, or character of buildings and structures may be authorized by the Zoning Ordinance Enforcement Officer, if required by engineering or other circumstances not foreseen at the time the final development program was approved. No change authorized under this Section may increase by more than ten (10) percent, or decrease by more than twenty percent (20%), the size of any building or structure, or change the location of any building or structure by more than ten (10) feet in any direction; provided, not withstanding, anything in the foregoing, the Zoning Ordinance Enforcement Officer may not permit changes beyond the minimum requirements set forth in this Ordinance.

All other changes in the planned unit, including changes in the site plan and in the development schedule, must be made under the procedures that are applicable to the initial approval of the PUD.

SECTION 1709. SUBDIVISION REQUIREMENTS

Any PUD which will result in the creation of parcels of land under separate ownership, as defined in Act 288 of 1967, the Land Division Act, of Act 59 of 1978, the Condominium Act, shall comply with the provisions of those Acts.
ARTICLE 18
SITE CONDOMINIUMS

SECTION 1800. INTENT

The intent of this Article is to provide regulatory standards for condominiums and condominium subdivisions similar to those required for projects developed under other forms of ownership. This Article is not intended to prohibit or treat a proposed or existing condominium project different than a project or development under another form of ownership.

SECTION 1801. DEFINITIONS

The following terms are defined both in the context of the Condominium Act and in a manner intended to make comparison possible between the terms of this Zoning Ordinance and the Condominium Act.

b. Condominium Subdivision. Equivalent to the term subdivision as used in this Zoning Ordinance.

c. Condominiums Subdivision Plan. The site, survey and utility plans: floor plans; and sections, as appropriate, showing the existing and proposed structures and improvements including the location thereof on the land. The condominium subdivision plan shall show the size, location, area, vertical boundaries and volume for each unit comprised of enclosed air space. A number shall be assigned to each condominium unit. The condominium subdivision plan shall include the nature, location and approximate size of common elements.

d. Condominium Unit. That portion of the condominium project designed and intended for separate ownership and use, as described in the master deed.

e. Consolidating Master Deed. The final amended master deed for a contractible condominium project, an expandable condominium project, or a condominium project containing convertible land or convertible space, which final amended master deed fully describes the condominium project as completed.

f. Contractible Condominium. A condominium project from which any portion of the submitted land or buildings may be withdrawn pursuant to express provisions in the condominium documents and in accordance with this Ordinance and the Condominium Act.

g. Conversion Condominium. A condominium project containing condominium units some or all of which were occupied before the establishment of the condominium project.
City of Au Gres Zoning Ordinance

h. Convertible Area. A unit or a portion of the common elements of the condominium project referred to in the condominium documents within which additional condominium units or general or limited common elements may be created pursuant to express provision in the condominium documents and in accordance with this Ordinance and the Condominium Act.

i. Expandable Condominium. A condominium project to which additional land may be added pursuant to express provision in the condominium documents and in accordance with this Ordinance and the Condominium Act.

j. Front Yard Setback. The distance between the front yard area line and the condominium dwelling.

k. Lot. The same as Homesite and Condominium Unit.

l. Master Deed. The condominium document recording the condominium project as approved by the Zoning Administrator to which is attached as exhibits and incorporated by reference the approved bylaws for the project and the approved condominium subdivision plan for the project.

m. Rear Yard Setback. The distance between the rear yard area line and the condominium dwelling.

n. Side Yard Setback. The distance between the side yard area line and the condominium dwelling.

SECTION 1802. CONDOMINIUM SUBDIVISION APPROVAL

Pursuant to authority conferred by Section 141 of the Condominium Act, Act 59 of 1978, as amended, all condominium subdivision plans must be approved by the Planning Commission. All condominium plans must be approved by the Planning Commission following the same process identified in ARTICLE 21 SITE PLAN REVIEW. In making its determination, the Planning Commission shall consult with the Building Official and Zoning Administrator, City attorney, and the City engineer regarding the adequacy of the master deed, deed restrictions, utility systems, streets, project design and layout and compliance with the Condominium Act.

SECTION 1803. CONDOMINIUM PROJECTS

The following regulations shall apply to all condominium projects within the City of Au Gres. Concurrently with notice required to be given the City of Au Gres pursuant to Section 71 of Public Act 59 of 1978, as amended (MCL 559.171) a person, firm or corporation intending to develop a condominium project shall provide the following information with respect to the project:

a. The name, address and telephone number of:

1. All persons, firms or corporations with an ownership interest in the land on which the condominium project will be located together with a description of the nature of each entity’s interest (for example, fee owner, optionee, or land contract vendee).
2. All engineers, attorneys, architects or registered land surveyors associated with the project.
3. The developer or proprietor of the condominium project.

b. The legal description of the land on which the condominium project will be developed together with appropriate tax identification numbers.

c. The acreage content of the land on which the condominium project will be developed.

d. The purpose of the project (for example, residential, commercial, industrial, etc.).

e. Approximate number of condominium units to be developed on the subject parcel.

SECTION 1804. SETBACKS AND BOUNDARIES

The setback requirements for condominium buildings shall be determined as follows:

a. Single-family detached units:

1. Front yard Setback. One-half the approved or recorded street right-of-way, plus the current setback for the existing zoning district.
2. Side yard Setback. The distance between units shall be twice the zoned minimum of a typical single lot side yard setback. The distance from the unit to the limit of development shall meet the existing zoned minimum.
3. Rear yard Setback. The distance between the rear of two (2) units shall be twice the zoned minimum rear yard setback of a typical single lot rear yard setback. The distance from the rear of the unit to the limits of the development shall meet the existing zoned minimum.

b. Multiple-family buildings shall meet the standards of multiple-family development.

c. The relocation of boundaries as defined in Section 148 of the Condominium Act shall conform to all setback requirements of this Ordinance of the district in which the project is located, shall be submitted to the Planning Commission for review and approval and these requirements shall be made a part of the bylaws and recorded as part of the master deed.

SECTION 1805. INFORMATION TO BE KEPT CURRENT

The information shall be furnished to the Zoning Administrator and shall be kept updated until such time as a Certificate of Occupancy has been issued.

SECTION 1806. SITE PLANS - NEW PROJECTS MASTER DEED, AND ENGINEERING AND INSPECTIONS

1. Prior to recording to the Master Deed required by Section 72 of Public Act 59 of 1978, as amended (MCL 559.108), the condominium project shall undergo application and
review procedures pursuant to ARTICLE 17 PLANNED UNIT DEVELOPMENT of this Ordinance, if submitted as a Planned Unit Development, or otherwise under ARTICLE 21 SITE PLAN REVIEW.

2. In determining whether to approve a condominium subdivision plan, the Planning Commission shall consult with the Zoning Administrator, City Attorney and City Engineer, regarding the adequacy of the master deed, deed restrictions, utility systems and streets, subdivision layout and design, and compliance with all requirement of the Condominium Act.

SECTION 1807. CONDOMINIUM SUBDIVISION PLAN - REQUIRED CONTENT

All condominium subdivision plans shall include the information required by Section 66 of the Condominium Act and the following:

a. A survey plan of the condominium subdivision.
b. A floodplain plan, when appropriate.
c. A site plan showing the location, size, shape, area and width of all condominium units.
d. A utility plan showing all sanitary sewer, water, and storm sewer lines and easements granted to the City for installation, repair and maintenance of all utilities.
e. A street construction, paving and maintenance plan for all private streets within the proposed condominium subdivision.
f. A storm drainage and stormwater management plan, including all lines, swales, drains, basins and other facilities.
g. Location and placement of street and or pedestrian scale lighting.
h. Sidewalk Ordinance (refer to Appendix).
i. Pedestrian Ways, if included in the Plan.
j. All other information required for site plans in Article 21.

SECTION 1808. EXPANDABLE OR CONVERTIBLE PROJECTS

Prior to expansion or conversion of a condominium project to additional land the new phase of the project shall undergo site plan review and approval pursuant to ARTICLE 21 SITE PLAN REVIEW of this Ordinance.

SECTION 1809. MASTER DEED, RESTRICTIVE COVENANTS AND AS BUILT SURVEY TO BE FURNISHED

The condominium project developer or proprietor shall furnish the Zoning Administrator with the following: One (1) copy of the recorded Master Deed, one (1) copy of all restrictive covenants and two (2) copies of an as built survey. The as built survey shall be reviewed by the City Engineer for compliance with City ordinances. Fees for this review shall be established by resolution of the City Council.
SECTION 1810. MONUMENTS REQUIRED

All condominium projects which consist in whole or in part of condominium units which are building sites, or recreational sites shall be marked with monuments as provided in this subsection:

a. Monuments shall be located in the ground and made according to the following requirements, but it is not intended or required that monuments be placed within the traveled portion of a street to mark angles in the boundary of the condominium project if the angle points can be readily reestablished by reference to monuments along the side lines of the streets.

b. All monuments used shall be made of solid iron or steel bars at least one-half (1/2) inch in diameter and thirty-six (36) inches long and completely encased in concrete at least four (4) inches in diameter.

c. Monuments shall be located in the ground at all angles in the boundaries of the condominium.

d. project; at the intersection lines of streets and at the intersection of the lines of streets with the boundaries of the condominium project and at the intersection of alley's with the boundaries of the condominium project: at all points of curvature, points of tangency, points of compound curvature, points of reverse curvature and angle points in the side lines of streets and alleys; at all angles of an intermediate traverse line and at the intersection of all limited common elements and all common elements.

e. If the required location of monument is an inaccessible place, or where the locating of a monument would be clearly impracticable, it is sufficient to place a reference monument nearby and the precise location thereof be clearly indicated on the plans and referenced to the true point.

f. If a point required to be monumented is on a bedrock outcropping, a steel rod, at least one-half (1/2) inch in diameter shall be drilled and grouted into solid rock to a depth of at least eight (8) inches.

g. All required monuments shall be placed flush with the ground where practicable.

h. All unit corners shall be monumented in the field by iron or steel bars or iron pipes at least eighteen (18) inches long and one-half (1/2) inch in diameter, or other approved markers.

i. The City Council may waive the placing of any of the required monuments and markers for a reasonable time, not to exceed one (1) year, on the condition that the proprietor deposits with the City Clerk cash or a certified check, or irrevocable bank letter of credit running to the City of Au Gres whichever the proprietor selects, in an amount not less than twenty-five dollars ($25.00) per monument and not less than one hundred dollars ($100.00) in total. Such cash, certified check or irrevocable bank letter of credit shall be
returned to the proprietor upon receipt of a certificate by a surveyor that the monuments and markers have been placed as required within the time specified.

SECTION 1811. ASSESSMENT OF UTILITIES

The condominium subdivision plan shall include all necessary easements granted to the City of Au Gres for the purposes of constructing, operating, inspecting, maintaining, repairing, altering, replacing, and or removing pipe lines, mains, conduits and other installations of a similar character (hereinafter collectively called public structures) for the purpose of providing public utilities, if the City assumes ownership and operation of such utilities, including conveyance of sewage, water and storm water run-off across, through and under the property subject to such easement, and excavating and refilling ditches and trenches necessary for the location of such public structures.

SECTION 1812. PRIVATE STREETS

If a condominium subdivision is proposed to have private streets, they shall be developed to the minimum design, construction, inspection, approval, and maintenance requirements of Section 1931 Private Roads. In addition, all private streets in a condominium subdivision shall have a paved driving surface of asphalt or concrete.

SECTION 1813. ENCROACHMENT PROHIBITED

Encroachment of one condominium unit upon another, as described in Section 40 of the Condominium Act, shall be prohibited by the condominium bylaws and recorded as part of the master deed.

SECTION 1814. RELOCATION OF BOUNDARIES

The relocation of boundaries, as described in Section 48 of the Condominium Act, shall conform to all setback requirements of this Ordinance for the district in which the project is located, shall be approved by the Zoning Administrator, and this requirement shall be made part of the bylaws and recorded as part of the master deed.

SECTION 1815. SUBDIVISION OF CONDOMINIUM UNITS

All subdivisions of individual condominium units shall conform to the requirements of this Ordinance for minimum lot width, lot area, and building setback requirements, for the district in which the site condominium project is located, and these requirements shall be made part of the bylaws and recorded as part of the master deed.
SECTION 1816. COMPLIANCE WITH FEDERAL, STATE AND LOCAL LAW

All condominium projects shall comply with Federal and State Statutes and local ordinances. The developer or proprietor of the condominium project shall establish that appropriate state, county and City of Au Gres approvals have been received with regard to the fresh water system for the proposed project and with regard to the wastewater disposal system for the proposed project.

SECTION 1817. TEMPORARY OCCUPANCY

The Zoning Administrator may allow occupancy of the condominium project before all improvements required by this Ordinance are installed provided that a bond is submitted sufficient in amount and type to provide for the installation of improvements before the expiration of the Temporary Occupancy Permit without expense to the City.

SECTION 1818. CONDOMINIUM SUBDIVISION LAYOUT, DESIGN AND APPROVAL.

All Condominium Subdivision Plans shall conform to the design, layout and improvement standards of Article 21. Nothing in this section shall be construed as requiring a condominium subdivision to obtain plat approval under the Subdivision Control Act.
ARTICLE 19

GENERAL PROVISIONS

SECTION 1900. CONFLICTING REGULATIONS

Whenever any provision of this Ordinance imposes more stringent requirements, regulations, restrictions or limitations than are imposed or required by the provisions of any other law or ordinance, then the provisions of this Ordinance shall govern. Whenever the provisions of any other law or ordinance imposes more stringent requirements than are imposed or required by this Ordinance, then the provisions of such ordinance shall govern.

SECTION 1901. SCOPE

No building or structure, or part thereof, shall hereafter be erected, constructed or altered and maintained, and no new use or change shall be made or maintained of any building, structure or land, or part thereof, except in conformity with the provisions of this Ordinance.

SECTION 1902. BUILDING AND OCCUPANCY PERMITS

a. Building Permits Required. Any construction related to any type of zoning administrative approval shall be commenced only after a building permit has been obtained.

b. Access. To be eligible for a building permit a lot shall have access to public street or highway or to a private street meeting public standards.

c. Prior Building Permits. Any building permit issued prior to the effective date of this Ordinance shall be valid, even though not conforming to the provisions of this Ordinance, provided that construction is commenced within ninety (90) days after the date the permit was issued and that the building is completed according to the plans filed with the permit application within one (1) year of the date of issuance.

d. Occupancy Permit. Upon completion of a structure and all required site improvements per approved site plan, and before moving into a building in any district, an occupancy permit is required. See ARTICLE 29 for specific permit requirements.

SECTION 1903. ABANDONED BUILDINGS AND STRUCTURES

Any building or structure not in continuous use as defined by Permitted, Special Land Use, or nonconforming uses in any district for a period greater than 365 days, shall be considered abandoned and come under the provisions of this ordinance and other City of Au Gres codes for buildings and structures. In order to obtain a certificate of occupancy as a use in the future, once three hundred sixty-five (365) days have passed, the building or structure shall
have to meet all the current standards of all applicable City codes, specifically Article 20 "Nonconformities."

SECTION 1904. UNLAWFUL BUILDING

In case any building, or part thereof, is used, erected, occupied or altered contrary to law or the provisions of this Ordinance, such building shall be deemed an unlawful structure and a nuisance and may be required to be vacated, torn down or abated by any legal means, and shall not be used or occupied until it has been made to conform to the provisions of this Ordinance. Public expenditures toward abating such nuisance shall become a lien upon the land. A building or structure which was deemed unlawful prior to the adoption of this Ordinance shall not be made legal solely by the adoption of this Ordinance.

SECTION 1905. TEMPORARY USES

The Zoning Administrator may issue temporary use permits for the following uses after determining that these uses will not be detrimental to adjacent conforming uses during the permitted period of use. A second temporary use permit may be issued by the Zoning Administrator at the end of a time limit if the applicant shows good cause. The Zoning Administrator may attach the conditions and requirements deemed necessary to meet the intent of the provisions of this section. A third temporary use permit may only be authorized by the Zoning Board of Appeals.

a. Required Information. In addition to the required information pertaining to the request as contained within this section, the applicant shall submit the following to the Planning Department:

1. A completed application form and required fee.
2. A written statement describing the requested use, operations plan, traffic control and the proposed time period.
3. A plot plan or sketch that illustrates.
   
   (a) The property lines of the site.
   (b) Adjacent uses and zoning districts.
   (c) Location of fire hydrants.
   (d) Existing and proposed buildings or structures.
   (e) Boundaries of proposed sales/activity areas.
   (f) Proposed lighting.
   (g) Proposed traffic circulation.
   (h) Location and size of proposed signs.
   (i) Location and method of waste disposal.
   (j) Any other information deemed necessary by the Planning Department.

4. Proof of ownership, or if the applicant is not the owner of the land, written permission from the owner to use the property for said use.
5. Information establishing a reasonable liability insurance is carried.
6. A performance guarantee or escrow in the amount of $250 for sites one acre or less in size and $500 for sites over one (1) acre shall be paid to the City. If it is determined that based on the nature of the temporary use the standard bond amount will be insufficient to cover site restoration costs, the amount of the bond shall be determined by the City. The performance guarantee shall be deposited prior to the issuance of a permit and used by the City to pay the cost of returning the property to its state prior to commencement of the event or refunded to the proprietor upon compliance with the requirements of this or any other applicable ordinances.

7. Outside agency permits and approvals, if necessary.

b. Standards for All Temporary Uses. The review of temporary uses, events or buildings shall be reviewed in accordance with the following standards:

1. Proposed temporary event or use shall be located on a lot with a permitted principle building or on a vacant lot when the minimum required setbacks for the district are met.
2. When temporary event is located on a parcel with an existing building, it shall be a maximum ten (10) feet from the building.
3. Goods and display materials must be stored inside during non-business hours, excluding Christmas tree sales.
4. The temporary event shall not eliminate or negatively impact required parking for the building or underlying use. Additional parking may be required upon a finding that the proposed temporary use increases the need for parking.
5. All equipment, materials, goods, poles, wires and other items associated with the seasonal event shall be removed from the premises within five (5) days of the event.

c. Outdoor Cafes and Eating Areas. Standards for temporary uses, outdoor cafes and eating areas are subject to the following conditions:

1. Permits shall be granted for May through October.
2. No lighting or music is permitted, unless otherwise allowed by Planning Commission.
3. Proposed area must meet Michigan barrier-free requirements.
4. Permits shall be reviewed annually by the Zoning Board of Appeals.

d. Additional Standards

1. Mobile Homes. An individual mobile home or other temporary structure may be used as temporary living or working quarters for up to ninety (90) days while a dwelling or structure is being constructed or reconstructed on the same premises. A temporary permit shall be issued by the Zoning Administrator prior to any similar use.

2. Signs and Supplies. The storage of building supplies and machinery; temporary storage buildings; the assembly of materials associated with a customary trade; and contractor, architect, and identification signs in connection with a construction project, may be authorized by the Zoning Administrator for a period of up to twelve (12) months. A temporary permit may be issued for the use of portable signs by business, industry, or institutions, but not including private dwellings.
3. **Seasonal Uses.** The Zoning Administrator may authorize a temporary permit for up to thirty (30) days for seasonal or unusual non-recurrent temporary uses and signs.

**SECTION 1906. ACCESSORY USES**

Nothing in this Ordinance shall be construed to prohibit the following accessory uses:

a. Customary refreshment and service uses and buildings which are incidental to the recreational use of any park or recreational area.

b. Buildings or structures necessary for provision of essential services.

c. Gardens, garden ornaments and usual landscape features within required yard space.

d. Fences, walls, and screens within required yard space.

e. Retaining walls.

f. Public playgrounds.

g. Off-street parking for licensed automobiles, recreational vehicles and other motor vehicles not including trucks over one (1) ton rated capacity.

h. Use of premises as a voting place.

i. The renting of rooms to not more than two (2) non-transient persons in a dwelling unit which is otherwise occupied in a manner permitted in the district in which it is located.

j. Storage sheds, playhouses, and shelters for transit or school bus passengers.

k. Radio or TV antennas.

l. Swimming Pools, in accordance with the provisions of Section 1932 Swimming Pools, Spas or Hot Tubs.

**SECTION 1907. ACCESSORY BUILDINGS**

Accessory buildings, except as otherwise permitted in this Ordinance shall be subject to the following regulations:

a. Where the accessory building is structurally attached to a main building, it shall be subject to, and must conform to, all regulations of this Ordinance applicable to the main building.

b. Accessory buildings shall not be erected in any required yard, except a rear yard.

c. An accessory building shall not occupy more than twenty-five (25) percent of a
required rear yard, plus forty (40) percent of any non-required rear yard, provided that in no instance shall the accessory building exceed the ground floor area of the main building.

d. No detached accessory building shall be located closer than ten (10) feet to any main building nor shall it be located closer than ten (10) feet to any side or rear lot line.

e. No detached accessory building in R-1 through R-4, TC, C and CR Districts shall exceed one (1) story or fourteen (14) feet in height. Accessory buildings in the PT and I districts may be constructed to equal the permitted maximum height of structures in those districts.

The height of a detached building may be increased by an additional one (1) foot for every one (1) foot of setback provided to any side or rear lot line, up to a maximum height of 20 feet (e.g. a twenty (20) foot tall accessory building would need to be a minimum of sixteen (16) feet from any side or rear lot line). However, the maximum height of any accessory building on a waterfront lot shall be fourteen (14) feet.

f. When an accessory building is located on a corner lot, the side lot line of which is substantially a continuation of the front lot line of the lot to its rear, said building shall not project beyond the front yard line required on the lot to the rear of the corner lot. In no instance shall an accessory building be located nearer than ten (10) feet to a street right-of-way line.

g. When an accessory building in any Residential District is intended for other than the storage of private motor vehicles, the accessory use shall be subject to the approval of the Planning Commission.

SECTION 1908. BUILDINGS TO BE MOVED

Any building or structure which has been wholly or partially erected on any premises located within or outside the City shall not be moved and/or be placed upon any premises in the City unless there is full compliance with City ordinances. Any such building or structure shall fully conform to all provisions of this ordinance and applicable housing codes, and be compatible with the general character and design of surrounding properties. Such compatibility shall first be determined by the Zoning Administrator after reviewing the structure and site. Compatibility shall be based upon the definition of "dwelling" and the character of similar structures located within two thousand (2,000) feet, in the same zoning district. The application for a permit to move a building shall require a fee, which shall be determined by the City Council.

SECTION 1909. RESTORING UNSAFE BUILDINGS

Nothing in this ordinance shall prevent the strengthening or restoring to a safe condition of any part of any building or structure declared unsafe by the Zoning Administrator. Any such strengthening or restoring shall be in accordance with the State Building Code.
SECTION 1910. EXCAVATION OF HOLES

The construction, maintenance, or existence of unprotected or unbarricaded holes, pits, wells, building pads, or similar excavations which cause, or are likely to cause a danger to life, health, and safety to the general public shall be prohibited. This section shall not, however, prevent any excavation which is required for constructing, remodeling, or expanding structures, or for industrial operations, provided appropriate precautionary measures, such as the placement of warning signs, fences, etc., have been approved by the Zoning Administrator and placed on the premises. Nothing in this section shall apply to bodies of water, ditches, streams, or other major natural resources created or existing by the authority of the State of Michigan, Arenac County, the City of Au Gres, or other units of government.

SECTION 1911. MIXED OCCUPANCY

a. The Zoning Administrator shall refer any plans to the Fire Chief and Health Department for their review of any existing or anticipated fire or health hazards before issuing a zoning permit for any construction for any premises that meet any of the following conditions:

1. are intended for a combination of dwelling and commercial or dwelling and industrial occupancy.
2. that would result in an increased number of dwelling units within a building partly occupied by business or industrial use.
3. that would result in an increased area devoted to business or industrial use, within a building partly occupied as a dwelling.

b. Recommendations as to additional provisions or changes in the interest of safety or health shall be complied with before issuance of a permit.

SECTION 1912. CONNECTIONS TO DRAINAGE SYSTEM

Surface drains, ground water drains, and foundation or footing drains shall be connected whenever possible to an enclosed storm sewer, but they shall not discharge to a sanitary sewer or private waste water treatment plant.

SECTION 1913. CORNER CLEARANCE

No fence, wall, shrubbery, sign, or other obstruction to vision above a height of two (2) feet from the established street grades shall be permitted within the triangular area formed at the intersection of any street right-of-way lines with other street right-of-way lines or access drives by a straight line drawn, to form a Clear Vision Area, between said right-of-way lines at a distance along each line of twenty-five (25) feet from their point of intersection. No access drive shall be permitted within the Clear Vision Area.
SECTION 1914. HEIGHT LIMIT

The height limitations of this Ordinance shall not apply to parapets, cornices, cooling towers, elevator bulkheads, fire towers, cupolas, penthouses, ornamental towers, farm buildings, chimneys, church spires, flag poles or public monuments.

SECTION 1915. PORCHES AND DECKS

A porch, including an open, unenclosed, and uncovered porch or paved terrace, may project into a front yard for a distance not exceeding ten (10) feet, but this shall not be interpreted to include or permit fixed canopies.

All decks and similar structures shall be allowed as accessory uses only and not as principal permitted uses in any district. Decks, uncovered, whether attached or unattached to a principle structure, shall be subject to the following:

a. Decks may not extend further than 16 feet into the required rear yard setback. Stairs may extend beyond the end of the deck for the minimum distance necessary to meet the established grade in the rear yard.

b. Decks shall not extend into the required side yard, except an uncovered, elevated walkway made of deck materials may be permitted as a means of accessing the deck. The width of the walkway shall not exceed three (3) feet, six (6) inches and may wrap around a bay window or other similar projection for the minimum distance necessary.

c. When adjacent to a shoreline of any lake, pond, treatment basins, watercourse or wetland regulated by the Michigan Department of Natural Resources or United States Environmental Protection Agency, a minimum 15 foot wide buffer shall be provided between the deck and the nearest edge of the shoreline.

1. A walkway, maximum ten (10) feet wide, is permitted within the 15 foot buffer.

SECTION 1916. PROJECTIONS INTO YARDS

a. Certain architectural features, such as cornices, eaves, gutters, chimneys, pilasters, and similar features may project no farther than:

1. Three (3) feet into a required front yard.
2. Five (5) feet into a required rear yard.
3. Two (2) feet into a required side yard.

b. Building appurtenances such as patios, balconies, stoops, window awnings, or similar features which are elevated six (6) inches or more above grade, shall not project into a required side yard. A patio, stoop, balcony, or window awning may project no farther than:

1. Ten (10) feet into a required front yard.
2. Sixteen (16) feet into a required rear yard.

SECTION 1917. ACCESS THROUGH YARDS

For the purpose of this Ordinance, access drives may be placed in the required front or side yards so as to provide access to rear yards and or accessory or attached structures. These drives shall not be considered as structural violations in front and side yards. Further, any walk, terrace or other pavement servicing a like function, and not in excess of nine (9) inches above the grade upon which placed, shall for the purpose of this Ordinance not be considered to be a structure, and shall be permitted in any required yard.

SECTION 1918. WASTE RECEPTACLES

All garbage and rubbish must be stored in closed containers within approved waste receptacles or within a building until the time of collection. No garbage or rubbish may be stored so as to cause hardship, health hazard, or annoyance to adjoining properties. The following standards apply to waste receptacles:
a. Waste receptacles may be located in a required rear or side yard, provided it is not located in front of the front building line.

b. Waste receptacles must be conveniently accessible to servicing vehicles.

c. The concrete base shall extend six (6) feet beyond the front edge of the receptacle pad or gate, to support the front axle load of a refuse vehicle. The base shall be constructed with six (6) inches of reinforced concrete and designed to prevent any liquid or other matter from draining into adjacent areas.

d. An enclosure, meeting the standards below, is required:

1. The enclosure shall be provided on three (3) sides with a gate on the fourth side if visible to a residential unit or area visible to the public.

2. The enclosure shall be constructed of brick or decorative concrete material, which matches or complements the primary building material. Wood may be approved provided the lumber at least five (5) inches wide with a thickness not more than two (2) inches greater than the width. All lumber products to be approved by the Chief Building Official.

3. The height shall be at least six (6) feet or one (1) foot above the height of the enclosed waste receptacle, whichever is greater. The enclosure shall provide a three (3) foot clear area between the waste receptacle and any screen wall. A change to a larger or taller waste receptacle may require modifications to the screening to retain compliance with these standards.

e. The waste receptacle must have an enclosing lid or cover.

f. The enclosure shall be located as far as practical, but not less than 20 feet, from a residential property line or district.

SECTION 1919. PERFORMANCE STANDARDS

a. Scope. After the effective date of this Ordinance, any use established or changed to (and any building, structure, or tract of land developed, constructed or used for) any permitted principal or accessory use in all Commercial and Industrial Districts shall comply with all of the performance standards herein set forth for the district. If any existing use or building or other structure is extended, enlarged, or moved, the performance standards for the district involved shall apply with respect to such extended, enlarged, moved, structurally altered or reconstructed building or other structure or portion thereof, and with respect to land use which is enlarged or moved.

b. Procedure for Determination of Compliance. The purpose of these procedures is to insure that an objective, unbiased determination is made in those cases where there may be substantial doubt as to whether an individual use or group of uses complies with the Performance Standards of this Ordinance, and to formulate practical ways for the alleviation of such noncompliance.
1. Subsequent to a preliminary study of the performance characteristics of an existing or proposed use, the Zoning Administrator shall make a determination as to whether there exist reasonable grounds to believe that the use in question may violate the performance standards set forth in this Section and may initiate an official investigation. Following the initiation of an official investigation, the Building Official is hereby empowered to require the owner or operator of the use in question to submit such data and evidence as he or she may deem essential to permit an objective determination. Failure to submit data required by the Zoning Administrator shall constitute grounds for denying a permit for that use of land.

2. Where determinations can reasonably be made by the Zoning Administrator using equipment and personnel normally available to the City or obtainable without extraordinary expense, such determinations shall be so made before notice of violation is issued. Where determination of a violation is made, the Zoning Administrator shall take or cause to be taken lawful action as provided by this Ordinance to eliminate such violation. Failure to obey lawful orders concerning cessation of violation shall be punishable as provided in this Ordinance.

(a) Notice. The Zoning Administrator shall give written notice, by certified mail (return receipt requested or other means insuring a signed receipt for such notice) to those owners or operators of subject use deemed responsible for the alleged violations. Such notice shall describe the particulars of the alleged violation and the reasons why the Zoning Administrator believes there is a violation in fact, and shall require an answer or a correction of the alleged violation to the City's satisfaction within a reasonable time Emet set by the City. The notice shall state, and it is hereby declared, that failure to reply or to correct the alleged violation to the satisfaction of the City within the time limit set constitutes admission of violation. The notice shall further state that upon request of those to whom it is directed, technical determinations as described in the appropriate portions of this Ordinance will be made. The notice shall also state that if the violation as alleged is found to exist in fact, costs of the determinations will be charged against those responsible in addition to such other penalties as may be appropriate. If it is determined that no substantive violation exists, then the costs of this determination will be paid by the City.

(b) Reply Requesting Extension of Time. If a reply is received within the time limit set indicating that an alleged violation will be corrected to the satisfaction of the City, but that more time is required than was granted by the original notice, the Zoning Administrator may grant an extension of time, if he or she deems such extension is warranted in the circumstances in the case, and if such extension will not, in the Zoning Administrator’s opinion, cause imminent peril of life, health, or property.

(c) Reply Requesting Technical Determination. If a reply is received within the time limit set requesting technical determinations as described in the appropriate provisions of this Ordinance and if the alleged violations continue, the Zoning Administrator may call in properly qualified experts to make the determinations. If expert findings indicate violation of the performance standards to exist in fact, the costs of the determinations shall be paid by the person(s) responsible for the violations, in addition to such other penalties as may be appropriate.
under the terms of this Ordinance. If no substantive violation is found, costs of the
determination shall be paid by the City.

3. If, after the conclusion of the time granted for compliance with the performance
standards, the Zoning Administrator finds the violation is still in existence, any permits
previously issued shall be void and the operator shall be required to cease operation until
the violation is remedied.

c. Appeals. The Zoning Administrator's action with respect to the performance standards
procedure may be appealed to the Zoning Board of Appeals within thirty (30) days following
said action. In the absence of such appeal, the Zoning Administrator's determination shall be
final.

d. Performance Standards. Any use established in a Commercial or Industrial District shall not
be permitted to carry out any activity or operation or use of land, building or equipment that
produces an irritant to the sensory perceptions greater than the standard measures for
safeguarding human safety and welfare.

1. Noise. No operation or activity shall be carried out in a Commercial or Industrial
District which causes or creates measurable noise levels exceeding the maximum
sound pressure levels prescribed below, as measured on or beyond the property line
of the operation or activity. A sound level meter and an octave band analyzer shall
be used to measure the level and frequency of the sound or noise during the day
and/or the night. The measuring equipment and measurement procedures shall
conform to the latest ANSI specifications on acoustics. The sound level meter and
octave band analyzer shall be calibrated before and after the measurements. Sounds
of very short duration, which cannot be measured accurately with the sound level
meter, shall be measured by an impact noise analyzer; and the measurements so
obtained may be permitted to exceed the maximum levels provided in Tables A by no
more than five (5) decibels. For purposes of this Ordinance, impact noises shall be
considered to be those noises whose peak values are more than seven (7) decibels
higher than the values indicated on the sound level meter.

* Sound level meter set on the "C" or "flat" scale, slow response.  
** Day: 7:00 A.M. to 8:00 P.M.  
Night: Between 8:00 P.M. and 7:00 A.M.

(a) Where street traffic noises directly adjacent to the boundary line exceed these maximum permitted levels, the intensity levels permitted may then exceed those levels specified in the tables but may not exceed the level of the subject adjacent street traffic noises. For those areas in which the existing background noise levels exceed the maximum permitted levels, the noise levels at the boundary line may not exceed the background noise levels. In such cases, a study shall be made to determine the character of the background noise to include sources, levels and duration.

(b) Sounds of an intermittent nature or characterized by pure tones may be a source of complaints even if the measured level does not exceed that specified. In such cases, the complaints shall be investigated to determine the nature of and justification for the complaint and possible corrective action. If the complaints are not resolved within sixty (60) days, the Zoning Administrator may then proceed to take steps to enforce the terms of the Zoning Ordinance in accordance with the remedies provided herein.

(c) Application for variance from the sound level provisions may be submitted to the Zoning Board of Appeals. In such cases, the owner or operator of equipment on the property in the specific district shall submit a statement regarding the effects of noise from his equipment on the noise levels in the surrounding area. This statement shall include a study of background noise levels, predicted levels at the boundary lines due to equipment operation and justification for the variance; The requests for variance will be reviewed by the Zoning Board of Appeals and granted where unnecessary hardship would otherwise be imposed upon the applicant and where no basic injury to the surrounding area will result. The Zoning Board of Appeals may impose conditions of operation in granting a variance.

2. **Dust, Soot, Dirt, Fly Ash and Products of Wind Erosion.** The regulation of smoke, dust, soot, dirt, fly ash and products of wind erosion shall be subject in all respects to the State of Michigan Air Pollution Control Act, Act 348 of the Public Acts of 1965, as amended.

3. **Vibration.** Machines or operations which cause vibration shall be permitted, but no operation shall be permitted to produce ground transmitted oscillations which cause a displacement exceeding that specified in the following Tables B and/or C as
measured at the property line. These vibrations shall be measured with a seismograph or accelerometer; preferably the former. For purposes of this Ordinance, steady state vibrations are vibrations which are continuous, or vibrations in discrete impulses more frequent than sixty (60) per minute. Discrete impulses which do not exceed sixty (60) per minute shall be considered impact vibrations. Between the hours of 8:00 p.m. and 7:00 a.m. all of the following maximum vibration levels, as measured on or beyond the boundary line of residentially used areas adjacent to a Commercial or Industrial District, shall be reduced to one-half \((\sqrt{2})\) the indicated permissible values.

4. **Odor.** The Emission of noxious, odorous matter in such quantities as to be readily detectable at a point along any property line, when diluted in the ratio of one (1) volume of odorous air to four (4) or more volumes of clean air, so as to produce a public nuisance or hazard beyond lot lines is prohibited.

5. **Glare and Heat.** Any operation producing intense glare or heat shall be performed within an enclosure so as to completely obscure and shield such operation from direct view from any point along the lot lines, except during the period of construction of the facilities to be used and occupied.

6. **Fire and Safety Hazards.** The storage and handling of flammable liquids, liquefied petroleum gases, and explosives shall comply with all regulations of the City and with all State rules and regulations, and regulations as established by the Fire Prevention Act, Act 207, Public Acts of 1941, as amended. Further, all storage tanks for flammable liquid
materials above ground shall be located at least one hundred and fifty (150) feet from all property lines, and shall be completely surrounded by earth embankments, dikes or other types of retaining wall which will contain the total capacity of all tanks so enclosed. Bulk storage tanks of flammable liquids below ground shall be located not closer to the property line than the greater depth to the bottom of the buried tank.

7. **Light.** Exterior lighting shall be so installed that the source of light shall not be visible from the nearest residential district boundary and it shall be so arranged to reflect light away from any residential use. In no case shall more than one (1) foot-candle power of light cross a lot line five (5) feet above the ground into a Residential District. Illumination levels shall be measured with a footcandle meter or sensitive photometer and expressed in foot-candles. All outdoor lighting shall also conform to the following standards:

(a) All outdoor lighting used to light the general area of a specific site shall be shielded to reduce glare and shall be so arranged as to reflect lights from all adjacent residential districts or adjacent residences.

(b) All outdoor lighting shall be directed toward and confined to the ground areas of lawns or parking lots.

(c) All lighting in nonresidential districts used for the external illumination of buildings, so as to feature said buildings, shall be placed and shielded so as not to interfere with the vision of persons on adjacent highways or adjacent property.

(d) Illumination of signs shall be directed or shaded downward so as not to interfere with the vision of persons on the adjacent highways or adjacent property.

(e) All illumination of signs and any other outdoor feature shall not be of a flashing, moving or intermittent type. Artificial light shall be maintained stationary and constant in intensity and color at all times when in use.

8. **Gases.** The escape of or emission of any gas which is injurious or destructive or explosive shall be unlawful and may be summarily caused to be abated. SO₂ gas as measured at the property line at ground elevation shall not exceed an average of 0.3 ppm. H₂S likewise shall not exceed 1 ppm. Fluorine shall not exceed 0.1 ppm. Nitrous fumes shall not exceed 5 ppm and Carbon Monoxide shall not exceed 15 ppm. All emissions shall be measured as the average intensity during any 2-hour sampling period.

9. **Electromagnetic Radiation.** Applicable rules and regulations of the Federal Communications Commission in regard to the propagation of electromagnetic radiation are hereby made a part of this Ordinance.

10. **Drifted and Air-Borne Matter, General.** The drifting or air-borne transmission beyond the lot line of dust, particles or debris shall be unlawful and shall be summarily caused to be abated.

**SECTION 1920. DEVELOPMENT IN FLOODPLAINS**

Any buildings considered for construction in a floodplain or floodway as defined by the FEMA shall be in conformance with the State of Michigan's laws being P.A. 167 of 1968 and P.A. 346 of 1972.
SECTION 1921. DUMPING OF SOIL, SAND, CLAY MATERIALS

The extensive dumping of soil, sand, clay or similar materials shall not be allowed on any lot or parcel without approval of the Planning Commission and subject to the requirements set forth by the Planning Commission.

SECTION 1922. SIDEWALKS

In all zoning districts the following sidewalk standard shall be complied with whenever a new or used building addition to an existing use or building or the erection of an accessory building occurs on a site.

a. A public sidewalk shall be provided along-all public street rights-of-way.

b. An interior lot sidewalk pattern for special uses in all districts except for the CR District shall be provided linking the parking area to the principal use.

SECTION 1923. RECREATION VEHICLES

Parking of recreation vehicles is permitted in the City of Au Gres only if the unit, while parked, is:

a. Not used for dwelling purposes, except a recreation vehicle may be used for dwelling purposes for a maximum of fourteen (14) days in any calendar year on any given lot provided that a permit is obtained from the City and a fee is paid as established by City Council for the purpose of assuring public health and safety. Recreation vehicles cannot be located on a vacant lot except for once a year not exceeding fourteen (14) days.

b. Not permanently connected to sewer line, water lines, or electricity.

c. Not used for storage of goods, materials, or equipment other than those items considered to be a part of the unit or essential for its immediate use.

d. Notwithstanding the provisions of a. and b. above, during active loading or unloading, the use of electricity or propane fuel is permitted when necessary to prepare a recreation vehicle for use.

e. A recreation vehicle not owned by the property owner or tenant cannot be stored outdoors for more than fourteen (14) days in any calendar year.

f. Location Standards

1. Generally. Recreational vehicles and/or recreational equipment shall be prohibited in the front yard unless otherwise permitted in this Section.
2. Setbacks. Recreational vehicles or equipment shall be placed or parked on a hard surface not closer than ten (10) feet from any structure and set back a minimum of three
(3) feet from any lot line, except as provided in paragraphs 3. through 9. below.
3. Placement on Lot. Recreational vehicles and equipment are permitted to be parked or stored only on a lot with a principal building, structure, or use unless it is adjacent lot which is under the same ownership.
4. Time Limits. Recreational vehicles or recreational equipment may be stored, parked, or placed within any front yard or within a public right-of-way where on-site parking is permitted for a period not exceeding seventy-two (72) hours for loading and unloading or for normal maintenance and cleaning.
5. Corner Lots. In the case of corner lots, as defined in this Ordinance, the regulations of this Section shall apply to both the front yard and the exterior side yard.
6. Through Lots. In the case of through lots, as defined in this Ordinance, parking and storage shall be permitted in the rear yard, as determined by Building Official/Zoning Administrator, provided the parked vehicle meets the front and side yard principal building setback requirements of the zoning district.
7. Through Corner Lots. In the case of through lots on a corner (i.e. lots with frontage along three (3) streets), parking shall be allowed only in the side yard. The Building Official/Zoning Administrator may permit parking in the rear yard, as noted in paragraph 5. above, upon determination that such parking is allowed on the adjacent lot.
8. Waterfront Lots. Recreational vehicles and/or recreational equipment on waterfront lots shall be placed or parked on the street side of the property.
9. Shoreline Setbacks. Recreational vehicles or structures on waterfront lots shall be stored so they comply with the same required minimum setbacks that apply to the main building. This requirement does not apply when the vehicle or structure is in use. For example, storage in the required setback is permitted for a boat during summer months and for an ice fishing shanty or snowmobile during winter months.

g. Owner or Legal Tenant. The owner of any recreational vehicle or equipment placed or parked on a lot shall be the owner of the lot or the legal tenant.

h. Condition and Licensing Requirements. All recreational vehicles and/or recreational equipment stored or parked in any Residential District shall be in an operable condition, as determined by the Building Official/Zoning Administrator.

i. Detachable Camper Tops. Detachable camper tops shall not be stored in any Residential District except in accordance with above guidelines. Further, camper tops that are not installed on a licensed and operable vehicle must be placed on the ground and stabilized.

SECTION 1924. PARKING OF HEAVY TRUCKS

Overnight parking of commercial vehicles in excess of one (1) ton rated capacity, including all semi-truck tractors and trailers, is prohibited within any Residential Zoning District. Furthermore, all commercial trucks on non-residential property must be parking in the rear yard. This regulation does not apply to emergency vehicles or equipment.
SECTION 1925. PARKING OR STORAGE OF JUNK VEHICLES

Any motor vehicle, trailer, or semi-trailer which is inoperable and which, by virtue of its condition, cannot reasonably be restored to operable condition shall be considered a junk vehicle. A vehicle shall be considered inoperable if one of the following is evident for more than thirty (30) days: unable to start without assistance; one or more flat tires; on blocks or stands; not in safely driveable condition; or other condition making the vehicle inoperable. No junk vehicle shall:

a. Be parked or stored on residentially zoned property except when parked or stored in a completely enclosed garage or building.

b. Be considered a legal accessory use in any nonresidential district if stored or parked outside the confines of a building.

c. Be stored outside a building unless located as part of an automobile repair station or junk yard.

SECTION 1926. AUTOMOBILE SALES

The commercial sale or trade of automobiles or other vehicles shall only be permitted on property which is zoned for such use. No vehicle(s) for sale or trade are to be parked or displayed on any property which has not been zoned and approved for such use. However, this restriction does not apply to the sale or trade of a personal vehicle which is registered to the owner or resident of the property upon which the vehicle is displayed.

SECTION 1927. VOTING PLACE

The provisions of this Ordinance shall not be so construed as to interfere with the temporary use of any property as a voting place in connection with a municipal or other public election.

SECTION 1928. ESSENTIAL SERVICES

Essential services shall be allowed by Special Use Permit in all districts, provided that such uses shall be reviewed by the Planning Commission as to architecture and/or landscaping suitable to the District in which such services shall be located and all structures shall be compatible in appearance and design with the development of the area and with the zoning classification in which they are located. Basic Essential Services such as poles and wires, but not including buildings, storage areas, or other structures, shall be allowed as permitted use in all districts.

SECTION 1929. STREETS

To provide for the public health and welfare through adequate light and ventilation and for the safety of persons and property in the use of the streets of the City, all public streets platted,
laid out, or dedicated and accepted by the City shall have a right of way width of at least sixty-six (66) feet.

SECTION 1930. PRIVATE ROADS

Private Roads shall be allowed only in site condominium or condominium developments in the City of Au Gres. Such roads must be constructed according to the City's engineering and design standards for streets and be maintained by the developer or designated condominium association.

SECTION 1931. TEMPORARY COMMERCIAL USE, INCLUDING SEASONAL OUTDOOR SALES/VENDORS

Where a property is used for the commercial sale of retail or wholesale goods and services for a continuous period of thirty (30) days or less within any twelve (12) month period, it shall be required to obtain a permit from the City of Au Gres for such use for an initial period of thirty (30) days, with a renewal of the permit required for another (30) day period thereafter during which that business proposes to operate, up to a maximum of sixty (60) days. This shall include such for-profit businesses as seasonal fruit and vegetable stands, flower stands, crafts sales and similar businesses located on commercial parking lots or other properties along major and local streets within the City. This requirement also applies to portable vendor carts using public rights-of-way to conduct business, but not to typical residential garage/yard sales of a two to three day duration. The permit fee shall be initially determined and periodically modified as determined necessary by the City Council. The following restrictions shall apply to such Temporary Businesses:

a. Temporary businesses in which a permanent or non-mobile structure is used shall be allowed only in the TC, C, PT and I business districts. Temporary businesses, aside from nonmotorized portable carts ("push carts"), that sell items out of motorized vehicles (van trucks, pickups, etc.) or two trailers shall be restricted to allocated spaces, i.e. trucks, selling meat, etc., within the City's Farmers Market. A permit shall be required from the City to use the space and facilities provided at the Farmers Market.

b. All signs, unless permanently affixed to a free-standing structure or building, shall be removed during the period in which the seasonal business is not in use.

c. No sign shall exceed sixteen (16) square feet in face area.

d. In the case of permanent buildings in which a temporary use is located, all off-street parking shall adhere to the requirements of the district in which the building is located.

e. Temporary uses associated with public and nonprofit activities, such as school outdoor concession stands, shall be exempt from the provisions of this Section. Temporary on-site business sales, outside the normal location and scope of that business, such as sidewalk sales, shall be exempt from the provisions of this Section.
f. Vendors using a portable structure, such as a cart or other similar device, that can be moved to various locations within the City, shall adhere to the following:

1. A permit shall be required from the City for the period during which the portable vendor intends to operate.
2. The cart or other similar device shall be allowed only on public rights-of-way or on private property after receiving permission from the property owner; if the property owner is an absentee owner, written permission shall be required from the owner or his/her agent.
3. The cart or similar device shall be located in such a way as not to block the normal flow or vision of pedestrian/vehicular traffic.
4. The hours of operation for the vendor shall be limited to the hours specified in the operating permit.
5. Flashing or pulsating lights shall not be allowed on the portable structure or other fixtures associated with the vending business.
6. Other requirements and restrictions contained in the provisions of the operating permit issued by the City.

SECTION 1932. SWIMMING POOLS, SPAS OR HOT TUBS

a. Swimming pools, spas or hot tubs shall conform to the setback requirements for accessory uses pursuant to this article, and shall not be closer than five (5) feet to any building or structure.

b. All electrical installations or wiring for all swimming pools, spas or hot tubs shall conform to the State Building Code.

c. All in-ground swimming pools shall be enclosed by a fence. Such fence or enclosure, including the gates, shall not be less than four (4) feet in height or greater than six (6) feet in height. All gates shall be self-latching with latches placed no less than four (4) feet above grade or otherwise made inaccessible from the outside to small children. The composition of the fence shall meet the barrier requirements contained in the State Building Code.

d. All above-ground or on-ground swimming pools with side walls at least four (4) feet in height and with the means of access being a ladder or steps shall have a ladder or steps capable of being secured, locked or removed to prevent access or the ladder or steps shall be surrounded by a fence constructed per this section.

e. All above-ground or on-ground swimming pools without side walls at least four (4) feet in height must be fenced per the fencing requirements contained in section this section or can be secured by mounting a fence or other barrier on top of the pool structure so that the pool is enclosed by a barrier at least four (4) feet in height. If the means of access to the pool is a ladder or steps, the ladder or steps shall be capable of being secured, locked or removed to prevent access.
f. Spas or hot tubs with a safety cover which complies with ASTM F1346 (2003 Michigan Residential Building Code) and swimming pools with a water depth of 24" or less shall be exempt from subsections c. and d. of this section.

SECTION 1933. ADULT AND FOSTER CARE FACILITIES

a. Adult and child care facilities are allowed only as provided for in the following table. Applicable conditions are listed as footnotes to the table.

</table>

P: Permitted use.

SLU: May be allowed upon review and approval of a special land use, in accordance with the general standards in Article XXII.

SLU as accessory: May be allowed as an accessory to an approved use, such as a church, school, office, or other place of employment, upon review and approval of a special land use.

NA: Not allowed in zoning district.

Footnotes:

1. The use shall be registered with the City Clerk's Office and shall continually have on
file with the City documentation of a valid license as required by the State.

2. Since the State law preempts in this area, the facility shall be brought into compliance with all State building and fire codes pursuant to State Licensing Rules R400.1831-R400.1835. Documentation of such compliance with State requirements shall be provided.

3. The site shall comply with the sign provisions of the City’s Sign Ordinance.

4. Off-street parking shall be provided for the maximum number of employees on-site at any one (1) time.

5. The building shall have an appearance which is non-intrusive and consistent in color, materials, roof-line, and architecture with the one-family or multiple-family residential district in which it is located, as determined by the Planning Commission.

6. Documentation of sufficient indoor classroom, crib, or play area meeting State requirements shall be provided. Documentation of approved areas, as licensed by the State, shall be provided.

7. There shall be sufficient outdoor play area to meet State regulations. All required outdoor play areas shall be fenced with a four (4) foot tall fence, provided that no fenced outdoor play area shall be located in a front yard.

8. There shall be sufficient drop-off parking spaces to allow maneuvers without creating a hazard to traffic flow.

9. The lot shall be at least one thousand five hundred (1,500) feet from another group day care home or similar facility. This may be reduced by the Planning Commission upon a finding by the Planning Commission that the proposed facility will not contribute to an excessive concentration of State licensed residential care facilities in the area.

10. The facility shall operate not more than sixteen (16) hours per day.

b. A state-licensed residential adult or child care facility existing prior to the effective date of this Ordinance that has been operating under a valid State license and is registered with the City no later than sixty (60) days following the effective date of this Ordinance, shall be considered an approved special land use, provided such use conforms with the conditions of this Section. Any change in class of the use to a larger care facility shall require approval in accordance with the requirements of this Ordinance.

SECTION 1934. TEMPORARY BUILDINGS

Mobile offices, tool sheds, and storage trailers shall be permitted during the time of actual construction provided they are located pursuant to the regulations of this ordinance and are in compliance with the Health Department Sanitary Code. These structures shall be removed within twelve (12) working days after the completion or abandonment of construction work on the property.

SECTION 1935. BOAT DOCKS AND WELLS

a. No boat well, dock or similar structure shall by reason of its size, location or construction, endanger life and limb, impair water traffic flow, or obstruct vision upon the water.
b. Boat wells and docks shall be allowed as accessory uses only and not as principal uses in the R-1, R-2 and CR districts.

c. Construction of all docks and similar structures shall have a minimum ten (10) foot side yard setback.

d. Boat wells shall be included in the maximum percent of lot area covered by all buildings as defined in Article 16 Schedule of Regulations of this Ordinance. For purposes of the Article, boat wells shall be considered buildings.

e. The use of any boat well or dock shall comply with the zoning regulations in effect for the district in which the boat well, dock or similar structure is erected. In addition, no docking facility or boat well shall be allowed until the owner has obtained all necessary permits from the State of Michigan, Department of Natural Resources.

f. All boat wells shall have rectangular dimensions of at least ten (10) feet by sixteen (16) feet with a maximum of thirty (30) feet by thirty (30) feet.

SECTION 1936. BOAT CONDOMINIUMS

a. Intent

The purpose of providing regulations for the establishment of condominiums specifically for the use of boaters within the City of Au Gres is to protect the rights of purchasers of those condominium facilities and to ensure that boat dock condominiums ("dock-o-minimum") do not create intensities of use that create traffic, noise, and environmental nuisances and hazards and do not preclude access to the Au Gres River or interfere with the normal functions of adjacent property owners.

b. Definitions

The establishment and administration of Boat dock Condominiums within the City of Au Gres is provided under Section 141 of the Condominium Act, Act 59 of 1978 and the definitions of Article 2 Definitions of this Ordinance shall apply, in addition to the following: "Boat Dock Condominium (dock-o-minimum") means a subdivision of property into sites for the exclusive and limited use of a boat dock and access to that dock and water and for picnic-related activities.

c. Requirements and Regulations

The requirements and regulations pertaining to establishing a Boat Dock Condominium are the same as the requirements and regulations in Sections 1802 through 1806, in addition to the following:

1. Boat Dock Condominiums shall be allowed only as a special use within the CR District.
2. The minimum unit size for a Boat Dock Condominium shall be one hundred forty-four (144)
3. The minimum unit width shall be twelve (12) feet.
4. Minimum length shall be twenty (20) feet.
5. No dwellings shall be constructed on a Boat Dock Condominium site.
6. Structures shall be limited to one (1) picnic shelter, not to exceed one hundred (100) square feet of roof area and ten (10) feet in height and one (1) storage shed, not to exceed sixteen (16) square feet in area and ten (10) feet in height. The boat dock associated with a condominium site shall be no wider than four (4) feet and extend no more than thirty (30) feet into the water, subject to permit by the Michigan Department of Natural Resources. No more than two (2) boats shall be accommodated on a dock at any one time.
7. No fuel or flammable liquid shall be stored on-site when not occupied.
8. Off-street parking shall be provided by the condominium association in accordance with the requirements of Article 23 Off-Street Parking Requirements. A minimum of two (2) parking spaces shall be provided for each site.
9. Restroom and shower facilities with fish cleaning facilities shall be required for each condominium development.
10. Parking of boat trailer shall not be allowed within a Boat Dock Condominium development unless there is a designated area for such parking.
11. Enclosed dumpster shall be required on-site for use by owners/guests of the condominium development.
12. Maintenance or repair will be allowed in the boat owner ship or a designated repair area, or in an enclosed building on the premises. Repair will not be allowed to present a nuisance or be offensive to others, either by sight or sound.
13. That no boat storage, storage of gear or equipment, nor boat parts, shall be allowed other than within an enclosed building upon the premises or allowable dock storage containers.
14. That there will be no discharge or depositing of garbage, oil, fuel, refuse matter, sewage or waste material of any kind into the Au Gres River or adjoining waterways.
15. Cooking on wood docks or similar structures shall be prohibited.

SECTION 1937. SIMILAR USE DETERMINATION

This Ordinance acknowledges that all potential uses of land cannot be specifically identified in the zoning districts. A land use which is not cited by name in a zoning district may be permitted upon determination by the Planning Commission that the use is clearly similar in nature and compatible with the principal uses permitted, special land use, or as a permitted accessory use listed in that district. This determination shall be made at a public hearing, with required notice given. The public hearing shall not replace the requirement for a separate public hearing to consider special land use approval, following the procedures and requirements of Article 22 Special Land Use, if the use is determined to be a special land use. The applicant shall be required to submit pertinent information on the physical and operational characteristics of the proposed use and any additional information that may be requested by the Planning Commission. In making a determination of similarity and compatibility with the listed uses in that district, the Planning Commission shall consider the following:
a. **Determination of Compatibility.** In making the determination of compatibility, the Planning Commission shall consider specific characteristics of the use in question and compare such characteristics with those of the uses which are expressly permitted by right or special land use in the district. Such characteristics shall include, but are not limited to, traffic generation, generation of nuisances, parking, types of service offered, types of goods produced, methods of operation, and building characteristics.

b. **Method by Which Use may be Permitted.** If the Planning Commission determines that the proposed use is compatible with permitted uses in the district, the Planning Commission shall decide whether the proposed use is most similar to those permitted by right, as a special land use, or as a permitted accessory use. The proposed use shall be subject to the review and approval requirements for the district in which it is located. The Planning Commission shall have the authority to establish additional standards and conditions under which a use may be permitted in a district.

c. **Use Provided for in Other District.** No use shall be permitted in a district under the terms of this Section if that use is specifically listed as a use permitted by right or as a special land use in any other district.

d. **Prohibited Uses.** Certain uses may not be appropriate within the City given the existing development pattern, environmental conditions, and overall character in the community. All uses not permitted are prohibited. In finding that there is no appropriate location for the use within the City, the Planning Commission shall consider the following:

1. The land area required by the proposed use.
2. Existing environmental conditions and potential environmental hazards.
3. The potential impact on surrounding properties in terms of traffic, noise, lighting, property valuation, and views.
4. Demand and capacity of utilities and municipal services to support the proposed use.
5. The applicant cannot demonstrate to the satisfaction of the Planning Commission that there is not an alternative land use that will provide the property owner with a reasonable rate of return on investment.

e. In the event that an applicant for a similar use determination is not satisfied with the ruling of the Planning Commission, the applicant may appeal the Planning Commission’s ruling to the Zoning Board of Appeals.

**SECTION 1938. KEEPING OF ANIMALS**

The keeping, housing, raising, use or care of animals is permitted, subject to Arenac County animal control regulations and furthermore:

a. Customary household pets may be kept on a noncommercial basis provided that the number of adult animals does not exceed six. Customary household pets include such animals as dogs, cats, rabbits, birds, and similar animals; but do not include pigeons, chickens, ducks, geese, goats, sheep, pigs, and other farm livestock.
SECTION 1939. LOT WIDTH/DEPTH RATIO

Lots created after the effective date of the ordinance from which this Article is derived having a lot area of less than ten acres shall have a lot width which is equal to, or greater than, one-third quarter the depth of the lot.

SECTION 1940. SATELLITE DISH ANTENNAS

a. In residential districts a satellite dish antenna greater than 24 inches in diameter shall be permitted only in a rear yard, or mounted or attached to a building.

b. In all districts, a satellite dish antenna greater than 24 inches in diameter shall comply with the side and rear yard setback requirements applicable to main buildings in the district in which it is located.

c. In nonresidential districts a satellite dish antenna greater than 24 inches in diameter shall be located only in the side or rear yard or mounted on top of a building. No more than two satellite dish antennas shall be located on the same lot as a main building. Satellite dish antennas are permitted only in connection with, incidental to and on the same lot as a principal use or main building.

d. Satellite dishes less than 24 inches in diameter are exempt from the preceding regulations.

SECTION 1941. HOME OCCUPATIONS:

a. Intent: It is the intent of this Section to allow for and regulate the establishment of home occupations that are compatible with the neighborhood in which they are located and which will preserve the peace, quiet, and domestic tranquility within all residential districts in the City.

b. Conditions: Home occupations may be permitted subject to the following conditions:

1. The use of the dwelling unit for the home occupation shall be clearly incidental and subordinate to its use for residential purposes, and not more than twenty percent (20%) of the habitable floor area of the dwelling unit may be used for the purposes of the home occupation. Further, the use shall not exceed 400 square feet and at least 850 square feet of the dwelling unit must remain in residential use.

2. A home occupation, including storage of materials and goods, shall be entirely conducted within the confines of the dwelling unit.

3. There shall be no change in the outside appearance of the structure or premises, or other visible evidence of conduct of the home occupation, and there shall be no external or internal alterations that are not customary in residential areas.

4. Unless specifically otherwise provided herein, no article shall be sold or offered for sale on the premises except as prepared within the dwelling or accessory building or is provided as incidental to the service or profession conducted therein. A retail showroom, sales area, outlet, or similar facility is prohibited.
5. Traffic generated by such operation shall not be greater than that for normal residential purposes.
6. No equipment or process shall be used in the home occupation that creates noise, vibration, glare, fumes, odor, or electrical interference that are nuisances to persons off the lot. Any electrical equipment or process which creates visual or audible interference with any radio or television receivers off the premises or which cause fluctuations in line voltages off the premises shall be prohibited.
7. Any necessary parking spaces for vehicles generated by the conduct of the home occupation shall be provided off the road. Parking shall not be permitted in the front yard.
8. A permit and fee is required once every two (2) years.
9. No employees other than occupants of the premises shall be engaged in such occupation. The operator of a home occupation shall reside within the same dwelling unit in which the activity is conducted.

c. **Procedure:** A person may request a home occupation permit by:

1. Submitting to the Zoning Administrator an application for a home occupation permit on forms to be provided by the Zoning Administrator.
2. If the Zoning Administrator finds the application to be complete, and all conditions are met, a Home Occupation Permit shall be issued by the Zoning Administrator.
3. The Home Occupation Permit shall be renewed every two years, subject to review and approval by the Zoning Administrator.

d. **Prohibited Home Occupations:** The following uses are not permitted as home occupations:

1. Stables or kennels.
2. Automobile body repair, machine shop or any similar business.
3. Animal hospitals.
5. Funeral parlors or undertaking establishments.
6. Antique shops.
7. Rooming houses and tourist homes.
8. Dancing schools.
9. Contractors, such as building construction, electrical, plumbing landscaping, lawn mowing, masonry, snow plowing, excavating, and similar businesses.
10. Trailer rental.
11. Private clubs.
12. Restaurants and tea rooms.
13. Repair shops of any kind that may create nuisance factors.
14. Repair, maintenance, painting service, and storage of automobiles, machinery, tools, trucks, boats, recreational vehicles and similar items.
15. Utility and public service buildings
16. Any proposed home occupation neither specifically permitted above, nor specifically prohibited above, shall be reviewed as a special land use. The City Council may
establish appropriate standards for the operation of such special land use to meet the standards of the Ordinance. The Council may determine, after public hearing, that a use not specifically mentioned above that has similar negative impacts as one or more of the uses above is also not permitted.

e. **Required Application Information:** A site plan and a home occupation information sheet shall accompany a permit application for a home occupation. Issuance of Home Occupation Permit shall be based on the site plan. For purposes of this section, the site plan shall illustrate at a minimum, the following:

1. Dimensions of a subject parcel.
2. Dimensions of the building in which the home occupation is proposed.
3. Dimensions of the exact area which is to be utilized for the home occupation.
4. Location of exterior doors.
5. The proposed location and dimensions of the parking area.

f. **Voids of Permit:** Home occupations may be monitored and reviewed to insure that they are operated in compliance with the requirements herein or any conditions stipulated in their approval. Noncompliance with the requirements herein and/or the conditions of approval relating to the permit for a home occupation shall constitute grounds for the Zoning Administrator to terminate said permit.

**Section 1942. RESIDENTIAL DESIGN STANDARDS:**

Any single-family dwelling, including a manufactured home, constructed and erected on a lot outside a manufactured housing development, shall be permitted only if it complies with all of the following requirements:

a. If the dwelling unit is a manufactured home, it must either be:

1. New and certified by the manufacturer and/or appropriate inspection agency as meeting the Manufactured Home Construction and Safety Standards of the U.S. Department of Housing and Urban Development, as amended, or any similar successor or replacement standards which may be promulgated.
2. Used and certified by the manufacturer and/or appropriate inspection agency as meeting the standards referenced in subsection (1) above, and found, on inspection by the Building Official/Zoning Administrator or his designee, to be in excellent condition and safe and fit for residential occupancy.

b. If the dwelling unit is a manufactured home, the manufactured home shall be installed on a foundation with the wheels and tongue removed.

c. If the dwelling unit is a manufactured home, it shall be installed pursuant to the manufacturer's setup instructions and shall be secured to the building site by an anchoring system or device complying with the rules and regulations, as amended, of the Michigan Manufactured Home Commission, or any similar or successor agency having regulatory
responsibility for manufactured home parks or manufactured housing communities.

d. The dwelling unit shall comply with all applicable building, electrical, plumbing, fire, energy, and other similar codes adopted by the City, provided, that where a dwelling unit is required by law to comply with any Federal or State standards or regulations for construction, and where such standards or regulations for construction are more strict than those imposed by City codes, then and such Federal or State standards or regulations shall apply. Appropriate evidence of compliance with such standards or regulations shall be provided to the Building Official/Zoning Administrator.

e. The dwelling unit shall comply with all restrictions and requirements of this Ordinance, including, without limitation, the minimum lot area, minimum lot width, minimum residential floor area, yard requirements, and maximum building height requirements of the zoning district in which it is located.

f. The dwelling unit shall have a minimum horizontal dimension across any side or rear elevation of twenty (20) feet.

g. The main roof of the dwelling unit shall have a minimum pitch of four (4) feet of rise for each twelve (12) feet of horizontal run.

h. The dwelling unit shall be placed on the lot so that the portions nearest the principal street frontage are at least thirty (30) feet in dimension parallel to the street.

i. The dwelling unit shall be firmly attached to a permanent continuous foundation constructed on the building site. Such foundation must have a wall of the same perimeter dimensions as the dwelling unit and be constructed of such materials and type as required by the State Building Code for on-site constructed single-family dwellings. If the dwelling unit is a manufactured home, its foundation and skirting shall fully enclose the chassis, undercarriage, and towing mechanism.

j. A storage area within a building not less than one hundred twenty (120) square feet in a area shall be provided. This storage area may consist of a basement, closet area, attic, or attached garage in a principal building, or in a detached accessory building which is in compliance with all other applicable provisions of this Ordinance pertaining to accessory buildings.

k. Permanently attached steps or porch areas at least three (3) feet in width shall be provided where there is an elevation difference greater than eight (8) inches between the first floor entry of the dwelling unit and the adjacent grade. Railings shall be provided in accordance with the State Building Code.

l. The exterior finish of the dwelling unit shall not cause glare or reflection that is greater than that from siding coated with clean, white, gloss exterior enamel.

m. The dwelling unit shall not contain any additions of rooms or other areas which are not
constructed with similar quality workmanship and materials as the original structure, including permanent attachment to the principal structure and construction of a foundation as required herein.

n. The above standards may be modified by the Building Official/Zoning Administrator upon determination that the proposed design is consistent with the predominant standard in the surrounding area.
ARTICLE 20
NON-CONFORMITIES

SECTION 2000. INTENT

a. Non-conformities are considered to be incompatible with the current or intended use of land, buildings or structures in the district in which they are located. This Article is intended to meet the objectives stated below by establishing regulations that govern the completion, restoration, reconstruction, extension, and/or substitution of non-conformities, and specify the circumstances and conditions under which non-conformities shall be permitted to continue.

b. The intent of this Article is to eliminate, or bring into compliance, lots, buildings, structures and uses which legally existed at the date of adoption of this Ordinance, but do not meet the current standards of this Ordinance. This Ordinance also has special provisions to permit certain non-conforming situations considered to be less harmful to continue under certain conditions, but to discourage their expansion, enlargement, or extension. The requirement and standards of this Article are intended to accomplish the following:

1. Terminate and remove any use, building, accessory structure or any combination thereof that was established after the effective date of this Ordinance and in violation of this Ordinance. Such uses, buildings, or accessory structures are classified as violations of this Ordinance and shall not receive any of the rights, privileges or protection conferred by this Article for non-conforming situations.

2. Discourage the continuation of non-conforming uses that are more intense than the uses permitted within the zoning district and are considered to be incompatible with permitted uses, or encourage their redevelopment into a more conforming use.

3. Permit legal non-conforming buildings, structures or uses to remain until they are discontinued, removed or abandoned.

4. Encourage a gradual upgrading to a more conforming status of site landscaping, parking, paving, signs or other features of a site required by the Zoning Ordinance developed in compliance with the requirements at the time of their construction, but which do not meet the site requirements of this Ordinance.

5. Encourage the combination of contiguous non-conforming lots of record to create lots which conform or more closely conform to current requirements, for better compatibility with other lots in the zoning districts in which they are located, to promote the public health, safety and welfare and to eliminate problems associated with the overcrowding of land.
SECTION 2001. APPLICABILITY

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change in plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Ordinance, upon which actual building construction has been diligently continued and there is a valid building permit. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been substantially begun preparatory to rebuilding such work shall be deemed to be actual construction, provided that such work shall be diligently continued until completion of the building involved.

SECTION 2002. NON-CONFORMING USES

Where, at the effective date of adoption or amendment of this Ordinance, a lawful use on open land, a lot(s), building(s) or accessory structure(s) exists that is made non-conforming by this Ordinance or its amendments, such use may be continued, as it remains otherwise lawful, subject to the following provisions:

a. Expansions. Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use, and which existed at the effective date of this Ordinance. Except for one-family dwellings as permitted below, a non-conforming use shall not be enlarged, expanded or extended to occupy a greater area of land, constructed, reconstructed or structurally altered except with approval by the Zoning Board of Appeals (ZBA).

b. Accessory Uses and Structures. No new accessory use, building or structure shall be established.

c. Relocation. The non-conforming use shall not be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of this Ordinance.

d. Change in Use. If no structural alterations are made, any non-conforming use of a building, or building and land in combination, may be changed to another non-conforming use if the ZBA finds the proposed use is more appropriate to the district than the existing non-conforming use. In permitting the change, the ZBA may require conditions and safeguards in accord with the purpose and intent of this Ordinance. Where a non-conforming use of a structure, land, or structure and land in combination is hereafter changed to a more conforming use, it shall not thereafter be changed to a less conforming use.

e. Removal. Where non-conforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land.
f. **Abandonment or Discontinuance.** If the non-conforming use of land ceases for any reason for a period exceeding one (1) year and the Zoning Administrator determines that the owner has established intent to abandon the non-conforming use, any subsequent use of such land shall conform to the requirements specified by this Ordinance for the zoning district in which it is located. A non-conforming use shall be determined to be abandoned if one (1) or more of the following conditions exists, and shall be deemed to constitute an intent on the part of the property owner to abandon the non-conforming use:

1. Utilities, such as water, gas and electric to the property, have been disconnected.
2. The property, buildings, and grounds, have fallen into disrepair.
3. Signs or other indications of the existence of the non-conforming use have been removed.
4. Removal of equipment or fixtures which are necessary for the operation of the Non-conforming use.
5. Other actions, which in the opinion of the Zoning Administrator constitute an intention of the part of the property owner or lessee to abandon the non-conforming use.

**g. Special Standards for One-Family Dwellings in a Non-Residential District**

1. A one-family residential dwelling in a zoning district which does not permit that use may be expanded to occupy the floor area necessary for living purposes.
2. A one-family dwelling and its accessory structures, in a zoning district which does not permit that use may be continued, replaced, repaired or remodeled if damaged by flood, fire, or vandalism, if approved by the ZBA. Such approval requires a finding that the resulting building footprint and floor area will be the same size or smaller than that of the building before such change. Replacement of such non-conforming one-family building shall commence no sooner then receiving a valid building permit and no later than six (6) months of the date of damage. Work shall be diligently pursued toward completion. The applicant may be required to provide the City with evidence, visual or otherwise, that demonstrates to the satisfaction of the City that work is being diligently pursued. Failure to complete replacement or to diligently work toward completion shall constitute abandonment and result in the loss of its non-conforming status unless good cause for the delay is accepted at a hearing before the ZBA.

**SECTION 2003. NON-CONFORMING BUILDINGS OR STRUCTURES**

Where a lawful building or structure exists at the effective date of adoption or amendment of this Ordinance that could not be built under the terms of this Ordinance, that building or structure may be continued provided it remains otherwise lawful, subject to the following provisions. Except as noted below, no building or structure may be enlarged unless a variance is granted by the ZBA.

a. **Damage by Fire or Other Catastrophe.** Any non-conforming structure or building,
or any structure or building that contains a non-conforming use that is damaged by fire, flood, or other means to a point where the cost of repairs will be in excess of 51% of the structure and/or building's pre-catastrophe market value (as described in paragraph (I) below) shall not be rebuilt, repaired, or reconstructed, except in complete conformity with the provisions of this Ordinance. In the event that the cost of repairing the damage is less than 51% of the structure or building's pre-catastrophe market value (as described in paragraph (I) below), the structure or building may be restored to its pre-catastrophe status. Such restoration shall take place only upon approval of the Zoning Administrator and all construction shall be in full compliance with applicable provisions of this Ordinance and other applicable City Codes. Any request for such rebuilding, repair, or restoration shall be made to the Zoning Administrator within one hundred eighty (180) days following the incident. Any such rebuilding, repair, or restoration shall be completed within one (1) year from the date of the catastrophe.

b. Replacement of a Non-Conforming One-Family Dwelling. A non-conforming building used as a one-family residence, and its accessory structures, may be continued, replaced, repaired or remodeled if damaged by flood, fire, vandalism, accident or other natural disaster if the cost of repairs will be less than 51% of the structure and/or building's pre-catastrophe market value. The resulting building footprint will be the same size or smaller than that of the building before such change or that the building will become more conforming. Replacement, repair or remodeling of such a non-conforming one-family building shall commence within one (1) year of the date of damage and work shall be diligently pursued toward completion. Failure to complete replacement or to diligently work toward completion shall result in the loss of legal non-conforming status unless good cause for the delay is accepted at a hearing before the ZBA.

c. Relocation of a Non-Conforming Building or Structure. Should any non-conforming building or structure be relocated or moved for any reason for any distance, it shall thereafter conform to the regulations for the district in which it is located after it is relocated or moved.

d. Safety Related Repairs, Improvements, and Modernization. Repairs, improvements, or modernization of non-conforming buildings or structures deemed necessary by the Zoning Administrator to maintain a non-conforming building in a structurally safe and sound condition are permitted provided such repairs or improvements do not exceed the market value (as described in paragraph (I) below) of the building or structure during any period of twelve (12) consecutive months. This cost/value calculation shall not include any costs associated with modernization of electrical, plumbing, heating or cooling systems to meet Building Code requirements. Any such repairs, improvements, and modernization shall not result in an enlargement of the non-conforming structure. However, if a non-conforming building or a structure containing a non-conforming use becomes physically unsafe, dangerous, and/or unlawful due to lack of maintenance and repairs and is formally declared as such by the Zoning Administrator, it shall not thereafter be restored,
repaired, or rebuilt except in full conformity with the regulations in the district in which it is located.

e. **Non-Safety Improvements and Modernization.** Repairs, improvements, or modernization of non-conforming buildings or structures which are not deemed necessary by the Building Department to keep a non-conforming building structurally safe and sound shall be permitted provided such repairs or improvements do not exceed fifty percent (50%) of the market value of the structure (as described in paragraph (l) below) during any period of twelve (12) consecutive months. Any such repairs, improvements or modernization shall not result in an enlargement of the non-conforming structure or building.

f. **Alterations That Decrease Non-Conformity.** Any non-conforming structure or building or structure or building containing a non-conforming use, may be altered if such alteration serves to clearly decrease the non-conforming nature of the structure, building, and/or use. The Zoning Administrator shall determine if a proposed alteration decreases the degree of non-conformity.

g. **Permitted Expansions to One-Family Dwellings.** An expansion (footprint or floor area) of a non-conforming one-family building or structure shall be permitted when both of the following conditions exist:

1. Only one (1) wall of the existing building or structure does not comply with the applicable setback requirement.
2. The expansion is on a conforming wall of the existing building or structure and will comply with applicable setback and height requirements.

h. **Elimination of Non-Conformity.** In the event a non-conforming situation is removed, the corresponding section of the building or structure shall thereafter conform.

i. **Market Value.** For the purpose of this Article, market value shall be determined by an acceptable independent appraisal provided by the applicant. The City Assessor and Zoning Administrator shall review the appraisal. The value of the repairs or improvements shall be based on a written estimate from a licensed contractor provided by the applicant. This estimate shall be reviewed by the Zoning Administrator.

**SECTION 2004. NON-CONFORMING LOTS**

The following regulations shall apply to any non-conforming lot of record or non-conforming lot described in a deed or land contract executed and delivered prior to the effective date of the Zoning Ordinance or amendment thereto:

a. **Use of Non-Conforming Lots.** Any non-conforming lot may be used only for a use permitted in the zoning district in which it is located.
b. **Variance from Area and Bulk Requirements.** In any district in which one-family dwellings are permitted, a one-family dwelling and customary accessory building(s) may be erected on a lot that does not meet the requirements for lot width, lot area, or both without obtaining a variance from the ZBA provided that all other applicable requirements are met. In all other circumstances, use of a non-conforming lot requires a variance from the lot width and/or lot area requirements as applicable.

c. **Non-Conforming Contiguous Lots under the Same Ownership.** To develop a non-conforming lot(s) under the provisions of paragraphs a. and b. of this Section, the applicant is required to submit evidence that ownership of the lot is not under contiguous single ownership with other lots that could be combined into a conforming or more conforming lot. The following regulations shall apply to non-conforming contiguous lots under the same ownership.

1. If two (2) or more lots or combination of lots with contiguous frontage are or have been under single ownership are of record at the time of adoption or amendment of this Ordinance, and if all or part of the individual lots do not meet the requirements established for lot width and area, the lands shall be considered as a singular, individual parcel for the purposes of this Ordinance. Any altering of lot lines or combination of lots shall result in lots that more closely conform to the requirements of this Ordinance.

2. No portion of the non-conforming parcel shall be used, occupied, or sold in a manner that diminishes compliance with lot width and area requirements established by this Ordinance, nor shall any division of a parcel be made that creates a new lot having a width or area less than the requirements stated in this Ordinance.

3. These provisions shall not apply to contiguous lots in single ownership where each of the lots is occupied by an existing dwelling unit.

d. **Combination of Non-Conforming Lots.** The following regulations shall apply to the combination of non-conforming lots.

1. Any combination, in whole or in part, of non-conforming lots of record shall result in lots that more closely conform to the requirements of this Ordinance to the maximum extent feasible.

2. Once any combination that creates a conforming lot occurs, the resulting lot shall not retain non-conforming lot of record status and will hereafter be required to comply with the lot requirements of this Ordinance.

**SECTION 2005. NON-CONFORMING SITES**

The intent of this Section is to permit improvements and minor modifications to an otherwise conforming use and building which does not meet all of the various site improvement related regulations of this Ordinance. The purpose is to allow gradual compliance with the site related requirements, for the entire site, for sites which predate
the various Ordinance standards for landscaping, paving, and other non-safety site related items.

Improvements or expansions may be permitted by the Planning Commission during special land use or site plan review without a complete upgrade of all site elements under the following conditions. The City may require a performance guarantee to ensure that all improvements permitted under this Section will be made in accordance with the approved plan.

a. The applicant is proposing reasonable site improvements on the overall site in relation to the scale and construction cost of the building improvements or expansion.

b. The applicant has addressed safety related site issues on the overall site.

c. The improvements or minor expansion will not increase noncompliance with site requirements.

d. Signs must comply with ARTICLE 24 SIGNS.

e. A site plan shall be submitted in accordance with ARTICLE 21 SITE PLAN REVIEW.

SECTION 2006. CHANGE OF TENANCY OR OWNERSHIP, PURCHASE, OR CONDEMNATION

a. In the event there is a change in tenancy, ownership, or management, a non-conforming use, structure or building shall be allowed to continue provided there is no change in the nature or character of such non-conformity and the use, structure, or building is otherwise in compliance with this Ordinance.

b. The City Council may acquire, by purchase, condemnation or otherwise private property or an interest in private property for the removal of non-conforming buildings, structures or uses. The cost and expense, or a portion thereof, of acquiring the private property may be paid from general funds or assessed to a special district in accordance with the applicable statutory provisions relating to the creation and operation of special assessment districts for public improvements in the City.

c. The elimination of the non-conforming buildings, structures, or uses is declared to be for a public purpose and for a public use. The City Council may institute and prosecute proceedings for condemnation of non-conforming buildings, structures or uses under the power of eminent domain in accordance with Act 149 of the Public Acts of 1911, as amended, being Sections 213.21 to 213.41 of the Michigan Compiled Laws or other applicable statute.
SECTION 2007. ACQUISITION OF NON-CONFORMING BUILDINGS, STRUCTURES, OR USES

The Zoning Administrator, from time to time, may recommend to the City Council, the acquisition of private property for the purpose of removal of non-conformities. Where such acquisition is contemplated, the following procedures shall be followed:

a. **Zoning Administrator Documentation and Recommendation.** Prior to initiating acquisition, the Zoning Administrator shall prepare or cause to have prepared a report for the City Council. The report shall include the following:

1. A list of all requirements of this Ordinance that are not met by the subject property.
2. An estimate of the expense of such acquisition.
3. An estimate of the cost of removing the non-conformities.
4. An estimate of the probable resale price of the property after acquisition and removal of the non-conformities.
5. Recommendations concerning the allocation of costs to be incurred by the City.

b. **City Council Consideration**

1. **Public Hearing.** After receiving and reviewing the report from the Zoning Administrator, the City Council shall determine if acquisition of the non-conforming property should be pursued. If the City Council decides to pursue acquisition, then it shall first set a public hearing. Not less than fifteen (15) calendar days prior to the public hearing, notice of the time, place, and purpose of the public hearing shall be published in the official newspaper of the City, and sent by mail to the owners of property for which acquisition is being considered. The notice shall be sent to the owner's address as stated in the most recent assessment roll.

2. **Special Assessment.** If any or all of the expense related to acquisition of the subject property is assessed to a special district, then the City Assessor shall be directed to furnish the City Council with a tentative special assessment district and tentative plan of assessment. The names and addresses of the owners of property located in the district (as stated in the latest assessment roll) shall be provided to the City Council. Notice of the time, place, and purpose of the public hearing shall be sent by mail to the owners of property located in the tentative special assessment district.

3. **City Council Determination.** If, following the public hearing, the City Council finds that elimination of the non-conforming use, structure, or building would be for a legitimate public purpose, then it shall declare by resolution of the City Council that the City shall proceed to acquire the non-conforming use, structure, or building in accordance with the laws of the State of Michigan and applicable City Ordinances. The City Clerk shall send by registered mail a certified copy of the resolution of the City Council to the owners of property to be acquired and to owners of property in any special assessment district, at the addresses stated in the
c. **Removal of Non-Conformity.** Upon passing of title of the property so acquired by the City, the City Council shall cause the discontinuance or removal of the non-conforming use, or the removal or demolition or remodeling of the non-conforming building or structure.

d. **Disposition of Property.** The City Council may thereafter elect to retain all or part of the property so acquired for municipal purposes. If acquisition costs and expenses are to be assessed against a special assessment district, the amount to be assessed shall be reduced by the market value of any part of the property retained for municipal use, as determined by the City Assessor. The City Council shall thereafter order the sale of the portion of the property not retained for municipal purposes, but only for use in conformance with this Ordinance. The City Council shall confirm the expenses related to the project and report the assessable cost to the City Assessor, who shall then prepare an assessment roll in the manner provided for law. Such an assessment may, at the discretion of the City Council, be paid in one (1) or more, but not to exceed ten (10) annual installments.
ARTICLE 21

SITE PLAN REVIEW

SECTION 2100. INTENT AND PURPOSE

It is the purpose of this article to require site plan review approval for certain buildings, structures, and uses that can be expected to have a significant impact on natural resources, environmental quality, traffic patterns and the character of future development in the vicinity. The requirements contained in this article are intended to reduce hazards to life and property due to fire, flooding, soil erosion, inadequate surface water drainage, inadequate sewage disposal systems, pollution, dust, fumes, noise, vibration, noxious odors, and other hazards; and to facilitate the provision of a system of roads, streets, parking, municipal sewage disposal, storm sewers, municipal water supply, public education, and other public needs. These requirements are further intended to promote orderly development and harmonious design in order to conserve the value of existing development and property.

SECTION 2101. USES SUBJECT TO SITE PLAN REVIEW

A building permit shall not be issued until a full site plan or sketch plan has been reviewed and approved in accordance with the procedures and standards set forth herein and all necessary review, inspection, and permit fees have been fully paid. The extent of site plan review for various types of projects is classified into four (4) types in Table XXI-01 Table of Eligible Uses and Required Review Process.

a. Full Site Plan. The most involved process for larger and more intense projects, including most new developments and major expansions.

b. Sketch Plan. Smaller scale projects and expansions or changes in use to existing sites are permitted to provide less detailed information than a full scale site plan review. The level of information is intended to be proportionate to the extent of the change and yet insure adequate review for compliance with applicable standards. Sketch plans shall still undergo a formal review by the Planning Commission.

c. Administrative Review. Select smaller scale projects and expansions or changes in use to existing sites, which are required to provide a sketch plan, do not require review by the Planning Commission; but instead shall undergo a formal review for approval by the Development Official.

d. Exempt. Select projects, such as single family homes in an individual lot, are exempt from site plan review given their relatively low level of impact on adjacent land uses, and given that compliance with applicable zoning regulations can be addressed during the building permit review process.

SECTION 2102. PROCEDURE FOR SITE AND SKETCH PLAN REVIEW

Site plans and sketch plans must be submitted in accordance with the following procedures and requirements:

a. Application

1. Complete Application.

   (a) An application for site plan review deemed to be complete, according to the requirements of subsection a.2. below, shall be submitted at least thirty (30) days prior to the next scheduled Planning Commission meeting through the Development Official, who will review the application materials to ensure that the requirements of this section are met, then transmit it to the Planning Commission.

   (b) An application shall not be accepted until all required materials are provided. Incomplete applications shall be returned to the applicant with an indication of the items necessary to make up a complete application.
2. Site Plan Submittal. The applicant shall submit twenty (20) copies of the following to the city.
   (a) A completed application form, as provided by the city.
   (b) Written description of the proposed project or use.
   (c) A complete site plan or sketch plan that includes the information required in Section 2104 Submittal Requirements.
   (d) Payment of a fee, in accordance with a fee schedule, as determined by City Council resolution.
   (e) A legal description, including the permanent parcel number, of the subject property.
   (f) Any additional information the Planning Commission or Development Official finds necessary to make the determinations required herein.

3. Applicant Attendance. The application shall be submitted by the owner of an interest in the land for which site plan approval is sought, or the designated agent of the owner. The applicant or a designated representative must be present at all scheduled review meetings or consideration of the plan shall be tabled without consideration of the site plan due to lack of representation. The representative must be the property owner or someone designated in writing by the property owner as the authorized representative.

b. Preliminary and Final Site Plan Review

1. Preliminary Review
   (a) If desired by the applicant, a preliminary site plan may be submitted to the Planning Commission for review prior to final site plan review. The purpose of the preliminary site plan review is to allow discussion between the applicant and the commission to inform the applicant of the general acceptability of the proposed plans prior to incurring extensive engineering and other costs which may be necessary for the review of the final site plan.
   (b) The Planning Commission shall review the preliminary site plan and make such recommendations to the applicant that will cause the plan to be in conformance with the review standards required by this chapter.

2. Final Review. A final site plan, unless reviewed in conjunction with a special land use request, shall be reviewed by the Planning Commission. Final site plans for special land use requests shall be reviewed by the City Council, after receipt of a recommendation from the Planning Commission.

3. Additional Information. The Planning Commission may request from the applicant any additional graphics or written materials, prepared by a qualified person or persons, to assist in determining the appropriateness of the site plan. Such material may include, but need not be limited to, aerial photography, photographs; traffic impacts; impact on significant natural features and drainage; soil tests; and other pertinent information.
c. Agency Review

Upon receipt of a completed application for final site plan review, the city clerk shall transmit one (1) copy of the site plan to the Planning Commission and each of the following officials or agencies for their comments:
1. City fire chief.
2. City police chief.
3. Arenac County Drain Commissioner.
4. Superintendent of Au Gres Public Schools.
5. City engineer.
6. District Health Department.

d. Planning Commission Consideration. Following staff review and comment, and compliance with administrative procedures, the site plan shall be placed on the agenda of the Planning Commission. The Planning Commission shall review the application for site plan review, together with the reports and recommendations from its planning consultant, engineering consultant, fire chief, police chief and other reviewing agencies, as appropriate. The Planning Commission shall then make a determination based on the requirements and standards of this Ordinance. The Planning Commission is authorized to table, grant approval, grant approval subject to conditions, or denial as follows:

1. Table. The application may be tabled if it is determined to be incomplete, the applicant has not fully responded to deficiencies identified in the technical review, a variance is needed from the Zoning Board of Appeals (ZBA), or revisions are necessary to bring the site plan into compliance with applicable standards and requirements. The Planning Commission shall direct the applicant to prepare additional information, revise the site plan, or direct the city staff to conduct additional analysis. The applicant shall be required to prepare revised plans accompanied by a complete list of all changes, signed by the applicant's design professional.

2. Approval. Upon determination that a site plan is in compliance with the standards and requirements of this Ordinance and other applicable Ordinances and laws, approval shall be granted subject to the applicant providing copies of all required outside agency approvals.

3. Approval Subject to Revisions. Upon determination that a site plan is in compliance except for minor revisions, said revisions shall be identified and the applicant shall correct the site plan prior to applying for a building permit. The applicant shall resubmit the site plan, accompanied by a complete list of all changes, signed by the applicant's design professional, to the city for final approval after the revisions have been completed. The city shall review and approve the resubmitted plan if all required revisions have been addressed and copies of any permits required by outside agencies have been provided.

4. Denial. Upon determination that a site plan does not comply with standards and requirements set forth in this Ordinance site plan approval shall be denied. Any
resubmittal shall be considered a new site plan and be required to reinitiate the full site plan review process.

5. Appeal. Any person aggrieved by the decision of the Planning Commission or City Council with respect to an action regarding the final site plan may have that decision reviewed by the ZBA; provided the petition for appeal is filed with the city clerk within fifteen (15) days of the Planning Commission or City Council decision.

e. Completion of Site Design

1. Following final approval of the site plan and final approval of the engineering plans by the city's engineering consultant, a building permit may be obtained. It shall be the responsibility of the applicant to obtain all other applicable city, county, or state permits prior to issuance of a building permit.

2. If construction has not commenced within one (1) year of site plan approval, approval becomes null and void and a new application for site plan review shall be required. The applicant may request a one (1) year extension by the Planning Commission, provided a written request is received before the expiration date and the site plan complies with current requirements (i.e. any amendments to the zoning ordinance since the site plan was approved).

SECTION 2103. PROCEDURE FOR ADMINISTRATIVE PLAN REVIEW

For uses and projects eligible for administrative review, the following procedures and requirements shall apply:

a. Submittal Requirements. Five (5) copies of the sketch plan that contains the information listed in Table XXI-2 Submittal Requirements shall be submitted to the city. The city may waive some of the submittal requirements if the information is not relevant or required based on the proposed project.

b. Review by City. The city shall confine its review to the proposed alterations only, rather than review of the entire building or layout. The city shall either approve the sketch plan, approve the sketch plan with a condition that certain revisions be made, or deny the sketch plan.

c. Planning Commission Review. Both the city planning consultant and the applicant shall have the option to request sketch plan review by the Planning Commission.

d. Issuance of Building Permit. A building permit shall be issued following review and approval of any construction plans by the city engineering consultant, as appropriate.
SECTION 2104. SUBMITAL REQUIREMENTS

The following data shall be included with and as part of the site plan(s) or sketch plan(s) submitted for review:

SECTION 2105. STANDARDS FOR SITE PLAN APPROVAL.

a. The Planning Commission in making its determination shall review the final site plan and find the following compliance with the following prior to approval:

1. The requirements of this chapter and other applicable city ordinances.
2. Any applicable comments received from circulated agencies.
3. Other applicable state and federal statutes and standards.

b. Site plan approval shall be granted only if the site plan meets all applicable standards set forth in this section as outlined below:

1. Adequacy of Information. The site plan shall include all required information in sufficiently complete and understandable form to provide an accurate description of the proposed use(s) and structure(s).
2. Site Design Characteristics. All elements of the site design shall be harmoniously and efficiently organized in relation to topography, the size and type of lot, the...
character of adjoining property, and the type and size of buildings. The site shall be developed so as not to impede the normal and orderly development or improvement of surrounding property for uses permitted in this chapter. The site shall be designed to conform to all provisions of this Article.

3. Preservation of Natural Areas. Removal or alteration of significant natural features shall be restricted to those areas which are reasonably necessary to develop the site in accordance with the requirements of this chapter. The Planning Commission may require that landscaping, buffers, and/or greenbelts be preserved and/or provided to ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property.

4. Emergency Vehicle Access. All buildings or groups of buildings shall be arranged so as to permit emergency vehicle access by some practicable means to all sites.

5. Vehicular and Pedestrian Circulation Layout. Safe, convenient, uncongested, and well-defined vehicular and pedestrian circulation shall be provided for ingress/egress points and within the site. Drives, streets and other circulation routes shall be designed to promote safe and efficient traffic operations, within the site and at ingress/egress points. Every structure or dwelling unit shall have access to a private street, public street, walkway or other areas dedicated to common use. The arrangement of public or private vehicular and pedestrian connections to existing or planned streets in the area shall be planned to provide a safe and efficient circulation system for traffic within the city.

6. Stormwater Drainage. Appropriate measures shall be taken to ensure that removal of surface waters will not adversely affect neighboring properties, the city, or county storm drainage system. Provisions shall be made for the construction of storm sewer facilities including grading, gutters, piping and treatment of turf to handle storm water, prevent erosion and the formation of dust. Surface water on all paved areas shall be collected at intervals so that it will not obstruct the flow of vehicular or pedestrian traffic or create puddles in paved areas.

7. General Purpose Floor Drains. General purpose floor drains shall only be allowed if they are approved by the city's department of public services for a connection to a public sewer system, an on-site closed holding tank (not a septic system), or regulated through a state groundwater discharge permit.

8. Hazardous Materials. State and federal agency requirements for storage, spill prevention, recordkeeping, emergency response, transport and disposal of hazardous substances shall be met. No discharges to groundwater, including direct and indirect discharges, shall be allowed without permits and approvals. Secondary containment for aboveground areas where hazardous substances are stored or used shall be provided. Secondary containment shall be sufficient to store the substance for the maximum anticipated period of time necessary for the recovery of any released substances.

SECTION 2106. APPROVED PLANS AND AMENDMENTS

a. Upon approval of the final site plan, the Planning Commission chair, or the chair's designee, shall sign three (3) copies thereof. One (1) signed copy shall be made a
part of the city's files; one (1) copy of the final site plan shall be forwarded to the building official for issuance of a building permit; and one (1) copy shall be returned to the applicant.

b. Each development shall be under construction within one (1) year after the date of approval of the final site plan, except as noted in this section.

1. An applicant may request from the Planning Commission one (1) six (6) month extension of the final site plan approval. Any request for extension must be applied for in writing prior to the date of the expiration of the final site plan. Such request may only be granted provided that:

(a) The applicant presents reasonable evidence that the development has encountered unforeseen difficulties beyond the control of the applicant; and
(b) The site plan requirements and standards, including those of this chapter and the comprehensive development plan, that are reasonably related to the development have not changed.

2. Should neither of the provisions of 1. above of this section be fulfilled, or a six (6) month extension has expired without construction having been started and proceeding meaningfully, the final site plan approval shall be null and void.

c. Amendments. Amendments to an approved final site plan may occur only under the following circumstances:

1. The holder of a valid final site plan approval shall notify the Development Official of any proposed amendment to such approved site plan.
2. Minor changes may be approved by the Development Official upon certification in writing to the Planning Commission that the proposed revision does not alter the basic design nor any specified conditions of the plan as agreed upon by the Planning Commission. The Development Official shall consider the following to be a minor change:
   (a) Reduction of the size of any building and/or sign.
   (b) Movement of buildings and/or signs by no more than ten (10) feet provided that such movement does not cause a violation of this chapter.
   (c) Landscaping approved in the site plan that is replaced by similar landscaping to an equal or greater extent.
   (d) Changes in floor plans which do not alter the character of the use or increase the amount of required parking.
   (e) Changes in building materials to a comparable or higher quality.
   (f) Internal rearrangement of a parking lot which does not affect the number of parking spaces or alter access locations or design.
   (g) Changes required or requested by the city for safety reasons or by outside agencies such as the county, state, or federal departments.
3. Should the Development Official determine that the requested modification to the approved final site plan is not minor, a new site plan shall be submitted and reviewed as required by this article.

SECTION 2107. PERFORMANCE GUARANTEE

To ensure compliance with the zoning ordinance and any condition imposed thereunder, as such condition applies to public facilities, infrastructure, and roadways, the Planning Commission may require that a cash deposit, certified check, irrevocable bank letter of credit, or surety bond acceptable to the City covering the estimated cost of improvements pertaining to general public use associated with a project for which site plan approval is sought be deposited with the Clerk of the City to ensure faithful completion of the improvements.

a. The performance guarantee shall be deposited at the time of the issuance of the building permit authorizing the activity or project. The City may not require the deposit of the performance guarantee prior to the time when the City is prepared to issue the permit. The City shall establish procedures whereby a rebate of any cash deposits in reasonable proportion to the ratio of work relative to improvements associated with general public use or modifications to those site components completed on the required general public use improvements will be made as work progresses.

b. This section shall not be applicable to improvements for which a cash deposit, certified check, irrevocable bank letter of credit, or surety bond has been deposited pursuant to Act No. 288 of the Public Acts of 1967 (Subdivision Control Act) as amended through the Land Division Act (Act 591 of 1996, as amended).

c. As used in this section, "improvements" means those features and actions associated with a project which are considered necessary by the body or official granting zoning approval, to protect natural resources, or the health, safety, and welfare of the residents of the City and future users or inhabitants of the proposed project or project area, including roadways, lighting, utilities, sidewalks, screening, landscaping, and drainage. Improvements do not include the entire project which is the subject of zoning approval.

d. The City shall provide to owner/developer a reasonable amount of time to begin construction of the improvements covered by the performance guarantee. Such time shall be established when a building permit is obtained.

SECTION 2108. FEES

Any application for site plan approval shall be accompanied by a fee as determined by the City Council.
SECTION 2109. RECORD OF SITE PLAN APPROVAL

a. The site plan, as approved, shall become part of the record of approval, and subsequent actions relating to this activity authorized shall be consistent with the approved site plan, unless a change conforming to the zoning ordinance receives the mutual agreement of the landowner and the Planning Commission.
ARTICLE 22

SPECIAL LAND USES

SECTION 2200. INTENT

Special land uses are uses considered to be more intense, or potentially more disruptive, compared to the various uses in a particular zoning district which are permitted by right. The uses classified as special land uses vary by district and are listed in the regulations of each zoning district. These provisions encourage cooperation and consultation between the City and the applicant to facilitate development in accordance with the City's land use objectives. An approved special land use shall be considered a conforming use permitted in the district at the specific site where it is located. The review procedures and standards set forth herein are intended to accomplish the following purposes:

a. Accommodate uses which are needed and beneficial to the City but need to be carefully located due to their potential impacts.

b. Provide a consistent and uniform method for review.

c. Provide a mechanism for public input.

d. Ensure full compliance with the standards contained in this Ordinance and other applicable federal, state, and local regulations.

e. Regulate the use of land operations and site design based on the characteristics of a particular use.

f. Achieve efficient use of the land.

g. Minimize impacts associated with a specific use within the environmental capacities of the impacted area.

h. Provide site design and operational standards to minimize any negative impact on adjoining or nearby properties.

i. Establish procedures for expansion or change in use of a special land use for both uses which have received special land use approval and those which existed prior to the adoption of special land use review procedures.

SECTION 2201. SPECIAL LAND USE APPLICATION PROCEDURE

An application for a special land use shall be submitted in accordance with the following procedures, standards and requirements. A site plan must be submitted with the...
application for special land use. Approval of the proposed land use is required prior to the site plan approval by the Planning Commission.

a. Applicant Eligibility. An application shall be submitted by the owner of an interest in land for which approval is sought, or by an agent designated by the owner. The applicant or agent shall be present at all scheduled review meetings or consideration of the proposal may be tabled by the reviewing body.

b. Required Information. An application for a special land use permit shall include all of the following document and information:

(1) Application Form. A special land use application form supplied by the City which has been completed in full by the applicant.
(2) Site Plan. A full site plan in accordance with Article 21.
(3) A statement with regard to compliance with the standards for approval in Section 2203.

c. Planning Commission Consideration. After all required information has been received and review fees paid, the application shall be processed in accordance with the following procedures:

(1) Acceptance for Processing. The application shall be placed on the agenda of a scheduled Planning Commission meeting and a public hearing scheduled.
(2) Public Hearing. Notice of the public hearing shall be published and circulated in accordance with the requirements of the Michigan Zoning Enabling Act (Public Act 110 of 2006).
(3) Planning Commission Review. Following the public hearing, the special land use proposal and plan shall be reviewed by the Planning Commission, based upon the standards and requirements of this Article.
(4) Plan Revision. If the Planning Commission determines that revisions are necessary to bring the proposed special land use application into compliance with applicable standards and regulations, the applicant shall submit a revised application and site plan. A second hearing is not required on a revised application that addresses concerns raised through the review process unless the Planning Commission determines that it is necessary. Following submission of revised application materials, the proposal shall be placed on the agenda of a scheduled meeting of the Planning Commission for review and possible action.

d. Planning Commission Determination. The Planning Commission shall review the application, together with the public hearing input, and reports from the City Engineer, Fire Official, and other reviewing agencies. The Planning Commission shall then make a determination on the application, based on the requirements and standards of this Article. The Planning Commission may approve, approve with conditions, or deny a request as follows:
City of Au Gres Zoning Ordinance

(1) Approval. Upon determination by the Planning Commission that the application for a special land use is in compliance with the standards and requirements of this article and other applicable laws, approval shall be granted.

(2) Approval with Conditions. With an approval of a special land use proposal, the Planning Commission may impose reasonable conditions. A listing of conditions shall be sent to the applicant by registered mail, return receipt requested. The applicant shall submit a revised site plan or other information that demonstrates compliance with the conditions for administrative approval by the City within sixty (60) days of the date of conditional approval and prior to issuance of a building permit or the submission shall be considered null and void. The City Manager may submit the revised site plan to the Planning Commission for comments or approval.

(3) Denial. Upon determination that a special land use does not comply with standards and regulations set forth in this Ordinance, or requires excessive revisions in order to comply with the standards and regulations, the Planning Commission shall deny the application. Resubmittal of an application which was denied shall be considered a new application.

e. Recording of Planning Commission Action. Each action taken with respect to a special land use shall be duly recorded in the minutes of the Planning Commission. The minutes shall record the grounds for the action taken, and any conditions imposed in conjunction with approval.

f. Effect of Approval. Any special land use approval shall run with the land in perpetuity, unless the use is specifically determined to be temporary in nature or the use is discontinued. The special land use approval shall apply only to the land area contained within the parcel, lot, condominium unit, or other legally defined location for which the special land use approval was granted.

g. Building Permits. Following final approval of the special land use, and site plan, the applicant shall submit engineering plans to the City Engineer. The applicant shall also obtain all other applicable City, County or State permits. The City shall issue a building permit once all required approvals and permits are granted.

h. Expiration of an Approved Special Land Use. If construction has not commenced within twelve (12) months of the date of final approval, the approval becomes null and void and a new application shall be required. Upon written request from the applicant, a twelve (12) month extension may be granted by the Planning Commission if they find that the approved application and site plan continue to represent conditions on and surrounding the site. A written request for an extension of time must be received by the City prior to the special land use expiration date or a new application will be required.

i. Revocation of an Approved Special Land Use. The Planning Commission shall have the authority to revoke any special land use approval after the applicant has failed to comply with any of the applicable requirements of this Article, other applicable
sections of this Ordinance, or conditions of the special land use approval. Prior to any action, the Planning Commission shall conduct a public hearing following the notification process for the original approval. The applicant shall be provided an opportunity to present information and to answer questions. The Planning Commission may revoke any previous approval if it finds that a violation exists and has not been remedied prior to the hearing.

SECTION 2202. STANDARDS FOR APPROVAL

A special land use proposal shall be approved by resolution that the proposed use will comply with all applicable requirements of this Ordinance including site plan review criteria set forth in Article 21, standards for specific uses listed in the district, and all of the following standards

a. Compatibility with Adjacent Uses. The proposed special land use shall be designed, constructed, operated, and maintained to be compatible with existing or planned uses on surrounding land. The design of the site shall minimize the impact of site activity on neighboring properties. In determining whether a special land use will be compatible and not create a significant detrimental impact, as compared to the impacts of permitted uses, consideration shall be given to the degree of impact the special land use may have on adjacent property, as compared with the expected benefit to the community. The following types of impacts shall be considered:
   1. Use activities, processes, materials, equipment, or conditions of operation.
   2. Vehicular circulation and parking areas.
   3. Outdoor activity, visible storage and work areas and mechanical equipment.
   4. Hours of operation.
   5. Production of traffic, noise, vibration, smoke, fumes, odors, dust, glare, and light.
   6. Impacts on adjacent property values.
   7. The relative ease by which the impacts above will be mitigated.

b. Use of Adjacent Property. The proposed land use shall not substantially interfere with the use and enjoyment of adjacent property.

c. Isolation of Existing Uses. The location of the proposed land use shall not result in a small residential area being substantially surrounded by nonresidential development. Also, the location of the proposed land use shall not result in a small nonresidential area being substantially surrounded by otherwise incompatible uses.

d. Impact on Public Health, Safety, and Welfare. The proposed land use shall not include any activities, processes, materials, equipment, or conditions of operation that may threaten public health, safety, and welfare. The physical layout of the site shall be designed in a manner that is not detrimental to public health, safety, and welfare. In determining whether this requirement is met, consideration shall be given to the production of traffic, noise, vibration, smoke, fumes, odors, dust, glare, and light.
e. Enhancement of Surrounding Environment. The proposed land use shall complement and enhance the surrounding environment, and shall not unreasonably interfere with nor discourage the appropriate future development and use of adjacent land and buildings nor unreasonably affect their value. In determining whether this requirement is met, consideration shall be given to:

(1) The provision of landscaping and other on-site amenities. Provision of additional landscaping over and above the specific requirements in this Ordinance may be required as a condition of approval of special land use approval.

(2) The bulk, placement, and materials to be used in the construction of proposed structures as they relate to surrounding land uses.

f. Compatibility with the Master Plan. The proposed special land use shall be consistent with and in accordance with the general principles and objectives of the adopted City Master Plan and shall promote the intent and purpose of this Ordinance and the district in which it is located.

g. Compliance with Applicable Regulations. The proposed special land use shall be designed, constructed, operated and maintained to meet all applicable Federal, State, and local Ordinances.

h. Public Services. The proposed special land use shall be located where it can be adequately served by and not exceed the capacity of existing essential public facilities and services, including, but not necessarily limited to utilities, public roads, and public safety services, unless the project proposal contains an acceptable plan for providing necessary services or evidence that such services will be available by the time the permitted use after special approval is available for occupancy.

i. Impacts of Traffic. The location and design of the proposed special land use site shall minimize the negative impact of traffic generated by the proposed use on the road system in consideration of items such as vehicle trip generation (i.e. volumes), types of traffic, access location and design, circulation and parking design, road and bridge capacity, traffic operations at proposed access points, and traffic operations at nearby intersections and access points. The City may require mitigation to maintain the pre-existing traffic operations. Route and operational restrictions (such as hours, cleaning of dust or debris) may be established for construction traffic to minimize negative impacts. The City may require submittal of a traffic impact study to ensure compliance with this standard. The traffic study shall be in accordance with standard practices and procedures, and prepared by a qualified traffic professional.

j. Impact on the Overall Environment. The proposed special land use shall not have an unacceptable significant adverse effect on the quality of the natural environment in comparison to the impacts associated with typical permitted uses.
SECTION 2203. SPECIAL LAND USE AMENDMENTS OR EXPANSIONS

a. Major Amendments. Any person or agency shall notify the City of any change in an existing special land use. Any major amendment to an approved special land use shall require submittal of a new application for special land use and follow the review procedures contained in this Article. Amendments to the site plan shall bring the site into compliance with all zoning Ordinance requirements determined to be reasonable by the Planning Commission in proportion with the extent of the change at the site and in consideration with the physical constraints of the site. The City shall determine whether the proposed amendment constitutes a minor or major amendment, based on the requirements below:

1. Increase in Building. Changes increase the buildings usable floor area by more than twenty-five percent (25%) since the originally approved building.
2. Increase in Parking. Parking lots are expanded by more than twenty-five percent (25%) since the originally approved lot.
3. Existing Special Land Uses: Any expansion of a special land use that predates the special land use requirements of this Ordinance and has not previously received a special land use permit.

b. Minor Amendment. Minor amendment to an approved special land use does not require submittal of a new application for a special land use.

c. Change in Use. Change to another special land use shall require submittal of a new application for special land use and follow the review procedures contained in this Article.

d. Required Site Plan. Any changes, whether it is deemed minor and major, shall require submittal of a site plan in accordance with Article 21.

e. Multiple Uses. For a use or building which involves more than one (1) activity classified as a special land use, a separate special land use permit shall be required for each use requiring special land use review on a lot.
ARTICLE 23

OFF-STREET PARKING AND LOADING REQUIREMENTS

SECTION 2300. OFF-STREET PARKING REQUIREMENTS

The purpose of this Article is to ensure sufficient automobile off-street parking space with adequate access to all spaces at the time of erection, enlargement or change in use, of any principle building or structure. Off-street parking and loading areas are to be designed, maintained and operated in a manner that will ensure their efficient use, promote public safety, improve aesthetics and, where appropriate, protect surrounding uses from undesirable impacts. The number of off-street parking spaces, in conjunction with all land or building uses shall be provided, prior to the issuance of a certificate of occupancy, as hereinafter prescribed:

a. Off-street parking shall not be permitted within a front yard or a required rear or side yard setback within Residential Districts unless otherwise provided in this Ordinance.

b. Required residential off-street parking spaces shall consist of a parking strip, parking bay, driveway, garage, or combination thereof and shall be located on the premises they are intended to serve.

c. Off-street parking spaces in nonresidential districts shall be permitted within the side yard or rear yard setback, provided that there shall be a minimum setback from the side and rear lot lines of at least ten (10) feet, unless otherwise provided in this Ordinance. Off-street parking shall be permitted within a front yard provided that there shall be maintained a minimum unobstructed and landscaped setback of twenty (20) feet between the nearest point of the off-street parking area and the nearest right-of-way line.

d. Off-street parking for other than residential use shall be either on the same lot or within three hundred (300) feet of the building it is intended to serve, measured from the nearest point of the building to the nearest point of the off-street parking lot. Ownership shall be shown of all lots or parcels intended for Use as parking by the applicant.

c. Any area once designated as required off-street parking shall not be changed to any other use unless and until equal facilities are provided elsewhere.

f. Off-street parking existing at the effective date of this Ordinance, in connection with the operation of an existing building or use shall not be reduced to an amount less than hereinafter required for a similar new building or new use.

g. Two (2) or more buildings or uses may collectively provide the required off-street parking in which case the required number of parking spaces shall not be less than the
sum of the requirements for the several individual uses computed separately.

h. In the instance of dual function of off-street parking spaces where operating hours of buildings do not overlap, the Board of Appeals may grant an exception.

i. The storage of merchandise, motor vehicles for sale, trucks, or the repair of vehicles is prohibited in those areas designated as off-street parking.

j. For those uses not specifically mentioned, the requirements for off-street parking facilities shall be in accord with a use which the Planning Commission considers is similar in type.

k. When units or measurements determining the number of required parking spaces result in the requirement of a fractional space, any fraction up to and including one-half shall be disregarded, and fractions over one-half shall require one parking space.

l. For the purpose of computing the number of parking spaces required, the definition of usable floor area in Article 2 Definitions shall govern.

m. Parking spaces for the physically handicapped shall be located as close as possible to walkways and entrances. Signs shall be provided when necessary, indicating the direction of travel to an accessible entrance. All parking lots and sidewalks shall be designed in conformance with State Act No. 1 of the Public Acts of 1966, as amended.

### City of Au Gres Zoning Ordinance

| Health and Fitness Centers and Clubs | 1.0 space per 200 sq. ft. of gross floor area, plus required spaces for swimming pools, courts, restaurants and other uses |
| Ice/roller Skating Rinks | 1.0 space per 170 sq. ft. of gross floor area plus 50% of parking required for restaurants, pro shops and other uses |
| Pool and Billiard Halls | 1.0 space per 70 sq. ft. of gross floor area or 1.0 space per every three persons of capacity authorized by the BOCA Code |
| Recreation Centers (Indoor) Commercial, Not Already Specified | 1.0 space per 1,000 sq. ft. of gross floor area, plus required spaces for restaurants, banquet rooms, offices, sales area, and other uses |
| Recreation Centers (Outdoor) Public or Commercial | 1.0 space per 200 sq. ft. of gross floor area |
| Soccer and Football Fields | 30.0 spaces per field |
| Swimming Pools | 1.0 space per each three persons of capacity authorized by the State Building Code building code |
| Tennis Courts And Racquetball Centers | 1.0 space per 1,000 sq. ft. gross floor area or 6.0 spaces per court, whichever is greater, plus 50% of required spaces for restaurants, banquet rooms, offices, sales area, and other uses |
| Theaters, Cinemas | 1.0 space per each three seats plus 1.0 space per two employees |

#### INDUSTRIAL

| Light Industrial, Manufacturing, Testing Labs, Research, Design and Development Centers | 5.0 spaces, plus 1.0 space per 500 sq. ft. of gross floor area, or 1.2 spaces per employee, whichever is greater, plus 1.0 space for each corporate vehicle, plus spaces required for any office or sales area |
| Warehousing and Wholesale Establishments (Non-retail) | 5.0 spaces plus 1.0 space per employee or 1.0 space per 2000 sq. ft. of gross floor area, whichever is greater plus 1.0 space for each corporate vehicle plus spaces required for any office or sales area |
a. Uses Not Cited. For those uses not specifically mentioned, the requirements for off-street parking for a similar use shall apply, subject to review by the Planning Commission.

b. Parking Deferment. A smaller amount of parking may be approved by a finding by the Planning Commission that the required amount of parking is excessive, provided that the area to meet the full parking requirement is retained as open space. The site plan shall note the area where parking is being deferred with a dotted parking lot layout. If within a two (2) year period following issuance of a certificate of occupancy the City determines, based on observed use, that the deferred parking is needed, then the parking shall be constructed by the applicant within six (6) months of being informed in writing by the City. The Planning Commission may require posting of a performance bond to cover the estimated construction cost of the deferred parking with a refund in two (2) years if the additional parking is not found to be necessary.

c. Limits on Excessive Parking. In order to minimize excessive areas of pavement which reduces aesthetic standards and contribute to high rates of stormwater runoff, exceeding the minimum parking space requirements by more than twenty percent (20%) shall only be allowed with approval by the Planning Commission. In granting such additional space, the Planning Commission shall determine that such parking will be required, based on documented evidence, to accommodate the use on a typical day.

d. Location of Parking. All off-street parking and loading areas shall be located on the same lot, or other lot in the same district located not more than three hundred (300) linear feet from the building being served. On-street parking may be considered available to meet all or any portion of the needs of a non-residential use in the Town Center District, provided the Planning Commission finds parking spaces are reasonably available at the time of day needed and provided that off-street parking is shown to be not feasible.

SECTION 2302. OFF-STREET PARKING SPACE LAYOUT, STANDARDS, CONSTRUCTION AND MAINTENANCE

Whenever the off-street parking requirements in Section 2301 Minimum Required Off-Street Parking Spaces require the building of an off-street parking facility, such off-street parking lots shall be laid out, constructed and maintained in accordance with the following standards and regulations:

a. No parking lot shall be constructed unless and until a permit therefore is issued by the Building Official. Applications for a permit shall be submitted in such form as may be determined by the Building official and shall be accompanied with two (2) sets of site plans for the development and construction of the parking lot showing that the provisions of this Section will be fully complied with.
b. Plans for the layout of off-street parking facilities shall be in accord with the following minimum requirements:

<table>
<thead>
<tr>
<th>Parking Pattern</th>
<th>Maneuvering Lane Width</th>
<th>Parking Space Width</th>
<th>Parking Space Length</th>
<th>Total Width of One Tier of Spaces plus Maneuvering Lane</th>
<th>Total Width of Two Tiers of Spaces plus Maneuvering Lane</th>
</tr>
</thead>
<tbody>
<tr>

<td>24 ft. (two way)</td>
<td>10ft.</td>
<td>18ft.</td>
<td>40 ft.</td>
<td>60 ft.</td>
</tr>
</tbody>
</table>

c. All spaces shall be provided adequate access by means of maneuvering lanes. Backing directly onto a street shall be prohibited.

d. Adequate ingress and egress to the parking lot by means of clearly limited and defined drives shall be provided for all vehicles.

e. Ingress and egress to a parking lot lying in an area zoned for other than single family residential use shall not be across land zoned for single-family residential use.

f. The entire parking area in the R-3, R-4, TC, and C Districts and special uses in the R-1 and R-2 Districts, including parking spaces and maneuvering lanes, required under this Section shall be provided with asphalt or concrete surfacing in accordance with specifications approved by the City Engineer. Parking in the PT and I Districts shall have driveway approaches in the public right-of-way paved with asphalt or concrete. Parking in the R-1 and R-2 Districts shall have driveway approaches in the public right-of-way paved with asphalt.

g. Off-street parking areas shall be drained so as to dispose of all surface water accumulated in the parking area in such a way as to preclude drainage of water onto adjacent property or toward buildings.

h. All parking areas shall be maintained free of dust, trash, and debris. Surfacing, curbing, parking space striping, lighting fixtures, signage, and related appearances shall be maintained in good condition. All required lawns, landscaping, and plantings
shall be maintained in a healthy, growing condition, neat and orderly in appearance. Trees and shrubs shall be properly pruned of dead and damaged limbs. Dead and severely damaged trees and shrubs shall be removed and replaced according to the minimum planting standards.

SECTION 2303. OFF-STREET WAITING AREA FOR DRIVE-THROUGH FACILITIES

a. An off-street waiting space is defined as an area with a minimum width often (10) feet and a minimum length of twenty (20) feet and shall not include the use of any public space, street, alley or sidewalk and shall be located entirely within the TC or C District.

b. On the same premises with every building structure or part thereof, erected and occupied for the purpose of serving customers in their automobile by means of a service window or similar arrangements where the automobile engine is not turned off, there shall be provided off-street waiting spaces as follows:

<table>
<thead>
<tr>
<th>USE SERVED BY DRIVE-THROUGH LANE</th>
<th>MINIMUM STACKING REQUIREMENTS (PER LANE)</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Restaurant</td>
<td>The distance between the order board and the pick-up window shall store four (4) vehicles, and storage shall be provided for four (4) vehicles in advance of the menu board (not including the vehicles at the pick-up window and menu board)</td>
</tr>
<tr>
<td>b. Financial Institution</td>
<td>Six (6) vehicles per lane inclusive of the vehicle at the window</td>
</tr>
<tr>
<td>c. Car Wash (unattended, coin-operated)</td>
<td>Three (3) vehicles in advance of the washing bay and storage for one and one-half (1/2) vehicles beyond the washing bay as a drying and vacuum area</td>
</tr>
<tr>
<td>d. Car Wash (tunnel wash)</td>
<td>Four (4) times the maximum capacity of the autowash in advance of the tunnel and three (3) vehicles beyond the tunnel for drying areas</td>
</tr>
<tr>
<td>e. Child Care Centers</td>
<td>One (1) vehicle per fifteen (15) children inclusive of the vehicle at the drop-off point. No parking area or maneuvering lanes shall be permitted between the drop-off point and the principal entrance to the building</td>
</tr>
<tr>
<td>f. Dry Cleaners</td>
<td>Four (4) vehicles per lane inclusive of the vehicle at the window</td>
</tr>
<tr>
<td>g. Quick Oil Change</td>
<td>Four (4) vehicles per lane inclusive of vehicle being serviced</td>

<td>Three (3) vehicles per lane inclusive of the vehicle at the window</td>
</tr>
<tr>
<td>i. Convenience Market</td>
<td>Three (3) vehicles per lane inclusive of the vehicle at the window</td>
</tr>
<tr>
<td>j. Other Uses</td>
<td>For uses not listed above, the Planning Commission shall make a determination of minimum required vehicle stacking at the time of site plan review, based upon analysis by the Traffic Engineer and Zoning Administrator.</td>
</tr>
</tbody>
</table>

c. Drive-through lanes shall not utilize any space which is necessary for adequate access to parking spaces from internal maneuvering lanes.

d. Drive-through lanes shall have a minimum center-line radius of twenty-five (25) feet.

e. Drive-through lanes shall be striped, marked, or otherwise distinctively delineated, and shall require a by-pass lane with minimum width of fourteen (14) feet.

f. No space shall be located closer than fifty (50) feet to any lot in any Residential District, unless wholly within a completely enclosed building or enclosed on all sides facing Residential Zones, by a wall or uniformly painted solid board or masonry fence of uniform appearance which is not less than six (6) feet in height, and lights used to illuminate loading areas shall be arranged so as to reflect away from adjacent areas.

SECTION 2304. OFF-STREET LOADING AND UNLOADING

On the same premises with every building, structure, or part thereof, involving the receipt or distribution of vehicles, materials or merchandise, there shall be provided and maintained on the lot, adequate space for standing loading, and unloading in order to avoid undue interference with public use of dedicated rights-of-way. Such space shall be provided as follows:

a. Off-street loading and unloading areas provided pursuant to this Article shall conform to the setbacks provided in Section 2300 Off-Street Parking Requirements.

b. All loading and unloading configurations must be able to accommodate safe and efficient truck and automobile maneuvering.

c. Within the C and TC Districts, all loading areas shall be laid out in the dimension of at least ten (10) square feet per foot of building frontage and shall be computed separately from off-street parking requirements.

d. Within the PT and I Districts all spaces shall be located in the rear yard and laid out in the dimension of at least ten by fifty (10 x 50) feet, or five hundred (500) square feet in area, with a clearance of at least fourteen (14) feet in height. Loading dock approaches shall be provided with a pavement having an asphalt or cement binder so as to provide a permanent, durable and dustless surface. All spaces in the I District shall be provided in the following ratio of space to floor area.
<table>
<thead>
<tr>
<th>Gross Floor Area (In Square Feet)</th>

SECTION 2305. ACCESS MANAGEMENT AND DRIVEWAY STANDARDS

The purpose of this Section is to provide access standards which will facilitate through traffic operations, ensure public safety along roadways, and protect the public investment in the street system; while providing property owners with reasonable, though not always direct, access. The standards are specifically designed for streets whose primary function is the movement of through traffic, as opposed to local streets whose primary function is access to adjacent properties.

a. Application of Standards

The standards of this Article shall be applied to the following major traffic routes, as identified in the Au Gres Comprehensive Plan:
1. U.S. 23
2. Main Street
3. Michigan Avenue
4. Court Street
5. West Street
6. Santiago Street

b. The access standards contained herein shall be required in addition to, and where permissible shall supersede, the requirements of the Arenac County Road Commission (ACRC) and the Michigan Department of Transportation (MDOT).

c. The standards contained in this Section shall apply to all uses, except permitted single-family and two-family dwelling units.

d. For expansion and/or redevelopment of existing sites where the Planning Commission determines that compliance with all the standards of this Article is unreasonable, the standards shall be applied to the maximum extent possible. In such situations, suitable alternatives which substantially achieve the purpose of this Article may be accepted by the Planning Commission, provided that the applicant demonstrates all of the following apply:
1. Size of the parcel is insufficient to meet the dimensional standards.
2. The spacing of existing, adjacent driveways or environmental constraints prohibit adherence to the access standards at a reasonable cost.
3. The use will generate less than five hundred (500) total vehicle trips per day or less than seventy-five (75) total vehicle trips in the peak hour of travel on the adjacent street, based on the most recent rates developed by the Institute of Transportation Engineers (ITE).
4. There are no other reasonable means of access.

c. Number of Driveways

1. Access to a parcel shall consist of either a single two-way driveway or a pair of one-way driveways wherein one (1) driveway is designed and appropriately signed to accommodate ingress movements and the other egress movements.
2. Where parcel frontage is insufficient to provide a driveway meeting the minimum driveway width and radii, a shared driveway or other means of access may be required.
3. Where parcels of at least two (2) acres in area, have frontage along two (2) streets, access should be provided only along the street with the lower average daily traffic volume, unless the Planning Commission determines this would negatively affect traffic operations or surrounding land uses.
4. Where the property has continuous frontage of over three hundred (300) feet and the applicant can demonstrate, using the Institute of Transportation Engineers manual Trip Generation or another accepted reference, that a second access is warranted, the Planning Commission may allow an additional access point. Where possible, this access should be spaced accordingly to the standards contained herein, located on a side street, shared with an adjacent property, and/or be constructed to restrict one (1) or both left turn movements.
5. Where the property has continuous frontage of over six hundred (600) feet, a maximum of three (3) driveways may be allowed, with at least one (1) such driveway being constructed and signed for right-turns-in, right-turns-out only.

f. Shared Access-Joint Driveways, Frontage Roads, Parking Lot Connections and Rear Service Drives

1. Shared use of access between two (2) or more property owners should be encouraged through use of driveways constructed along property lines, connecting parking lots and construction on-site of frontage roads and rear service drives; particularly within one-quarter mile of major intersections, for sites having frontage on two (2) or more streets, where frontage dimensions are less than three hundred (300) feet, at locations with sight distance problems, and/or along roadway segments experiencing congestion or accidents. In such cases, shared access of some type may be the only access design allowed.
2. In cases where a site is adjacent to an existing frontage road, parking lot of a compatible use, or rear service drive, a connection to the adjacent facility may be
required by the Planning Commission.

3. In cases where a site is adjacent to undeveloped property, the site should be
designed to accommodate a future frontage road, parking lot connection or rear
service drive.

4. The applicant shall provide the City with letters of agreement or access easements
from all affected property owners.

g. Adequate Sight Distance

1. Requirements for minimum intersection or corner sight distance for driveways
shall be in accordance with the American Association of State Highway and
Transportation Officials (AASHTO) guidelines defined in Chapter 9 of A Policy

2. The Planning Commission may adjust driveway location where there is
inadequate sight distance.

h. Driveway Spacing From Intersections

1. Driveway spacing from intersections shall be measured from the centerline of the
driveway to the extended edge of the intersecting street’s right-of-way line.

2. In order to preserve intersection operations and safety, the minimum distance
between a driveway and an intersecting street right-of-way shall be based on the
following:

   (a) For locations in the vicinity of intersections experiencing congestion (peak
       hour operations below level of service "C" for one (1) or more movements)
       and/or a significant number of traffic accidents (five or more annually), the
       Planning Commission may require that access be constructed along the
       property line furthest from the intersection.

   (b) For locations within two hundred (200) feet of any signalized or four-way stop
       intersection, driveways shall be spaced a minimum of one hundred fifty (150)
       feet from the intersection. Where this spacing cannot be provided, driveways
       designed for "right-turn in, right-turn out only" movements may be allowed,
       with a minimum spacing of seventy-five (75) feet from the intersecting street
       right-of-way.

   (c) For locations not addressed by paragraph (b) above, not including single-
       family parcels, driveways shall be spaced one hundred (100) feet from the
       intersection.

i. Driveway Spacing From Other Driveways

1. Driveway spacing from other driveways shall be measured from the centerline of
each driveway at the point where it crosses the street right-of-way line.
2. Minimum driveway spacing from other driveways along the same side of the street shall be determined based on posted speed limits along the parcel for each particular frontage, as follows:

<table>
<thead>
<tr>
<th>Driveway Spacing From Other Driveways</th>
</tr>
</thead>
<tbody>
<tr>
<td>Posted Speed (mph)</td>
</tr>
<tr>
<td>---------------------</td>
</tr>
<tr>
<td>25 mph</td>
</tr>
<tr>
<td>30 mph</td>
</tr>
<tr>
<td>35 mph</td>
</tr>
<tr>
<td>40 mph</td>
</tr>
<tr>
<td>45 mph</td>
</tr>
<tr>
<td>50 mph</td>
</tr>
<tr>
<td>55 mph</td>
</tr>
</tbody>
</table>

3. Driveways shall be directly aligned with those across the street or, where offset, the minimum driveway spacing from driveways across the street shall be a minimum of one hundred fifty (150) feet, as determined by the Planning Commission, excluding when one (1) or both driveways are designed and signed for right-turn-in, right-turn-out only.

j. Driveway Design, Channelized Driveways, Deceleration Lanes and Tapers, Bypass Lanes

1. Standards. Driveways shall be designed to the standards of the Arenac County Road Commission, except where stricter standards are included herein or by the City Driveway Construction Standards.

2. Driveway Width and Radii
   (a) The typical driveway design shall include one (1) ingress and one (1) egress lane, with a combined maximum throat width of thirty (30) feet, measured from face to face of curb.
   (b) Wherever the Planning Commission determines that traffic volumes or conditions may cause significant delays for traffic exiting left, two (2) exit lanes may be required.
   (c) For one-way paired driveway systems, each driveway shall be sixteen (16) feet wide, measured perpendicularly.
   (d) In areas with pedestrian traffic, the exit and enter lanes may be separated by a median with a maximum width of ten (10) feet.
   (e) Driveways shall be designed with a twenty-five (25) foot radii; thirty-foot radii where daily semi truck traffic is expected.

3. Driveway Storage. Driveway storage shall be determined by the Planning Commission based on traffic volumes and conditions. A minimum of forty (40) feet of driveway storage shall be provided for less intense developments and a minimum of one-hundred and twenty (120) feet of driveway storage shall be required for larger developments. Driveway storage shall be measured from the right-of-way line.
ARTICLE 24

SIGNS

SECTION 2400. INTENT

The purpose of this Article is to regulate signs and to minimize outdoor advertising within the City of Au Gres to protect public safety, health and welfare; minimize abundance and size of signs to reduce visual clutter, motorist distraction and loss of visibility; promote public convenience; preserve property values; support and complement strategies of the City of Au Gres Master Plan and this Ordinance; and enhance the aesthetic appearance and quality of life within the City.

The regulations and standards of this Article are considered the minimum amount of regulation necessary to achieve a substantial government interest for public safety, aesthetics, protection of property values, and are intended to be content neutral. These objectives are accomplished by establishing the minimum amount of regulations necessary concerning the size, placement, construction, illumination, and other aspects of signs in the City so as to:

a. protect the public right to receive messages, especially non-commercial messages such as religious, political, economic, social, philosophical and other types of information protected by the First Amendment of the U.S. Constitution;

b. recognize that the principal intent of commercial signs, to meet the purpose of these standards and serve the public interest, should be for identification of an establishment on the premises, and not for advertising special events, brand names, or off-premise activities; alternative channels of advertising communication and media are available for advertising which do not create visual blight and compromise traffic safety;

c. recognize that the proliferation of signs is unduly distracting to motorists and non-motorized travelers, reduces the effectiveness of signs directing and warning the public, causes confusion, reduces desired uniform traffic flow, and creates potential for accidents;

d. prevent signs that are potentially dangerous to the public due to structural deficiencies or disrepair;

e. enable the public to locate goods, services and facilities without excessive difficulty and confusion by restricting the number and placement of signs;

f. prevent placement of signs which will conceal of obscure signs of adjacent uses;

g. prevent off-premise signs from conflicting with land uses;

h. preserve and improve the small town atmosphere of the City by encouraging signs of consistent size which are compatible with and complementary to related buildings and uses, and harmonious with their surroundings; and

i. prohibit portable commercial signs in recognition of their significant negative impact on traffic safety and aesthetics.
SECTION 2401. DEFINITIONS

a. Community Events Sign: A temporary sign announcing local community events.
b. Construction Sign: A sign erected on a site-designated on a building permit issued by the City Building Official, which advises the public of the pertinent facts regarding the construction of the building and site improvements.
c. Accessory Ground Sign: A permanent sign supported directly by the ground or with freestanding support provided by upright, braces, or pylons and located in or upon the ground but not attached to a building and accessory to the principal use of the premises.
d. Non-Accessory Sign: A permanent sign which is not accessory to the principal use of the premises (e.g. billboard)
e. Individual Property Sale or Rent Sign: A temporary sign advertising the sale, rent or lease of the property upon which it is located.
f. Institutional Bulletin Board: A sign which displays the name of a religious institution, school, library community center, or similar public or quasi-public institution, and the announcement of its services or activities.
g. Portable Sign: A sign that is free-standing not permanently anchored or secured to either a building or the ground may be capable of being transported on wheels and/or being pulled by a motor vehicle. So called “sandwich” signs, “A” framed signs are not to be construed as portable signs under this Section. “Sandwich” signs and “A” frame signs are specifically prohibited.
h. Private Traffic Direction Sign: A sign directing traffic movement onto or within a premise, located entirely thereupon, and containing no advertising message or symbol.
i. Public Sign: Any sign erected by a state county, or local authority having lawful jurisdiction over public property or right-of-way, for the purpose of traffic control, public safety, or public information.
j. Subdivision Sale Sign: A sign promoting the sale of lots or homes within a subdivision for which final plat approval has been received.
k. Wall Sign: A sign which is attached directly to the wall of a building and which extends not more than twelve (12) inches from the wall, including window signs.
l. Projecting Sign: A sign (other than a wall sign) which projects from and is supported by a building wall, and part of which extends more than twelve (12) inches beyond the building face of ends of the building wall.
m. Roof Sign: A sign attached and any portion of which is erected, constructed and maintained above the roof of a building.
n. Free Standing Pylon Sign: A sign supported by one post placed in the ground, no attached to any building. A pylon sign is of a height and dimension that can be seen from a substantial distance, primarily by state highway traffic, with the bottom of the sign at a higher elevation than the highest point of any building on the lot on which the sign is located.
SECTION 2402. SIGN PROVISIONS APPLICABLE IN ALL DISTRICTS

a. All signs shall conform to applicable Ordinances of the City and, where required, shall be approved by the Building Official, and a permit issued.

b. No sign except those established and maintained by the city, county, state, or federal governments shall be located in, project or overhand a public right-of-way or dedicated public easement.

c. No sign otherwise permitted shall project above the maximum height limitation of the use district where located.

d. No sign shall be illuminated by other than a steady light, nor shall any intermittent or flashing illumination be permitted. Further, no sign or part of a sign move, either by mechanical means or reaction to air, current. This provision shall not preclude message signs and time, temperature, stock market data or similar information.

e. No banners, pennants, balloons, spinners or streamers are permitted on a permanent basis. The Building Official may authorize such decorative streamers on a temporary basis not to exceed 48 hours for special events. In no case shall a business be granted more than three (3) such temporary requests within any given twelve (12) month period.

f. Freestanding accessory ground signs may be located in the required front yard except as otherwise provided herein.

g. No sign shall be of color, lighting or shape or be so located as to conflict or obscure official traffic control signs, light or devises.

h. Measurement of Area of a Sign

1. Measurement of a sign includes the entire area within a circle, or parallelogram enclosing the extreme limits or writing representation, emblem, or any figure of similar character, together with any frame or other material or color forming and integral part of the display or used to differentiate the sign from the background against which it is placed. This excludes the necessary supports or uprights on which the sign is placed but includes any sign tower.

2. Where a sign has two or more faces, the area of all faces shall be included in determining the area of the sign, except that where two such faces are placed back to back and are at no point more that two (2) feet from one another, the area of the sign shall be taken as the area of one face if the two faces are of equal area, or as the area of the larger face if the two faces are of unequal area.

3. In the case of the sphere, the total area of the sphere shall be divided by four (4) to determine the maximum permitted sign area.
i. Sign Setbacks

1. All signs, unless otherwise provided for, shall be set back a minimum of fifteen (15) feet from any public or private street right-of-way line or access drive in all districts. This distance shall be measured from the nearest edge of the sign, measured at a vertical line perpendicular to the ground to the right-of-way.

2. Side yard setbacks for signs shall be the same as that required for the main structure or building, provided that all nonresidential signs shall be set back at least one hundred (100) feet from any residential district.

3. Sight Triangle. No sign shall be located within, project into, or overhang the triangular area formed at the intersection of any two road right-of-way lines (existing or proposed) by a straight line drawn between said right-of-way lines at a distance along each line of twenty-five (25) feet from their point of intersection.

j. Location

1. Sign location to assure adequate sight distance. In order to ensure adequate sight distance for motorists, bicyclists and pedestrians, a minimum clear vision area shall be maintained between a height of twenty-four (24) inches and six (6) feet within a triangular area measured twenty-five (25) feet back from intersection of public right-of-way lines. Furthermore, signs shall not be permitted where they obstruct motorist vision of regulatory signs, traffic-control devices or street signs.

k. Design and Construction Standards

1. All signs, as permitted, shall be designed to be compatible with the character of building materials and landscaping to promote an overall unified and aesthetic effect in accordance with the standards set forth herein.

2. Signs shall be constructed in a safe and stable manner in accordance with the State Building Code and Electrical Code. All electrical wiring associated with a freestanding sign shall be installed underground.

3. All signs shall be designed so that the supporting framework, other than the supporting poles on a freestanding sign, is contained within or behind the face of the sign or within the building to which it is attached so as to be totally screened from view.

4. All signs erected, constructed, reconstructed, altered or moved shall be constructed in such a manner and of such materials so that they shall be able to withstand wind pressure of at least twenty (20) pounds per square foot or seventy-five miles per hour.

5. All signs, including any cables, guy wires, or supports shall have a minimum clearance of four (4) feet from any electric fixture, street light, or other public utility pole or standard.

l. Illumination

1. Signs shall be illuminated only by steady, stationary, shielded light sources directed
solely at the sign, or internal to it.
2. Use of glaring undiffused lights or bulbs shall be prohibited. Lights shall be shaded so as not to project onto adjoining properties or thoroughfares.
3. Sign illumination that could distract motorists or otherwise create a traffic hazard shall be prohibited.
4. Illumination by bare bulbs, neon, luminous tubing or flames is prohibited, except that bare bulbs are permitted on changeable copy signs and theater marques.

SECTION 2403. PROHIBITED SIGNS

Signs are prohibited which.

a. Contain statements, words, or pictures of an obscene, indecent, or immoral character such as will offend public morals or decency.

b. Contain or are an imitation of an official traffic sign or signal or contain the words “stop”, “go slow”, “caution”, “danger”, “warning”, or similar words. Traffic directional signs in a private parking area are exempted from this provision.

c. Are of size, location, movement, content, coloring, or manner of illumination which may be confused with or construed as a traffic control device or emergency vehicle.

d. Obstruct a motorist’s view of any traffic signs, street sign, or traffic signal.

e. Contain or consist of banners, pennants, pinwheels, ribbons, streamers, strings of lights bulbs other than holiday decorations, or similar devices. Upon site plan review, the City Planning Commission may approve specific modifications of this provision.

f. Are freestanding exterior signs and are not anchored or secured to a building or the ground.

g. Are part of a structure designed to be moved from one location to another with a change in message.

h. Are off-site signs.

i. Are roof signs

SECTION 2404. EXEMPT SIGNS

The following signs are specifically exempt from the permit requirements of this Article, provided such signs are outside of the public street right-of-way and are located to ensure adequate sight distance:

a. Address Signs. address numbers with a numeral height no greater than six (6) inches for residences and eighteen (18) inches for businesses;
b. Barber Poles;

c. Flags. Flags or insignia bearing the official design of a nation, state, municipality, educational institution, or noncommercial organization, provided the maximum height of the flagpole is thirty-five (35) feet measured from the average surrounding grade, a maximum of (two) flagpoles per lot;

d. Construction Signs;

e. Public Signs;

f. Political Campaign Signs;

g. For Sale Signs;

h. No Hunting Signs;

i. Small Signs Advertising Commercial Agricultural Products;

j. Rummage/Garage Sale Signs;

k. Awning Signs;

l. Employment Signs "help wanted" signs soliciting employees for the place of business where posted, provided that the maximum area for all such signs shall be six (6) square feet with a maximum height of four (4) feet;

m. Historic Markers. Historical marker including plaques or signs describing state or national designation as a historical site or structure and containing narrative, not exceeding twelve (12) square feet in area;

n. Incidental Signs. Incidental signs not exceeding a total of two (2) square feet, a total of two (2) signs per business indicating acceptance of credit cards or describing business affiliations and are attached to a permitted sign, exterior wall, building entrance or window;

o. Memorial Signs. Memorial signs or tablets, names of buildings and date of erection, monumental citations, commemorative tablets when carved into stone, concrete or similar material or made of bronze, aluminum or other noncombustible material and made an integral part of the structure and not exceeding twenty-five (25) square feet in area;

p. Non-commercial Signs. Non-commercial signs including signs containing non-commercial messages, such as those designating the location of public telephones, restrooms, restrictions on smoking and restrictions on building entrances, provided that such signs do not exceed two (2) square feet in area;

q. Traffic Control Signs. Private traffic control signs which conform to the requirements of
the Michigan Manual of Uniform Traffic Control Devices;

r. Nameplates. Residential nameplates identifying the occupants of the building, the home occupation, or for professional purposes provided such sign shall be limited to one (1) per dwelling and not to exceed two (2) square feet in area; the sign shall not be illuminated and must be attached to an exterior building wall;

s. Signs on Vehicles. Signs on a bus, truck, trailer, or other vehicle while operated and used for transport in the normal course of a business, provided that the primary use of the vehicle displaying the sign shall not be for the purpose of advertising a business on the premises where the vehicle is parked;

t. Device Signs. Permanent signs on vending machines, gas pumps, or ice containers indicating only the contents of such devices, provided that the sign area of each device shall not exceed three (3) square feet in area, limit of one (1) sign per vending machine, gas pump or ice container;

u. Open House Signs. Portable real estate "open house" signs provided the following conditions are met:

1. there shall be only two (2) such signs placed off-premise and one (1) on-premise;
2. each sign shall be a maximum of four (4) square feet in size and three (3) feet in height above grade;
3. signs shall not be affixed to other signs, utility poles, fire hydrants or trees;
4. signs may be located in the public right-of-way but shall be placed at least ten (10) feet from the curb or fifteen (15) feet from the pavement edge where there is no curb;
5. the person or firm placing the signs shall obtain the written permission from the owner or occupant of all properties on which such signs are placed;
6. the signs shall be allowed for a maximum of eight (8) hours per day; and
7. the signs shall be removed within one (1) hour following closing of the open house;

v. Parking Lot Signs. Private parking lot and driveway identification sign limited to one (1) per lot and not to exceed three (3) square feet per sign and six (6) feet in height;

w. Warning Signs. Publicly authorized warning signs, such as no trespassing, warning of electrical currents or animals, provided such signs do not exceed two (2) square feet in area;

x. Public Signs. Regulatory and directional traffic control and street signs erected by a public agency in compliance with Michigan Manual of Uniform Traffic Control Devices; and

y. Enclosed Signs. Any sign which is located completely within an enclosed building, and which is not visible from outside the building.

• The principle building must be set back at least twenty-five (25) feet more than the district setback requirement and must be located on a lot having a width of at least 90 feet.  
• The sign structure shall be located not closer than fifteen (15) feet to the front street right-of-way and at least forty (40) feet from any other signs. |
SECTION 2406. PERMIT PROCEDURE

a. Application for a permit to construct or locate a permanent sign shall be obtained from the City Zoning Administrator. The application shall include the following information.

1. Name, address, telephone number of the landowner, developer, or petitioner.
2. A map of the property at a scale of 1"=25' showing the location and type of existing structures on the site, property boundaries, location and type of structures on adjacent properties, road right-of-way, entrances and exits onto the subject property and approximate location of the proposed sign(s)
3. An elevation drawing of the proposed sign(s) depicting its design, lettering, method of illumination and other relevant information. The dimensions of the height and length and width of the sign(s) and height between ground elevation and the bottom of the sign shall be noted.
4. In the case of a wall sign, an elevation of the wall of the building on which the sign is to be placed, including a depiction of the wall sign at scale, shall be shown. The dimension of the building wall and the sign shall be noted.
5. The proposed dates of construction and completion of the sign.
6. Other information or data as may be required by the Zoning Administrator.

b. In case of a temporary sign, the length of time the proposed sign will be on the site.

c. The Planning Commission shall approve, disapprove, or approve subject to specified conditions, the request for a permit, based upon the standards for this Section.

d. Exceptions to Permit. No permit shall be required for ordinary servicing or repainting of an existing sign message, cleaning of a sign, or changing of the message on the sign where the sign is designed for such changes (such as lettering on a marquee or numbers on a gasoline price sign). Furthermore, a permit shall not be required for signs which are stated as being allowable without a permit.

SECTION 2407. NONCONFORMING SIGNS

Nonconforming signs are those signs that do not comply with the size, placement, construction or other standards or regulations of this Article, but were lawfully established prior to its adoption. The intent is to encourage eventual elimination of nonconforming signs in a timely manner. This objective is considered as much a subject of public health, safety and welfare as the prohibition of new signs in violation of this Article. Therefore, the purpose of
administering this Article is to remove illegal nonconforming signs while avoiding any unreasonable invasion of established private property rights.

a. Signs lawfully erected prior to the effective date of this Article which do not meet the standards thereof may be maintained except as hereafter provided.

b. Nonconforming signs.

1. Shall not be changed to another nonconforming sign
2. Shall not have any changes made in the message displayed unless the sign is specifically designed for periodic change of message
3. Shall not be structurally altered so as to prolong the life of the sign or so to change the shape, size, type, or design of the sign unless such change renders the sign conforming.

c. If the owner of a sign or the premises on which a sign is located changes the location of a building, property line or sign or changes the use of a building so that any sign on the premises is rendered nonconforming, such sign must be removed or made to conform to this Article.

d. On-site signs for any building or land use not conforming to the zoning provisions for the district in which it is located shall not exceed the following size limitations, whichever results in the larger sign area.

1. One-half (1/2) square foot of sign area for each foot of building frontage or one-fourth (1/4) square foot of sign area for each lineal foot of lot frontage, whichever is greater, not to exceed a maximum of twenty-five (25) square feet in area; or,
2. The maximum sign area permitted for the zoning district in which the sign is located.

e. No nonconforming sign shall not be altered or reconstructed, unless the alteration or reconstruction is in compliance with this Ordinance, except that nonconforming signs shall comply with the following regulations:

1. Repairs and Maintenance. Normal maintenance shall be permitted, provided that any nonconforming sign that is destroyed by any means to an extent greater than fifty percent (50%) of the sign's pre-catastrophe fair market value, exclusive of the foundation, shall not be reconstructed. Normal maintenance shall include painting of chipped or faded signs; replacement of surface panels provided the new panels are no larger than the existing panels; or, repair or replacement of electrical wiring or electrical devices.
2. Nonconforming Changeable Copy Signs. The message on a nonconforming changeable copy sign or nonconforming bulletin board sign may be changed provided that the change does not create any greater nonconformity.
3. Modifications to the Principal Building. Whenever the principal building on a site on which a nonconforming sign is located is modified to the extent that site plan review and approval is required, the nonconforming sign shall be removed.
4. Discontinuance. A nonconforming sign shall not be re-established after the activity, business, or use to which it related has been discontinued for ninety (90) days or longer.
5. Continued Use of Non-conforming Sign Structure. Where the City’s Building Official and Zoning Administrator determine that a non-conforming sign structure and frame are in good condition and can be reused by a new occupant in a leased or rented building, the building owner shall not be required to remove the sign structure and frame in the interim periods when the building is not occupied. If the building is unoccupied for less than 30 days the previous business’ sign information may be retained. If the building is unoccupied for more than 30 days, the previous business’ sign information must be removed. In such cases, the sign must be maintained in good condition and any openings must be covered with appropriate panels.

f. Dangerous, Unsafe, Abandoned and Illegally Erected Signs

1. Dangerous Signs. Any sign constituting an immediate hazard to health or safety shall be deemed a nuisance and may be immediately removed by the City and the cost thereof charged against the owner of the property on which it was installed.

2. Unsafe Signs. Any sign that becomes insecure, in danger of falling, or otherwise unsafe but not considered an immediate danger by the Building Official and Zoning Administrator to the health or safety of the public shall be removed or repaired according to the process outline in (5) below.

3. Abandoned Signs. Any sign that advertises a business that has been discontinued for at least ninety (90) days or that advertises a product or service that is not longer offered shall be deemed abandoned. Permanent signs applicable to a business temporarily suspended by a change in ownership or management shall not be deemed abandoned unless the structure remains vacant for at least six (6) months. An abandoned sign shall be removed by the owner or lessee of the premises. If the owner or lessee fails to remove the sign, the Building Official and Zoning Administrator shall initiate the process noted in five (5) below.

4. Illegally Erected Signs. The Building Official and Zoning Administrator shall order the removal of any sign erected illegally in violation of this Article, according to the process outlined below.

SECTION 2408. CONSTRUCTION AND MAINTENANCE

The construction of any sign shall be such that it will withstand all wind and vibration forces which can be normally expected to occur in the vicinity. All signs shall be properly maintained and shall not be allowed to become unsightly through disrepair or action of the elements. No advertising sign or billboard permit shall be issued until the building and zoning inspectors are satisfied the sign to be constructed complies with the provisions of this ordinance and will be constructed in a safe, sturdy and durable manner with proper bracing, anchorage and foundation. A sign shall not be erected or installed until a permit is first obtained from the City Zoning Administrator and from the Building Inspector.

SECTION 2409. VIOLATIONS AND REMOVAL THEREOF

a. Any sign erected, altered, or converted subsequent to the passage of this Article and in violation of any of the provisions thereof is hereby declared to be a nuisance per se.
b. Upon discovery of a violation of this Article the Zoning Administrator shall provide written notice to the person in possession of the premises upon which the sign is erected as is reasonably available and the owner of the premises upon which the sign is erected as shown by the records of the City assessor. Such notice shall state the defects found upon inspection of the sign and order the sign to be brought into compliance with this Article or removed.

c. The Zoning administrator or his/her representative shall also post a copy of such notice upon the violative sign or upon the premises upon which the sign is erected. Such notice shall be sufficiently weatherproof of withstand normal exposure to the elements and shall be readily visible from the nearest public thoroughfare.

d. If the violative sign has not been removed or brought into compliance with this Article within thirty (30) days from the issuance of the order specifies in b. above, the Zoning Administrator or his/her deputies shall provide notice to the person in possession of the premises upon which the violative sign is erected and to the owner of premises upon which the sign is erected to appear at a hearing before a hearing officer and to show cause why the sign should not be considered to be in violation of this Article. Notice shall be provided in the same manner as in b and c above. The hearing shall not be less than ten (10) days from the posting of the notice.

e. The hearing officer shall determine whether the sign involved is in violation of the ordinance based on competent evidence and testimony.

f. If the hearing officer determines that the sign involved is in violation of this Article he/she shall order the action necessary to bring the sign into compliance. Based upon competent evidence and testimony the hearing officer shall also establish a reasonable time by which the requirements of the order shall commence and shall be completed.

g. If the decision and order provided for in f above are not complied with in the specific time, the hearing officer may cause the violative sign to be removed and destroyed. The cost of removal, destruction, and disposal of the sign may be charged against the premises.

h. Nothing in this section shall prevent the Zoning Administrator or Building Inspector from ordering a complete removal of any sign presenting an immediate threat to the safety of the public.

SECTION 2410. APPEAL TO THE ZONING BOARD OF APPEALS

Any party who has been refused a sign permit for a proposed sign may file an appeal with the Zoning Board of Appeals in accordance with this Article of this Ordinance. In determining whether a variance is appropriate, the Zoning Board of Appeals shall study the sign proposal, giving consideration to any extraordinary circumstances, such as those listed below, that would cause practical difficulty in complying with the sign standards. The presence of any of the circumstances listed may be sufficient to justify granting a variance; however, the Zoning Board of Appeals may decline to grant a variance even if certain of the circumstances are
In granting a variance the ZBA may attach such conditions regarding the location, character, and other features of the proposed sign as it may deem reasonable. In granting a variance, the ZBA shall state the grounds and findings upon which it justifies granting the variance.

a. Permitted signage could not be easily seen by passing motorists due to the configuration of existing buildings, trees, or other obstructions.

b. Permitted signage could not be seen by passing motorists in sufficient time to permit safe deceleration and exit. In determining whether such circumstances exist, the Zoning Board of Appeals shall consider the width of the road, the number of moving lanes, the volume of traffic, and speed limits.

c. Existing signs on nearby parcels would substantially reduce the visibility or advertising impact of a conforming sign on the subject parcel.

d. Construction of a conforming sign would require removal or severe alteration to natural features on the parcel, such as but not limited to: removal of trees, alteration of the natural topography, filling of wetlands, or obstruction of a natural drainage course.

e. Construction of a conforming sign would obstruct the vision of motorists or otherwise endanger the health or safety of passers-by.

f. Variance from certain sign regulations would be offset by increased building setback, increased landscaping, or other such enhancements, so that the net effect is an improvement in appearance of the parcel, compared to the result that would be otherwise achieved with construction of a conforming sign.

g. A sign which exceeds the permitted height or area standards of this Article would be more appropriate in scale because of the large size or frontage of the parcel or building.

h. Adjustment in Size, Location. The Zoning Board of Appeals may, upon application by the property owner, make reasonable adjustment in the size and location requirements for any sign, where such action meets all of the following standards:

1. a variance is deemed in the public interest;

2. the variance would not adversely affect properties in the immediate vicinity of the proposed sign;

3. the alleged hardship or practical difficulties supporting the variance request results from conditions that do not generally exist throughout the City, and denial of a variance would preclude all reasonable use of the property;

4. granting a variance would result in substantial justice being done, considering the
public interests protected by the standards of this Article, the individual hardships that would be suffered by denial of the variance and the rights of others throughout the City whose property may be affected by granting the variance; and

5. the type of sign has been designed to make it compatible with the surrounding area.
ARTICLE 25

TELECOMMUNICATIONS FACILITIES

SECTION 2500. PURPOSE

The general purpose of this Article is to regulate the placement, construction and modification of transmission towers and telecommunications facilities in order to protect the health, safety and welfare of the public, while at the same time not unreasonably interfering with the development of the competitive wireless telecommunications marketplace in Au Gres, Michigan. Specifically, the purposes of this Article are:

a. To regulate the location of transmission towers and telecommunications facilities in the City.

b. To protect residential areas and land uses from potential adverse impact of transmission towers and telecommunications facilities.

c. To minimize adverse visual impact of transmission towers and telecommunications facilities through careful design, siting, landscaping and innovative camouflaging techniques.

d. To promote and require, where feasible, shared use/collaboration of transmission towers and antenna support structures as the primary option rather than construction of additional single-use transmission towers.

e. To avoid potential damage to property caused by transmission towers and telecommunications facilities by ensuring such structures are soundly and carefully designed, constructed, modified, maintained and removed when no longer used or determined to be structurally unsound.

f. To ensure that transmission towers and telecommunications facilities are compatible with surrounding land uses.

g. Nothing in this Article shall apply to amateur radio antennas, or facilities, used exclusively for the transmission of television or radio signals.

SECTION 2501. DEFINITIONS

The following words, terms and phrases, when used in this Article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

a. Ancillary Facilities. The buildings, cabinets, vaults, closures and equipment required for operation of telecommunication systems including but not limited to
repeaters, equipment housing and ventilation and other mechanical equipment.

b. **Antennas.** An electrical conductor or group of electrical conductors that transmit or receive radio waves, excluding amateur radio antennas.

c. **Antenna Support Structure.** Any building or other structure other than a transmission tower which can be used for location of telecommunications facilities.

d. **Applicant.** Any person that applies for a transmission tower development permit.

e. **Application.** The process by which the owner of a parcel of land within the City submits a request to develop, construct, build, modify, or erect a transmission tower upon such parcel of land. Application includes all written documentation, verbal statements and representations, in whatever form or forum, made by an applicant to the City concerning such a request.

f. **Attachment.** An antenna or other piece of related equipment affixed to a transmission tower, building, light or utility pole, or water tower.

g. **City-Owned Facilities.** Any structures, buildings or land owned by the City of Au Gres or its assigns.

h. **Collocation.** Placement of an antenna on an existing transmission tower, building, light or utility pole or water tower where the antenna and all supports are located on the existing structure.

i. **Engineer.** Any engineer licensed by the State of Michigan.

j. **Owner.** Any person with fee title, a land contract purchaser's interest, a long-term (exceeding 10 years) leasehold to any parcel of land within the City who desires to develop, construct, build, modify, or erect a transmission tower upon such parcel of land.

k. **Person.** Any natural person, firm, partnership, association, corporation, company, or other legal entity, private or public, whether for profit or not for profit.

l. **Provider.** A person in the business of designing and using telecommunication facilities including cellular radio, telephones, personal communications services, enhanced/specialized mobile radios, and commercial paging services.

m. **Stealth.** Any transmission tower or telecommunications facility which is designed to enhance compatibility with adjacent land uses, including, but not limited to, architecturally screened roof-mounted antennas, antennas integrated into architectural elements, and transmission towers designed to look other than like a transmission tower such as light poles, power poles and trees. The term "stealth" does not necessarily exclude the use of uncamouflaged lattice, guyed or
monopole transmission tower designs.

n. **Telecommunications Facilities.** Any cables, wires, lines, wave guides, antennas and any other equipment or facilities associated with the transmission or reception of communications which a person seeks to locate or has installed upon or near a transmission tower or antenna support structure. However, the term telecommunications facilities shall not include any satellite earth station antenna one meter or less in diameter, regardless of zoning category.

o. **Transmission Tower.** The monopole or lattice framework designed to support transmitting and receiving antennas. For the purposes of this section, amateur radio transmission facilities and facilities used exclusively for the transmission of television and radio signals are not "transmission towers." Transmission towers include:

1. **Guyed Tower.** A tower which is supported by the use of cables (guy wires) which are permanently anchored;
2. **Lattice Tower.** A tower characterized by an open framework of lateral cross members which stabilized the tower; and
3. **Monopole.** A single upright pole, engineered to be self supporting and does not requiring lateral cross supports or guys.

**SECTION 2502 SITING RESTRICTIONS**

a. No telecommunication facility or transmission tower, as defined in this Article, may be constructed, modified to increase its height, installed or otherwise located within the City except as provided in this Article. The telecommunication facility shall be subject to a special use permit.

b. A telecommunication facility or transmission tower, which, pursuant to Sections 2503 through of this Article, requires a special use permit shall be processed in accordance with the special use permit procedures of **ARTICLE 22 SPECIAL LAND USES** of this ordinance and in accordance with established administrative policies. The criteria contained in **ARTICLE 22 SPECIAL LAND USES** of this ordinance and **Sections 2506 Application Requirements and Section 2507 Standards for Transmission Towers and Antennas** of this Article shall govern approval or denial of the special use permit application. In the event of a conflict in criteria, the criteria contained in **Sections 2506 Application Requirements and Section 2507 Standards for Transmission Towers and Antennas** of this Article shall govern. No building permit shall be issued prior to completion of this special use permit process, including any appeals.
SECTION 2503. COLLOCATION OF ADDITIONAL ANTENNAS ON EXISTING TRANSMISSION TOWERS.

a. The applicant must demonstrate to the Planning Commission that a feasible co-location on an existing tower for the new wireless communication facility is not available for the coverage and capacity needs and that a location on municipal property is not practical.

b. Antennae which are attached to an existing tower are encouraged to minimize the adverse visual impacts associated with the proliferation and clustering of towers. Co-location of antennas by more than one (1) carrier on existing towers shall take precedence over the construction of new towers, provided such co-location is accomplished in a manner consistent with the following:

1. A tower which is modified or reconstructed to accommodate the co-location of an additional antenna shall be of the same tower type as the existing tower.

2. An existing tower may be modified or rebuilt to a taller height, not to exceed thirty (30) feet over the tower's existing height, to accommodate the co-location of an additional antenna.

3. A tower which is being rebuilt to accommodate the co-location of an additional antenna may be moved on-site when approved by the Planning Commission.

c. Collocation of an additional antenna on an existing transmission tower shall require a special use permit in property zoned TC, C, PT OR I and approval for collocation was not granted through a prior special use permit process.

SECTION 2504. COLLOCATION OF ANTENNAS ON EXISTING BUILDINGS, LIGHT POLES, UTILITY POLES AND WATER TOWERS

In addition to collocation on an existing transmission tower, an antenna may be collocated on existing buildings, light poles, utility poles and water towers. Such collocation on a building, light pole, utility pole, or water tower shall require a special use permit on property zoned TC, C, PT or I. Said antenna(s) shall not exceed the building height allowed in the zone, or 18 feet above the structure, whichever is less. Said antenna(s) shall project no more than two (2) feet away from the existing structure, and the color of the antenna(s) shall blend in with the existing structure and surroundings.

SECTION 2505. CONSTRUCTION OF NEW TRANSMISSION TOWERS

a. Construction of a transmission tower, or a modification of an existing transmission tower to increase its height shall require a special use permit in the I zone. Such construction shall also require a special use permit in zones TC, C and PT, but shall be permitted only in the following locations:
1. Religious institutions, but only when designed as a steeple, bell tower, or similar accessory structure compatible with the primary use on the property.
2. Parks.
3. Government, public utility, or public school sites.

b. No new transmission tower shall be built, constructed, or erected in the City unless the transmission tower is capable of supporting another firm's operating telecommunications facilities comparable in weight, size, and surface area to the telecommunications facilities installed on the applicant’s transmission tower within six (6) months of the completion of the transmission tower construction pursuant to Section 2507. Standards for Transmission Towers and Antennas.

SECTION 2506. APPLICATION REQUIREMENTS

a. Collocation of Antennas. In addition to standard building permit application material, an applicant for the collocation of antennas on existing transmission towers or on existing buildings, light poles, utility poles or water towers shall submit the following information.

1. A description of the proposed antenna's location, design and height.
2. Documentation from an engineer demonstrating compliance with non-ionizing electromagnetic radiation (NIER) emissions standards as set forth by the Federal Communications Commission (FCC) particularly with respect to any habitable areas within the structure on which the antennas are collocating on or in structures within five hundred (500) feet of the entrance.
3. Documentation from an engineer that placement of the antennas is designed to allow future collocation of additional antennas if technologically possible.
4. Documentation from an engineer that the ancillary facilities will not produce sound levels in excess of those standards specified in Section 2507. Standards for Transmission Towers and Antenna or designs showing how the sound is to be effectively and reduced pursuant to those standards.
5. Plans showing the connection to utilities, right-of-way cuts required, ownership of utilities and easements required.
6. Documents demonstrating that necessary easements have been obtained.
7. Plans showing how vehicle access will be provided.
8. If ancillary facilities will be located on the ground, a landscape plan drawn to scale showing proposed and existing landscaping, including type, spacing, size and irrigation methods.
9. Documents demonstrating that the Federal Aviation Administration (FAA) has reviewed and approved the proposal. Alternatively, when a special use permit process is required, submit a statement documenting that notice of the proposal has been submitted to the FAA. The special use permit process may proceed and approval may be granted for the proposal as submitted, subject to FAA approval. If FAA approval requires any changes involving increased height or additional lighting other than as initially approved, then that initial special use permit approval shall be void. A new application will need to be submitted, reviewed and approved through an additional special use permit process. No building
permit application shall be submitted without documents demonstrating FAA review and approval.

10. The names, addresses, and telephone numbers of all owners of other transmission towers or usable antenna support structures within a one-half (1/2) mile radius of the proposed new transmission tower site, including City-owned property.

11. Each application to allow collocation of antennas shall include a written statement from an engineer(s) that the construction and placement and proposed use of the antennas will not interfere with public safety communications and the usual and customary transmission or reception of radio, television, or other communications service enjoyed by adjacent residential and non-residential properties.

12. A visual study containing, at a minimum, a graphic simulation showing the appearance of the proposed transmission tower, antennas, and ancillary facilities from at least four (4) points within a three (3) mile radius. Such points shall be chosen by the applicant with review and approval by the City Planner to ensure that various potential views are represented.

13. Documentation from an engineer that alternative sites within a radius of at least one-half (1/2) mile have been considered and have been determined to be technologically unfeasible or unavailable.

14. A current overall system plan for the City, showing facilities presently constructed or approved and future expansion plans.

15. A statement providing the reasons for the location, design and height of the proposed transmission tower or antennas.

b. **Installation, Construction, or Increasing the Height of Transmission Tower.**

In addition to standard building permit application material, an applicant seeking to construct, install or increase the height of a transmission tower shall submit the following information.

1. A description of the proposed transmission tower location, design and height.

2. The capacity of the transmission tower in terms of the number and type of antennas it is designed to accommodate.

3. Documentation from an engineer demonstrating compliance with non-ionizing electromagnetic radiation (NIER) emissions standards as set forth by the Federal Communications Commission (FCC).

4. A signed agreement stating that the applicant will allow collocation with other users, provided all safety, structural and technological requirements are met. This agreement shall also state that any future owners or operators will allow collocation on the transmission tower.

5. Documentation from an engineer that the ancillary facilities will not produce sound levels in excess of those standards specified in Section 2507 Standards for Transmission Towers and Antennas, or designs showing how the sound is to be effectively muffled and reduced pursuant to those standards.

6. A landscape plan drawn to scale showing proposed and existing landscaping, including type, spacing, size and irrigation methods.
7. Plans showing the connection to utilities, right-of-way cuts required, ownership of utilities and easements required.
8. Documents demonstrating that necessary easements have been obtained.
9. Plans showing how vehicle access will be provided.
10. Documents demonstrating that the Federal Aviation Administration (FAA) has reviewed and approved the proposal. Alternatively, when a special use permit process is required, submit a statement documenting that notice of the proposal has been submitted to the FAA. The special use permit process may proceed and approval may be granted for the proposal as submitted, subject to FAA approval. If FAA approval requires any changes involving increased height or additional lighting other than as initially approved, then that initial special use permit approval shall be void. A new application will need to be submitted, reviewed and approved through an additional special use permit process. No building permit application shall be submitted without documents demonstrating FAA review and approval.
11. The names, addresses and telephone numbers of all owners of other transmission towers or usable antenna support structures within a one-half (1/2) mile radius of the proposed new transmission tower site, including City-owned property.
12. An affidavit attesting to the fact that the applicant made diligent, but unsuccessful efforts for permission to install or collocate the applicant's telecommunications facilities on City-owned facilities or usable antenna support structures located within a one-half (1/2) mile radius of the proposed transmission tower site.
13. An affidavit attesting to the fact that the applicant made diligent, but unsuccessful efforts to install or collocate the applicant's telecommunications facilities on transmission towers or usable antenna support structures owned by other persons located within a one-half (1/2) mile radius of the proposed transmission tower site.
14. Written, technical evidence from an engineer(s) that the proposed transmission tower or telecommunications facilities cannot be installed or collocated on another person's transmission tower or usable antenna support structure located within a one-half (1/2) mile radius of the proposed transmission tower site because of the coverage requirements of the applicant's communications system.
15. Each application to allow construction of a transmission tower shall include a written statement from an engineer(s) that the construction and placement of the transmission tower will not interfere with public safety communications and the usual and customary transmission or reception of radio, television, or other communications service enjoyed by adjacent residential and non-residential properties.
16. A visual study containing, at a minimum, a graphic simulation showing the appearance of the proposed transmission tower, antennas, and ancillary facilities from at least four (4) points within a three (3) mile radius. Such points shall be chosen by the applicant with review and approval by the City Planner to ensure that various potential views are represented.
17. Documentation from an engineer that alternative sites within a radius of at least one-half (1/2) mile have been considered and have been determined to be
technologically unfeasible or unavailable.

18. A current overall system plan for the City, showing facilities presently constructed or approved and future expansion plans.

19. A statement providing the reasons for the location, design and height of the proposed transmission tower or antennas.

SECTION 2507. STANDARDS FOR TRANSMISSION TOWERS AND ANTENNAS

Installation, construction or modification of all transmission towers and antennas shall comply with the following standards, unless a waiver is obtained pursuant to the provisions of Section 2509 Waiver:

a. Separation between Transmission Towers. No transmission tower may be constructed within one-half (1/2) mile of any existing transmission tower. Tower separation shall be measured by following a straight line from the portion of the base of the proposed transmission tower which is closest to the base of any pre-existing transmission tower. For purposes of this paragraph, an existing tower shall include any transmission tower for which the City has issued a building permit, or for which an application has been filed and not denied. Transmission towers constructed or approved prior to the adoption of this Ordinance may be modified to accommodate additional providers consistent with provisions for collocation in this section.

b. Height Limitation. Transmission tower heights shall be governed by this section except as provided for below.

1. If located within the I District, the maximum height of a transmission tower, including antennas, is one hundred fifty (150) feet, unless a waiver is granted pursuant to the provisions of Section 2509 Waiver.

2. If located within the C or PT districts, the maximum height of a transmission tower, including antennas, is one hundred (100) feet, unless a waiver is granted pursuant to the provisions of Section 2509 Waiver.

3. If located within the TC District, the maximum height of a transmission tower, including antennas, is seventy-five (75) feet, unless a waiver is granted pursuant to the provisions of Section 2509 Waiver.

c. Collocation. It is the policy of the City to minimize the overall number of newly established locations for wireless communication facilities and wireless communication support structures within the city and to encourage the use of existing structures for attached wireless communication facilities. If a provider fails or refuses to permit collocation on a facility owned or controlled by it, where collocation is feasible, the result will be that a new and unnecessary additional structure will be required, in contradiction with this policy. Collocation shall be required unless an applicant demonstrates that collocation is not feasible.
Collocation shall be deemed feasible for the purpose of this article where all of the following are met:

(1) The wireless communication provider or property owner where collocation is proposed will accept market rent or other market compensation for collocation and the wireless communication provider seeking the facility will pay such rates.

(2) The site on which collocation is being considered, taking into consideration reasonable modification or replacement of a facility, is able to provide structural support.

(3) The collocation being considered is technically reasonable, e.g. the collocation will not result in unreasonable interference, given appropriate physical and other adjustments in relation to the structure, antennas and the like.

d. New transmission towers shall be designed to accommodate collocation of additional providers:

1. New transmission towers of a height of one hundred (100) feet or more shall be designed to accommodate collocation of a minimum of two additional providers either outright or through future modification to the transmission tower.

2. New transmission towers of a height of at least sixty (60) feet and no more than one hundred (100) feet shall be designed to accommodate collocation of a minimum of one additional provider either outright or through future modification to the transmission tower.

c. Nonconforming facilities and penalties for not permitting collocation.

If a party who owns or otherwise controls a wireless communication facility shall fail or refuse to alter a structure to accommodate a proposed and otherwise feasible collocation such facility shall thereupon and thereafter be deemed to be a nonconforming structure and use, and shall not be altered, expanded or extended in any respect. In addition, if a party refuses to allow collocation in accordance with the intent of the article and, this action results in construction of a new tower, the City may refuse to approve a new wireless communication support structure from the party for a period of up to five (5) years. Such a party may seek and obtain a variance from the Zoning Board of Appeals if and to the limited extent the applicant demonstrates entitlement to variance relief which, in this context, shall mean a demonstration that enforcement of the five-year prohibition would unreasonable discriminate amount providers of functionally equivalent wireless communication services or that such enforcement would have the effect of prohibiting the provision of personal wireless communication services.

f. Setback. The following setbacks from adjacent property lines and adjacent streets shall be required unless a waiver is granted pursuant to the provisions of Section 2509 Waiver:
1. In all zoning districts in which telecommunication towers are allowed by special permit, the transmission tower shall be set back from adjacent property lines a minimum number of feet that is equal to the height of the transmission tower.

2. If the transmission tower is located on a parcel which abuts residentially zoned property, the transmission tower shall be set back from the adjacent residentially zoned property line a minimum number of feet that is equal to the height of the transmission tower.

3. In all zones in which telecommunication towers are allowed by special permit, transmission towers shall be set back from the edge of adjacent public street right-of-way a minimum number of feet that is equal to the height of the transmission tower.

g. **Buffering.** In all zoning districts in which telecommunication towers are allowed by special permit, existing vegetation shall be preserved to the maximum extent possible. Landscaping shall be placed completely around the transmission tower AND ancillary facilities located at ground level except as required to access the facility. Such landscaping shall consist of evergreen vegetation with a minimum planted height of six (6) feet placed densely so as to form a screen. Landscaping shall be compatible with other nearby landscaping and shall be kept healthy and well-maintained. Landscaping shall be installed on the outside of any fencing.

h. **Noise Reduction.** In the TC, C, PT and I districts, when the adjacent property is zoned residentially or occupied by a dwelling, medical facility, school, library, or nursing home, noise generating equipment shall be sound-buffered by means of baffling, barriers, or other suitable means to reduce sound level measured at the property line to 45 decibels. In all other locations, noise shall be regulated by application of ordinances.

i. **Lighting.** Transmission towers shall not be artificially lighted except as required by the Federal Aviation Administration (FAA). In cases where there are residential uses located within a distance which is three hundred percent (300%) of the height of the transmission tower from the transmission tower, and when required by federal law, dual mode lighting shall be requested from the FAA.

j. **Color.** The transmission tower and attached antennas shall be unpainted galvanized steel or painted neutral colors or such shades as are appropriate and compatible with the surrounding environment, as approved by the City.

k. **Display.** No signs, striping, graphics or other attention getting devices are permitted on the transmission tower or ancillary facilities except for warning and safety signage with a surface area of no more than three (3) square feet. Such signage shall be affixed to a fence or ancillary facility and the number of signs is limited to no more than two (2).
SECTION 2508. STANDARDS FOR ANCILLARY FACILITIES

All ancillary facilities shall comply with the standards of Section 2507. Standards for Transmission Towers and Antennas.

SECTION 2509. WAIVER

a. Any waiver to the requirements of this Article shall be granted only pursuant to the following provisions. The criteria for granting a waiver shall be limited to this Article, and shall not include criteria beyond ARTICLE 25 TELECOMMUNICATIONS FACILITIES.

b. The City may grant a waiver from the provisions of Section 2507 Standards for Transmission Towers and Antennas providing the applicant demonstrates that:

1. It is technologically impossible to locate the proposed transmission tower on available sites more than one-half (1/2) mile from a pre-existing transmission tower and still provide the approximate coverage the transmission tower is intended to provide;
2. The pre-existing transmission tower that is within one-half (1/2) miles of the proposed transmission tower cannot be modified to accommodate another provider; and
3. There are no available buildings, light or utility poles, or water towers on which antennas may be located and still provide the approximate coverage the transmission tower is intended to provide.

c. The City may grant a waiver to the setback requirements of Section 2507. Standards for Transmission Towers and Antennas upon finding that stealth design, proposed landscaping, configuration of the site, or the presence of mature trees obviates the need for compliance.

d. The City may grant a waiver to the one hundred fifty (150) foot height limitation in 1 District, the one hundred (100) foot height limitation in the C and PT districts or to the seventy-five (75) foot height limitation in the TC District, if the applicant shows, through written documentation provided by an engineer, that the proposed height is the minimum height needed to meet service needs AND to accommodate future collocations per Section 2507. Standards for Transmission Towers and Antennas.

SECTION 2510. REMOVAL OF FACILITIES

a. All transmission towers, antennas, transmission tower substructures and ancillary facilities shall be removed within six (6) months of the time that the facilities have ceased being used to transmit, receive or relay voice and data signals to or from wireless communication devices. The responsibility to so remove shall be born by the owner and operator of the tower, antenna, substructure or facility and by the real property owner upon which the tower, antenna, substructure or facility is located. The site must be restored to the extent possible with appropriate landscaping to its pre-transmission...
tower appearance. The City Manager may grant one (1), six (6) month extension where a
written request has been filed, within the initial six (6) month period, to reuse the
transmission tower or antennas.

b. The City may require the posting of an open-ended bond before building permit
issuance to ensure removal of the transmission tower, substructure or antennas after the
facility no longer is being used.

SECTION 2511. FEES

Notwithstanding any other provision of this code, the City Manager may require, as part of
application fees for building or special use permits for telecommunication facilities, an
amount sufficient to recover all of the City's costs in retaining consultants to verify
statements made in conjunction with the permit application, to the extent that
verification requires telecommunications expertise. This amount shall be set by City
Council resolution.

SECTION 2512. REPEALER

All former ordinances or parts of ordinances conflicting or inconsistent with the provisions of
this Article are hereby repealed.

ARTICLE 27

ZONING BOARD OF APPEALS (ZBA)

SECTION 2700. CREATION AND INTENT

A Zoning Board of Appeals (ZBA) is hereby established in accordance with the Michigan Zoning Enabling Act (Public Act 110 of 2006). The purpose of this Article is to establish the authority, procedures and requirements under which the ZBA shall function. It shall also insure that the objectives of this Ordinance are fully and equitably achieved, that a means be provided for competent interpretation of this Ordinance, that flexibility be provided for the strict application of this Ordinance, that the spirit of the Ordinance be observed, public safety secured and substantial justice done.

SECTION 2701. MEMBERSHIP

a. Base Membership. The Zoning Board of Appeals (ZBA) shall consist of not less than five (5) members appointed by the City Council. The Chairman of the Planning Commission, a member of the City Council appointed by the City Council; and the remaining members appointed by the City Council from the electors residing in the City.

b. Alternates. The City Council may appoint not more than two (2) alternate members for the same term as regular members to the ZBA. The alternate members may be called upon as specified herein to sit as regular members of the ZBA in the absence of a regular member if the regular member will be unable to attend one (1) or more meetings. An alternate member may also be called to serve in the place of a regular member for the purpose of reaching a decision on a case in which the regular member has abstained for reasons of conflict of interest. The alternate having been appointed shall serve in the case until a final decision has been made. While serving, the alternate member shall have the same voting rights as a regular member of the ZBA.

c. Terms of Appointment. Appointments shall be for a period of one (1), two (2), and three (3) years, respectfully, so as nearly as may be to provide for appointment at an equal number each year, thereafter, each member to hold office for the full three (3) year term.

d. Reappointment. Members may be reappointed.

e. Membership Restrictions. An elected officer of the City shall not serve as chairperson of the ZBA. An employee of the City may not serve as a member of the ZBA.

f. Removal. Members of the ZBA shall be removable by the City Council for nonfeasance, malfeasance, and misfeasance of office.

g. Conflict of Interest. A member shall disqualify himself or herself from a vote in which the member has a conflict of interest. Failure to do so shall constitute misconduct in office.
h. **Compensation.** The compensation of the appointed members of the ZBA may be fixed by the City Council.

SECTION 2702. ORGANIZATION

a. **Rules of Procedure.** The Zoning Board of Appeals (ZBA) may adopt rules of procedure for the conduct of its meetings and the implementation of its duties. The ZBA shall annually elect a chairperson, a vice-chairperson, and a secretary.

b. **Meetings and Quorum.** Meetings of the ZBA shall be held at the call of the chairperson and at such other times as the ZBA in its Rules of Procedure may specify. Three (3) members of the ZEA shall constitute a quorum for the conduct of business. All meetings shall be open to the public.

c. **Oaths and Witnesses.** The chairperson shall have the power to subpoena, administer oaths, compel the attendance of witnesses, compel testimony and the production of books, papers, files and other evidence pertinent to the matters before it.

d. **Records.** The minutes of all meetings shall contain the grounds for every determination made by the ZBA and the final ruling on each case. The ZBA shall file its minutes in the office of the City Clerk.

e. **Fees.** The City Council may from time to time prescribe and amend by resolution a reasonable schedule of fees to be charged to applicants for appeals to the ZBA. At the time the notice of appeal is filed said fee shall be paid over to the City Treasurer to the credit of the general revenue fund of the City.

SECTION 2703. JURISDICTION AND RESPONSIBILITIES

The Zoning Board of Appeals (ZBA) shall have all jurisdiction and powers granted by the Michigan Zoning Enabling Act (Public Act 110 of 2006), and the following specific jurisdiction and powers:

a. **Appeals.** To hear and decide appeals from and review any order, requirements, permit, decision or determination made by the Zoning Administrator or any other administrative official or body in enforcing the provisions of this Ordinance. The ZBA may reverse or affirm, wholly or in part, or may modify the order, requirement, permit, decision or determination as in the ZBA's opinion ought to be made in the premises, and to that end shall have all the powers of the administrative official or body from whom the appeal is taken.

b. **Interpretations.** To hear and decide matters referred to it or upon which it is required to pass under this Ordinance adopted pursuant to the Michigan Zoning Enabling Act (Public Act 110 of 2006) of the State, or by other Articles of this Ordinance.
c. **Variance**s. Where there are practical difficulties or unnecessary hardship in the way of carrying out the strict letter of the Article applicable to the matter appealed from, the ZBA shall have power in passing upon appeals to vary or modify any of its rules, regulations or provisions relating to the construction, structural changes in, equipment, or alteration of buildings or structures or the uses of land, buildings or structures, so that the spirit of the particular Article shall be preserved, public safety secured and substantial justice done.

d. **Limits of Authority.** The ZBA shall not have the power to alter or change the zoning district classification of any property.

**SECTION 2704. APPEALS**

a. **Filing an Appeal.** Appeals shall be filed with the Zoning Administrator. The application shall describe the action taken and specify the grounds for the appeal. The Zoning Administrator shall forthwith transmit to the Zoning Board of Appeals (ZBA) all the papers constituting the record upon which the action appealed from was taken.

b. **Appeal Time Limit.** An appeal shall be filed within such reasonable time as prescribed by the ZBA by general rule. If no general rule has been adopted, an appeal shall be filed within sixty (60) days of the order, requirements or determination of an administrative official or body.

c. **Stay of Proceedings.** An appeal stays all proceedings in furtherance of the action appealed. The only exception is if the Zoning Administrator certifies to the ZBA that by reason of facts stated in the certificate, a stay would cause imminent peril to life or property. In which case, proceedings shall not be stayed other than by a restraining order which may be granted by the ZBA or by the Circuit Court for the County, on application, on notice to the Zoning Administrator and on due cause shown.

d. **Criteria.** The ZBA is to review the record and decision of the administrative body or official and determine whether the record supports the conclusion that was reached, in light of the requirements of this ordinance. The ZBA is bound by the same rules, procedures, and standards in this ordinance as the original decision body. The ZBA should uphold the original decision unless the record clearly shows that the original decision body or official was one (1) or more of the following:

1. Arbitrary or capricious.
2. Failed to ensure consistency with ordinance standards.
3. Made an error, such as relying on false or inaccurate information.
4. Constituted an abuse of discretion.
5. Was based upon erroneous interpretation of the Zoning Ordinance or zoning law.

**SECTION 2705. INTERPRETATION OF ORDINANCE**

The Zoning Board of Appeals (ZBA) shall hear and decide upon request to.
a. **Interpret Provisions.** Interpret the provisions of this Ordinance when it is alleged that certain provisions are not clear or that they could have more than one meaning. In deciding upon such request the ZBA shall insure that its interpretation is consistent with the intent and purpose of the Ordinance and the article in which the language in question is contained.

b. **Determine Zoning District Boundaries.** Determine the precise location of the boundary lines between zoning districts when there is dissatisfaction with a decision made by the Zoning Administrator.

**SECTION 2706. VARIANCES**

The Zoning Board of Appeals (ZBA) shall prescribe appropriate conditions and safeguards to carry out the requirements of this subsection and shall not grant any variance unless it shall have made a finding of fact based upon the evidence as presented to it in each specific case as specified below.

a. **Area or Dimensional Variance.** The ZBA may grant an area or dimensional variance only upon a finding that practical difficulties exist. An area or dimensional variance is a variance from any dimensional standard or requirement of this ordinance, such as, but not limited to, a deviation from lot width, lot size, density, building and sign height, building and sign bulk, building and sign setback, and other standards and requirements. A finding of practical difficulties shall require demonstration by the applicant of all of the following.

1. Strict compliance with restrictions governing area, setback, frontage, height, bulk, density or other "non-use" matters that will unreasonably prevent the owner from using the property for a permitted purpose or will be unreasonably burdensome. The variance will do substantial justice to the applicant, as well as to other property owners.
2. A lesser variance than that requested will not give substantial relief to the applicant and/or be consistent with justice to other property owners.
3. The need for the variance is due to unique circumstances or conditions peculiar to the property and not generally applicable in the area or to other properties in the same zoning district such as exceptional narrowness, shallowness, shape, topography or area.
4. The problem and resulting need for the variance has not been self-created by the applicant and/or the applicant's predecessor; this may or may not be considered depending upon whether the practical difficulty would have existed regardless of the action.
5. The variance will not alter the essential character of the area. In determining whether the effect the variance will have on the character of the area, the established type and pattern of land uses in the area and the natural characteristics of the site and surrounding area will be considered.
6. The granting of the variance will not materially impair the intent and purpose of this Ordinance.

b. **Use Variance.** The ZBA may grant a use variance only upon a finding that an unnecessary hardship exists that prevents use of the property as currently zoned. A use variance is a
variance that permits a use that is otherwise not provided for in a zoning district. A finding of an unnecessary hardship shall require demonstration by the applicant of all of the following.

1. The applicant has demonstrated that the site can not reasonably be used for any of the uses allowed within the current zoning district designation. The ZBA may require submission of documentation from real estate or market experts, or a certified appraiser, to substantiate this finding.

2. The need for the variance is due to unique circumstances peculiar to the property and not generally applicable in the area or to other properties in the same zoning district. The applicant must prove that there are certain features or conditions of the land that are not generally applicable throughout the zone and that these features make it impossible to earn a reasonable return. In those situations where the difficulty is shared by others, the ZBA may find that relief should be accomplished by an amendment to the zoning ordinance, not a variance.

3. The problem and resulting need for the variance has not been self-created by any action of the applicant or the applicant's immediate predecessor.

4. The capacity and operations of public roads, utilities, other facilities and services will not be significantly compromised.

5. The use variance will not alter the essential character of the neighborhood nor be of detriment to adjacent properties.

SECTION 2707. PROCESS

a. Matters coming before the Zoning Board of Appeals (ZBA) shall be decided no later than thirty (30) days after the hearing on such matter is closed.

b. The decision of the ZBA shall be final upon the earlier of:

   1. Issuance of a written decision signed by the Chairperson of the ZBA.
   2. Approval of the minutes of the meeting at which the decision was made.

c. In its decisions, the ZBA shall state a finding of facts underlying its decisions.

d. Public Hearing. The ZBA shall fix a reasonable time for the hearing of the appeal, and shall be within sixty (60) days of the receipt of the notice of appeal. Written notice of the public hearing shall be made as follows:

   1. The notice shall do all of the following.

      (a) Describe the nature of the request.
      (b) Indicate the property that is the subject of the request. The notice shall include a listing of all existing street addresses within the property. Street addresses do not need to be created and listed if no such addresses currently exist within the property. If there are no street addresses, other means of identification may be used. Individual addresses of properties are not required to be listed for an amendment to
the zoning ordinance, or the zoning map that affects eleven (11) or more properties or an interpretation by the ZBA.
(c) State when and where the request will be considered.
(d) Indicate when and where written comments will be received concerning the request.

2. The notice shall be published and delivered not less than fifteen (15) days before the date of the public hearing as follows.

(a) Notice of the request shall be published in a newspaper of general circulation in the City. This shall be the only notice required for an amendment to the zoning ordinance, or the zoning map that affects eleven (11) or more properties or an interpretation by the ZBA.
(b) Where approval is being sought under this ordinance for an individual property or a rezoning affecting ten (10) or fewer properties, notice shall also be sent by mail or personal delivery to the owners of property for which approval is being considered.
(c) In addition to paragraph (2) above, notice shall be sent to all persons to whom real property is assessed within three hundred (300) feet of the property and to the occupants of all structures within three hundred (300) feet of the property regardless of whether the property or occupant is located in the zoning jurisdiction. If the name of the occupant is not known, the term "occupant" may be used in making notification under this subsection.

e. **Area or Dimensional Variance Votes.** A concurring vote of a majority of the members of the ZBA shall be required to reverse an order, requirements, decisions, or determination of an administrative official or body, or to decide in favor of the applicant, a matter upon which the ZBA is required to pass under this Ordinance.

f. **Use Variance Votes.** A concurring vote of two-thirds (2/3) of the members of the ZBA shall be necessary to grant a variance from uses of land permitted in this Ordinance.

g. Decisions of the ZBA may be appealed to the appropriate court on the record and for that reason the ZBA shall cause a record to be made of its proceedings.

**SECTION 2708. ORDERS, VALIDITY AND LIMITATIONS**

a. No order of the Zoning Board of Appeals (ZBA) permitting the erection or alteration of buildings shall be valid for a period longer than one (1) year, unless a building permit for such erection or alteration is obtained within such period and such erection or alteration is commenced and proceeds to a completion in accordance with the terms of such permit.

b. No order of the ZBA permitting a use of a building or premises shall be valid for a period longer than one (1) year unless such use is established within such period; provided, however, that if the use of such permit is dependent upon the erection or alteration of a building, such order shall continue in full force and effect if a building permit for such use, erection or alteration is obtained within such period and such erection or alteration is commenced and proceeds to completion in accordance with the terms of such permit.
ARTICLE 28
ORDINANCE AMENDMENTS AND
CONDITIONAL REZONING AGREEMENTS

SECTION 2800. INITIATION OF AMENDMENTS

The City Council may, from time to time, amend, modify, supplement, or revise the zoning district boundaries shown on the Official Zoning Map or the provisions of this Ordinance. Amendments to the provisions of this Ordinance may be initiated by the City Council, the Planning Commission, the Zoning Board of Appeals, the Zoning Administrator or by petition of one or more residents or land owners. Amendments to the Official Zoning Map may be initiated by the City Council, the Planning Commission, or by the owner or owners of the subject site. All proposed amendments to the provisions of this Ordinance or the Official Zoning Map shall be referred to the Planning Commission for public hearing and recommendation to the City Council prior to action by the City Council.

SECTION 2801. APPLICATION PROCEDURE

An amendment to this Ordinance or the Official Zoning Map, except those initiated by the City, shall be initiated by submission of a completed application form and fee. The following information shall accompany the application form:

a. A legal description and street address of the subject property, together with a map identifying the subject property in relation to surrounding properties.

b. The name and address of the owner of the subject site, and a statement of the applicant's interest in the subject site if not the owner in fee simple title.

c. The existing and proposed zoning district designation of the subject property.

d. The land use classification for the subject site as illustrated on the City's Master Plan.

e. In the case of an amendment to this Ordinance, other than an amendment to the Official Zoning Map, a general description of the proposed amendment and rationale for the change shall accompany the application form.

f. A written description of how the requested rezoning meets the amendment criteria of this Article.

SECTION 2802. AMENDMENT PROCEDURE; PUBLIC HEARING
AND NOTICE

a. Public Hearing. Upon initiation of an amendment, a work session and public hearing to consider the proposed amendment shall be scheduled before the Planning Commission. If
an individual property or ten (10) or fewer adjacent properties are proposed for rezoning, written notice of the public hearing shall be made as follows:

1. The notice shall do all of the following.
   
   (a) Describe the nature of the request.
   (b) Indicate the property that is the subject of the request. The notice shall include a listing of all existing street addresses within the property. Street addresses do not need to be created and listed if no such addresses currently exist within the property. If there are no street addresses, other means of identification may be used. Individual addresses of properties are not required to be listed for an amendment to the zoning ordinance, or the zoning map that affects eleven (11) or more properties.
   (c) State when and where the request will be considered.
   (d) Indicate when and where written comments will be received concerning the request.

2. The notice shall be published and delivered not less than fifteen (15) days before the date of the public hearing as follows.

   (a) Notice of the request shall be published in a newspaper of general circulation in the City. This shall be the only notice required for an amendment to the zoning ordinance, or the zoning map that affects eleven (11) or more properties.
   (b) Where approval is being sought under this ordinance for an individual property or a rezoning affecting ten (10) or fewer properties, notice shall also be sent by mail or personal delivery to the owners of property for which approval is being considered.
   (c) In addition to paragraph (2) above, notice shall be sent to all persons to whom real property is assessed within three hundred (300) feet of the property and to the occupants of all structures within three hundred (300) feet of the property regardless of whether the property or occupant is located in the zoning jurisdiction. If the name of the occupant is not known, the term "occupant" may be used in making notification under this subsection.

3. If eleven (11) or more properties are proposed for rezoning, or if an amendment is proposed to the text of the ordinance, the City shall give a notice of the proposed rezoning in the same manner as required under section 31.02 A., except for the individual property notices required by subsection (b)(2), and (b)(3) and except that no individual addresses of properties are required to be listed under section (a)(2).

b. Planning Commission Findings and Recommendation. Following the public hearing, the Planning Commission shall identify and evaluate all factors relevant to the petition and shall report its findings and recommendation to the City Council. The Planning Commission shall consider the criteria listed in Section 2804 Criteria for Amendment of the Official Zoning Map for a requested amendment to the Official Zoning Map, and the criteria listed in Section 2805 Criteria for Amendment to the Zoning Ordinance Text for requested amendments to the standards and regulations in the text.
c. City Council Findings and Action. Following receipt of the findings and recommendation of the Planning Commission, the City Council shall act on the proposed amendment. In the case of an amendment to the text of this Ordinance, the City Council may modify or revise the proposed amendment recommended by the Planning Commission prior to enactment. In the case of an amendment to the Official Zoning Map, the City Council shall approve or deny the amendment, based on its consideration of the criteria in Section 2804 Criteria for Amendment of the Official Zoning Map or Section 2805 Criteria for Amendment to the Zoning Ordinance Text as applicable.

SECTION 2803. REQUIRED AMENDMENTS TO COMPLY WITH A COURT DECREED

Any amendment for the purpose of complying with a decree of a court of competent jurisdiction shall be adopted by the City Council and published, without necessity of a public hearing or referral hereof to any other board or agency.

SECTION 2804. CRITERIA FOR AMENDMENT OF THE OFFICIAL ZONING MAP

In considering any petition for an amendment to the Official Zoning Map, the Planning Commission and City Council shall consider the following criteria in making its findings, recommendations and decision:

a. Consistency with the goals, policies, and future land use map of the City of Au Gres Master Plan. If conditions upon which the Master Plan was developed (such as market factors, demographics, infrastructure, traffic and environmental issues) have changed significantly since the Master Plan was adopted, as determined by the City, the Planning Commission and Council shall consider the consistency with recent development trends in the area.

b. Compatibility of the site’s physical, geological, hydrological, and other environmental features with the host of uses permitted in the proposed zoning district.

c. Evidence the applicant cannot receive a reasonable return on investment through developing the property with at least one (1) of the uses permitted under the current zoning.

d. The compatibility of all the potential uses allowed in the proposed zoning district with surrounding uses and zoning in terms of land suitability, impacts on the environment, density, nature of use, traffic impacts, aesthetics, infrastructure and potential influence on property values.

e. The capacity of the City’s infrastructure and services sufficient to accommodate the uses permitted in the requested district without compromising the health, safety, and welfare*.

f. The apparent demand for the types of uses permitted in the requested zoning district in relation to the amount of land currently zoned and available to accommodate the demand.
g. The request has not previously been submitted within the past one (1) year, unless conditions have changed or new information has been provided.

h. Other factors deemed appropriate by the Planning Commission and City Council.

SECTION 2805. CRITERIA FOR AMENDMENT TO THE ZONING ORDINANCE TEXT

The Planning Commission and City Council shall consider the following criteria to determine the appropriateness of amending the text, standards and regulations of the Zoning Ordinance.

a. Documentation has been provided from City Staff, or the Zoning Board of Appeals indicating problems and conflicts in implementation of specific sections of the Ordinance.

b. Reference materials, planning and zoning publication, information gained at seminars or experiences of other communities that demonstrate improved techniques to deal with certain zoning issues, or that the City's standards are outdated.

c. The City Attorney recommends an amendment to respond to significant case law.

d. The amendment would promote implementation of the goals and objectives of the City’s Master Plan.

e. Other factors deemed appropriate by the Planning Commission and City Council.

SECTION 2806. RESTRICTIONS ON RESUBMITTAL OF A REZONING REQUEST

An application for an amendment to the Official Zoning Map (i.e. a rezoning request) that has been denied shall not be reconsidered for one (1) year, unless the applicant demonstrates that conditions have changed.

SECTION 2807. CONDITIONAL REZONING

An applicant for a rezoning may voluntarily offer a zoning agreement along with an application for rezoning. An election to file a rezoning with a zoning agreement shall be pursuant to the City and Village Zoning Act, as amended, and this Article. The conditions set forth in the zoning agreement must be voluntary and equally or more restrictive than the regulations that would otherwise apply under the proposed zoning district. The zoning agreement shall be a written agreement that is approved and executed by the applicant and the City and recorded with the Arenac County Register of Deeds. When necessary, the zoning agreement shall also include and incorporate, by reference, a site plan. This plan shall not replace the requirement for a site plan as outlined in Article 29. The zoning agreement must be voluntarily offered by the applicant and the City shall not have the authority to require a petitioner for rezoning to offer such agreement and shall not have the authority to require
modification to a zoning agreement without the consent of the petitioner; provided, the City shall not enter into a zoning agreement that is not found acceptable to the City Council.

a. **Scope of Agreement.** The zoning agreement may include limitations on the uses permitted on the property in question, specification of lower density or less intensity of development and use, or may impose more restrictive measures on the location, size, height, or other measure for buildings, structures, improvements, setbacks, landscaping, buffers, design, architecture and other features. The zoning agreement may not authorize uses or developments of greater intensity, or density or which are not permitted in the proposed zoning district; nor may a zoning agreement permit variations from height, area, setback or similar dimensional requirements that are less restrictive than the proposed zoning district. The zoning agreement may include conditions related to the use and development of the property that are necessary to:

1. Serve the intended use of the property such as extension of or improvements to roadways, utilities or other infrastructure serving the site;
2. Minimize the impact of the development on surrounding properties; and
3. Preserve natural features and open space.

b. **Content of Agreement.** In addition to any limitations on use or development of the site, preservation of site features or improvements described in A above, the zoning agreement shall also include the following:

1. Acknowledgement that the zoning agreement was proposed voluntarily by the applicant and that the City relied upon the agreement and may not grant the rezoning but for the terms spelled out in the zoning agreement.
2. Acknowledgement that the zoning agreement and its terms and conditions are authorized by all applicable State and Federal law and constitution, and that the zoning agreement is valid and was entered into on a voluntary basis.
3. Agreement and understanding that the property shall not be developed or used in any manner that is not consistent with the zoning agreement.
4. Agreement and understanding that the approval of the rezoning and the zoning agreement shall be binding upon and inure to the benefit of the property owner and the City, and also their respective heirs, successors, assigns, receivers or transferees.
5. Agreement and understanding that, if a rezoning with a zoning agreement becomes void in accordance with this section, that no further development shall take place and no permits shall be issued unless and until a new zoning district classification for the property has been established.
6. Agreement and understanding that no part of the zoning agreement shall permit any activity, use, or condition that would otherwise violate any requirement or standard that is otherwise applicable in the proposed zoning district.
7. Any other provisions as are agreed upon by the parties.

c. **Future Rezonings.** Nothing in the zoning agreement, nor any statement or other provision, shall prohibit the City from later rezoning all or any portion of the property that
is the subject of the zoning agreement to another zoning classification. Any rezoning shall be conducted in compliance with this Ordinance and the City and Village Zoning Act.

d. **Compliance with Agreement.** Provided that all development and use of the property in question is in compliance with the zoning agreement, a use or development authorized thereunder may continue indefinitely, provided that all terms of the zoning agreement continue to be adhered to. Failure to comply with the zoning agreement at any time after approval will constitute a breach of the agreement and also a violation of this Ordinance, and further use of the property may be subject to legal remedies available to the City.
ARTICLE 29

ADMINISTRATION AND ENFORCEMENT

SECTION 2900. ENFORCEMENT

The provisions of this Ordinance shall be administered and enforced by the Zoning Administrator, or by such deputies of his department as the Zoning Administrator may delegate to enforce the provisions of this Ordinance. The Zoning Administrator shall be appointed by the City Council for such term and subject to such conditions and at such rate of compensation as said Council shall determine. In the exercise of duties, the Zoning Administrator shall have the right to enter private premises, as provided by law.

SECTION 2901. DUTIES OF ZONING ADMINISTRATOR AND BUILDING OFFICIAL

a. Zoning Administrator Duties. The Zoning Administrator shall have the authority to enforce the terms of this Ordinance, issue zoning compliance and other permits as stipulated hereto, to ensure approved plans and permits are carried out in accordance with their approvals, and to make inspections of buildings or premises as necessary. The Zoning Administrator shall also document all non-conforming uses existing at the effective date of this Ordinance for the purpose of carrying out the provisions of Article 20 NONCONFORMITIES.

b. Building Official Duties. The Building Official shall have the authority to issue building and construction permits and certificates of occupancy to applicants, assist the Zoning Administrator in enforcing requirements that relate to State Building Code and construction elements, and to make inspections of buildings or premises as necessary.

c. General Requirements: The following general requirements apply to both positions:

1. Issuance of a permit shall not be refused when an application is in compliance with the requirements of this Ordinance or other applicable codes.
2. The Building Official and Zoning Administrator do not have the authority to amend the requirements of this ordinance unless discretion is granted within the terms of a particular section.

SECTION 2902. PLOT PLAN

The Building Official may require that all applications for building permits be accompanied by plans and specifications including two (2) copies of a plot plan, drawn to scale, showing the following:

a. The actual shape, location, and dimensions of the lot.
b. The shape size and location of all buildings or other structures to be erected, altered or moved and of any building or other structures already on the lot.

c. The existing and intended use of the lot and of all such structures upon it including, in residential areas, the number of dwelling units the building is intended to accommodate.

d. Such other information concerning the lot or adjoining lots as may be essential to determining whether the provisions of this Ordinance are being observed.

SECTION 2903. PERMITS

The following shall apply in the issuance of any building permit:

a. **Permits Not to be Issued.** No building permit shall be issued for the erection, alteration, or use of any building or structure as part thereof, or for the use of any land, which is not in accordance with all provisions of this Ordinance.

b. **Permits for New Use of Land.** No vacant land shall be used and no existing use of land shall be changed to another type of use unless a certificate of zoning compliance is obtained for the new or different use.

c. **Permits for New Use of Building.** No building or structure, or part thereof, shall be changed or occupied by a different use unless a certificate of occupancy is first obtained for the new or different use.

d. **Permits Required.** No building or structure, or part thereof, shall be hereafter erected, altered, moved or repaired unless a building permit shall have been first issued for such work. The terms “altered” and “repaired” shall include any changes in structural parts, stairways, type of construction, type, class or kind of occupancy, light or ventilation, means of egress and ingress, or other changes affecting or regulated by the State Building Code, Housing Law of Michigan, or this Ordinance, except for minor repairs or changes not involving any of the aforesaid features.

e. **Inspection:** The Building Official shall be notified by the person, firm, or corporation obtaining the building permit when the foundations are completed and the Building Official shall inspect same within three (3) days after notification. If in conformance with the provisions of this Ordinance, the Building Official shall endorse each fact upon the building permit.

SECTION 2904. CERTIFICATE OF OCCUPANCY

No land, building or part thereof, shall be occupied by or for any use for which a building permit is required by this Ordinance unless and until a certificate of occupancy shall have been issued for such new use by the Building Official. The following shall apply in the issuance of any certificate:
City of Au Gres Zoning Ordinance

a. **Certificates Not to be Issued.** No certificate of occupancy pursuant to the State Building Code shall be issued for any building, structure or part thereof or for the use of any land, which is not in accordance with all the provisions of this Ordinance.

b. **Certificates Required.** No building or structure, or parts thereof, which is hereafter erected or altered, shall be occupied or used or the same caused to be done, unless and until a certificate of occupancy shall have been issued for such building or structure.

c. **Certificates Including Zoning.** Certificates of occupancy as required by the Building Code for new buildings or structures, or parts thereof, or for alterations to or changes of use of existing buildings or structures, shall also constitute certificates of occupancy as required by this Ordinance.

d. **Certificates for Existing Buildings.** Certificates of occupancy may be issued for existing buildings, structures, or parts thereof, or existing uses of land if, after inspection, it is found that such buildings, structures, or parts thereof, or such use of land, are in conformity with the provisions of this Ordinance. Certificates of occupancy may be issued for business buildings existing at the effective date of this Ordinance which change occupancy and which do not provide sufficient parking as required in this Ordinance, provided there is no decrease in the number of spaces existing at the effective date of this Ordinance.

e. **Temporary Certificates.** Nothing in this Ordinance shall prevent the issuance of a temporary certificate of occupancy for a portion of a building or structure in process of erection or alteration, provided that such temporary certificate shall not be effective for a period of time in excess of six (6) months, and provided further that such portion of the building, structure, or premises is in conformity with the provisions of this Ordinance.

f. **Records of Certificates.** A record of all certificates issued shall be kept on file in the office of the Zoning Administrator, and copies shall be furnished upon request to any person having proprietary or tenancy interest in the property involved.

g. **Certificates for Residential Accessory Buildings.** Buildings accessory to residential dwellings shall not require separate certificates of occupancy but may be included in the certificate of occupancy for the dwelling when shown on the plot plan and when completed at the same time as such dwellings.

h. **Applications for Certificates.** Application for certificates of occupancy shall be made in writing to the Building Official on forms furnished by the City and such certificates shall be issued within five (5) days after receipt of such application if it is found that the building or structure, or part thereof or the use of land is in accordance with the provisions of this Ordinance. If such certificate is refused for cause, the applicant therefore shall be notified of such refusal and cause thereof, within the aforesaid five (5) day period.
SECTION 2905. FINAL INSPECTION

The holder of every building permit for the construction, erection, alteration, repair, or moving of any building, structure, or part thereof, shall notify the Building Official immediately upon the completion of the work authorized by such permit, for a final inspection.

SECTION 2906. FEES

Applicants for permits required by this Ordinance shall pay to the City, at the time of application for such permit, applicable fees. Fees are set by City Council and contained in the City’s fee schedule that is updated periodically by resolution of City Council.

SECTION 2907. VIOLATIONS

a. Any violation of any provision of this Ordinance or any permit, license or exception granted hereunder, or any lawful order of the Zoning Administrator, Planning Commission, Zoning Board of Appeals, or the City Council issued in pursuance of this Ordinance shall be a municipal civil infraction. A “violation” includes any act which is prohibited or made or declared to be unlawful or an offense by this Ordinance and any omission or failure to act where the act is required by this Ordinance.

b. The sanction for any violation of this Ordinance which is a municipal civil infraction shall be a civil fine as provided in this Article, plus any costs, damages, expenses and other sanctions, as authorized under Chapter 87 of Act 236 of the Public Acts of 1961, as amended, and other applicable laws.

c. The Zoning Administrator, Building Official, and Police Officers of the City, are the City officials authorized to issue municipal civil infraction citations and municipal civil infraction notices for violations of this Ordinance.

SECTION 2908. PUBLIC NUISANCE PER SE

In addition to all other remedies, including the penalties provided in this Section of this Ordinance, the City may commence and prosecute appropriate actions or proceedings in a court of competent jurisdiction, to retain or prevent any noncompliance with or violation of any of the provisions in this Ordinance, or to correct, remedy or abate such non-compliance or violation. Buildings erected, altered, razed or converted, or uses carried on in violation of any provisions of this Ordinance or in violation of any regulations made under the authority of the Michigan Zoning Enabling Act (Public Act 110 of 2006), are hereby declared to be a nuisance per se, and the court shall order such nuisance abated.

SECTION 2909. RIGHTS AND REMEDIES ARE CUMULATIVE

The rights and remedies provided herein are cumulative and in addition to any other remedies provided by law.
SECTION 2910. FORBEARANCE NOT CONDONED

Forbearance in enforcement of this Ordinance shall not be deemed condonation of any violation thereof.

SECTION 2911. FINES, SANCTIONS

The owner of any building, structure or premises of part thereof, where any condition in violation of this Ordinance shall exist or shall be created, and who has assisted knowingly in the commission of such violation shall be guilty of a separate offense and upon conviction thereof shall be liable for the fines and sanctions herein provided.

SECTION 2912. EACH DAY A SEPARATE OFFENSE

A separate offense shall be deemed committed upon each day during or when a violation occurs or continues.

SECTION 2913. DECLARATION OF A ZONING MORATORIUM

Notwithstanding any other provision of this zoning ordinance, the city council may, by resolution, declare a moratorium on the issuance of any permit under this ordinance, the processing of any permit application hereunder, the processing of any rezoning request, the processing of any site plan review, special land use request, or the processing of any other application made under this zoning ordinance. Such a moratorium may be declared by the city council only under the following conditions:

a. The City Council finds, based on facts appearing in the public record before it, that such a moratorium is necessary to protect the public health, safety and welfare and that no other action short of imposing such a moratorium can adequately protect the public health, safety and welfare.

b. The moratorium is for a limited period of time, not to exceed six (6) months, but may be extended for no more than one (1) additional six (6) month period upon a new and separate finding of the facts required by a. above.

c. The moratorium is limited in its scope and area of application so as to only affect those matters and that area necessary to protect the public health, safety and welfare.

d. The resolution declaring the moratorium shall be published in a newspaper of general circulation within the City.

e. The resolution declaring the moratorium shall specify the effective date of such moratorium which may be the date of publication or another date following such publication.
f. The resolution declaring the moratorium shall be adopted by a vote of no fewer than five (5) members of the City Council.

SECTION 2914. PUBLIC HEARINGS

Notwithstanding any other requirements in this Ordinance to the contrary, notices for all public hearings shall be given as follows:

a. The notice shall:

1. Describe the nature of the request.
2. Indicate the property that is the subject of the request. The notice shall include a listing of all existing street addresses within the property. Street addresses do not need to be created and listed if no such addresses currently exist within the property. If there are no street addresses, other means of identification may be used.
3. State when and where the request will be considered.
4. Indicate when and where written comments will be received concerning the request.

b. Except as required in c. and d., below, notices for all public hearings shall be given as follows:

1. Notice of the hearing shall be not less than fifteen (15) days before the date of the public hearing
2. Notice of the hearing shall be published in a newspaper of general circulation
3. Notice shall be sent by mail or personal delivery to the owners of property for which approval is being considered.
4. Notice shall also be sent by mail to all persons to whom real property is assessed within three hundred (300) feet of the property and to the occupants of all structures within three hundred (300) feet of the property regardless of whether the property or occupant is located in the zoning jurisdiction. If the name of the occupant is not known, the term "occupant" may be used in making notification under this subsection.

c. Newspaper publication as required in b. above shall be the only notice required for an amendment to the Zoning Ordinance or the zoning map that affects eleven (11) or more properties.

d. Zoning Board of Appeals

1. For ordinance interpretations and appeals of administrative decisions by the Zoning Board of Appeals notice shall be only to the applicant and by newspaper publication, as required in b.2. above.
2. If the interpretation or appeal of an administrative decision involves a specific property, notice shall be given to the person bringing the appeal and as required in b.1.-3., above.
